Fire in the South American Ecosystems Alessandra

Fidelis,Vânia R. Pivello,2025-07-01 The incidence of anthropogenic fires in South America has increased lately and fire effects on the biodiversity and ecosystem services are of great concern On the other hand natural fires have been present in the continent for thousands of years acting as an evolutionary driver of vegetation and fauna Therefore several ecosystems in South America are fire prone due to their evolutionary history while those that have not evolved under frequent fires are fire

sensitive At the same time as humans increase fire frequency in some environments they try to banish fire from others and such anthropogenic fire regimes have enormous consequences for biota ecosystem services and the environment This book will address the various South American ecosystems that benefit from the presence of fire but also those that are harmed by fire The effects of fire on plant and animal biodiversity of the main South American ecosystems will be presented and discussed considering current trends in climate and land use change bringing understanding about when and how fire should or should not be used to benefit nature and humans Options for fire planning and management will be highlighted especially considering the reduction of wildfire risk and the conservation of biodiversity and natural resources This broad comprehension of the fire issue in South America will support wise decisions by environmental analysts conservation managers and public policy makers

The LORD's Service Robert D. Macina,2019-06-26 Worship in the Old Testament has been frequently misunderstood Its rites and ceremonies are often perceived as legalistic works that were required by an angry God to gain his favor or avert his wrath But is that really what the Bible teaches To be sure the LORD did institute the divine service in the Old Testament with all of its laws rites and ceremonies Yet did God do this in order to be appeased or pleased by the ancient Israelites When the priests enacted the offerings and sacrifices at the sanctuary was it merely to do good works that God required but without meaning or purpose for his people Was worship in the Old Testament always what the people did for the LORD or did God do anything that was beneficial to the Israelites This book answers these questions and furthermore dispels the recurring misinterpretation of worship in the Old Testament The LORD established the divine service in the Pentateuch not to receive what he demanded from the people of ancient Israel but on the contrary to cleanse them from their sinful impurities sanctify them to share in his holiness and dwell among them with his blessing Fire in Relation to Primitive Agriculture and Grazing in the Tropics: A-G, Tropics in general; H-J, South Asia and Oceania Harley Harris Bartlett,1955
