**Fire of Ambition** N. P. Eisenstadt, William Samelson, 2013      **The Emotional Mind** Stephen T. Asma, Rami Gabriel, 2019-04-15 Tracing the leading role of emotions in the evolution of the mind a philosopher and a psychologist pair up to reveal how thought and culture owe less to our faculty for reason than to our capacity to feel Many accounts of the human mind concentrate on the brain s computational power Yet in evolutionary terms rational cognition emerged only the day before yesterday For nearly 200 million years before humans developed a capacity to reason the emotional centers of the brain were hard at work If we want to properly understand the evolution of the mind we must explore this more primal capability that we share with other animals the power to feel Emotions saturate every thought and perception with the weight of feelings The Emotional Mind reveals that many of the distinctive behaviors and social structures of our species are best discerned through the lens of emotions Even the roots of so much that makes us uniquely human art mythology religion can be traced to feelings of caring longing fear loneliness awe rage lust playfulness and more From prehistoric cave art to the songs of Hank Williams Stephen T Asma and Rami Gabriel explore how the evolution of the emotional mind stimulated our species cultural expression in all its rich variety Bringing together insights and data from philosophy biology anthropology neuroscience and psychology The Emotional Mind offers a new paradigm for understanding what it is that makes us so unique      The Works of Michael de Montaigne, Comprising His Essays, Letters, and Journey Through Germany and Italy Michel de Montaigne, 1853      **Works: Comprising His Essays, Letters, and Journey Through Germany and Italy; with Notes, Notices, Etc** Michel de Montaigne, 1849      The English household magazine , 1883      **An exposition of the New Testament [from An exposition on the Old and New Testament] with a preface by C.H.
