Power in the Blood Greg Matthews, 2016-05-03 Siblings separated on an orphan train reunite years later to seek revenge in the lawless West in this great novelist's masterwork. Stephen King. In 1869 the Dugan siblings board an orphan train in upstate New York. Adopted by different families at separate stops along the train's westward journey, Clay, Zoe, and Drew vow to find one another as soon as they can, but tragic circumstances conspire against them. Clay avenges the brutal murder of his foster parents and becomes one of the most feared bounty hunters in the West. Raped by her new father, Zoe gives birth to a daughter whose vivid blue birthmark portends the gift of second sight. And Drew, abandoned in the desert by a religious fanatic, is rescued by renegade Apache brothers and falls in with a crowd of murderers, prostitutes, and bank robbers. When fate finally reunites the siblings, Zoe enlists Clay and Drew in a plot against a ruthless Colorado gold magnate bent on stealing her fortune. Decades spent practicing the art of survival have taught the Dugans that the odds are always stacked against them, but if they stopped to consider the odds, they would have been dead long ago. Hailed by the *Chicago Tribune* as a great page-turning stay-up-late-into-the-night saga and ideal for fans of Larry McMurtry and Cormac McCarthy, *Power in the Blood* takes readers on an epic journey into the dark heart of the American frontier.

War in the Blood Chris Beyrer, 2017-07-15 Effective treatment for HIV and AIDS came in 1996. For sufferers in the developed world, this marked a true watershed moment: the end of the death sentence. But for many in the developing world, including in Southeast Asia, these new treatments remained far out of reach. In his early thirties, following the loss of his partner to an AIDS-related illness, Chris Beyrer wrote the first edition of *War in the Blood*. Three decades later, having served as president of the International AIDS Society, he believes we have arrived at an extraordinary milestone. For the first time, a patient has been demonstrably cured of HIV; new vaccine trials in Thailand have shown great promise, and the PrEP programme genuinely works. So why are over half of the estimated 38.8 million people living with HIV still not on treatment? *War in the Blood* is a labour of love, both a celebratory account of Southeast Asia and the story of our failure to protect those most vulnerable: the world over, gay men, adolescent girls, sex workers, drug users, and transgender women. Beyrer offers an impassioned plea for our communities and governments, and our own hearts and minds, to stop denying the realities of sex, sexuality, and gender, and to take affirmative action.
