Firefighting Strategies and Tactics James Angle, Michael Gala, David Harlow, 2001. This book offers comprehensive coverage of all firefighting strategies and tactics from standard company responsibilities and assignments to specialized situational strategies and tactics. Written by a team of experienced fire service personnel representing a variety of geographic and professional viewpoints, students get first-hand knowledge of strategies and tactics whether it's fighting high-rise or wildland fires from people who have been there. In a directed, logical format, this text takes students from basic concepts to the application of tactics and situational strategies for particular occupancies or types of fires. The student is presented with opportunities to get feedback on their progress every step of the way in each chapter. This text can be used in the college and university systems as well as fire academies and fire departments for educating and training personnel in firefighting strategies and tactics and it also serves as an excellent resource for fire department promotional exams.

Structural Firefighting: Strategy and Tactics includes Navigate Advantage Access Bernard "Ben" J. Klaene, Thomas C. Lakamp, 2020-09-14. The fourth edition of *Structural Firefighting Strategy and Tactics* meets and exceeds the course objectives and outcomes for the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) non-core course Strategy and Tactics C0279. *Structural Firefighting Strategy and Tactics* prepares the fire officer to take command at structure fires effectively using available resources. The goal of this text is to explain proven tactics and strategies used at structure fires. It is designed to be used by all fire officers from company officer to chief of department. The Fourth Edition provides the necessary tools to achieve maximum productivity under adverse fireground conditions. It references NFPA fire investigations, applicable NFPA statistics and standards, the NIOSH Firefighter Fatality Investigation and Prevention Program, and the Technical Report Series from the U.S. Fire Administration. It has been expanded to include information from recent studies by the National Institute of Standards and Technology (NIST), Underwriters Laboratories (UL), and others. The Fourth Edition contains new content on integration of initial rapid intervention crews, updated content on vent-enter-isolate-search tactics, and more, while continuing to emphasize the role of pre-incident planning and command decisions that maximize life safety, extinguishment, and property conservation. A multitude of case studies, incident summaries, and extensive end-of-chapter activities promote application of chapter content and critical thinking skills. This text allows a company officer or incident commander to learn fireground procedures at an accelerated pace, thus reducing the cost in lives and property associated with learning by experience only.
