Italian Confraternities in the Sixteenth Century Christopher F. Black, 2003-08-28 Confraternities were and are religious brotherhoods for lay people to promote their religious life in common Though designed to prepare for the afterlife they were fully involved in the social political and cultural life of the community and could affect all men and women as members or as the recipients of charity Confraternities organised a great range of devotional cultural and indeed artistic activities in addition to other functions such as the provision of dowries and the escort of condemned men to the scaffold

Other works have studied the local activities of specific confraternities but this is the first to attempt a broad survey of such organisations across the breadth of early modern Italy Christopher Black demonstrates clearly the extent diversity and influence of confraternal behaviour and shows how such brotherhoods adapted to the religious and social crises of the sixteenth century thus illuminating current debates about Catholic Reform the Counter Reformation poverty philanthropy and social control

Florence After the Medici Corey Tazzara, Paula Findlen, Jacob Soll, 2019-10-08 Although there is a rich historiography on Enlightenment Tuscany in Italian as well as French and German the principle Anglophone works are Eric Cochrane s Tradition and Enlightenment in the Tuscan Academies 1961 and his Enlightenment Florence in the Forgotten Centuries 1973 It is high time to revisit the Tuscan Enlightenment This volume brings together an international group of scholars with the goal of putting to rest the idea that Florence ceased to be interesting after the Renaissance Indeed it is partly the explicit dialogue between Renaissance and Enlightenment that makes eighteenth century Tuscany so interesting This enlightened age looked to the past It began the Herculean project of collecting editing and publishing many of the manuscripts that today form the bedrock of any serious study of Dante Petrarch Boccaccio Machiavelli Vasari Galileo and other Tuscan writers This was an age of public libraries projects of cultural restoration and the emergence of the Uffizi as a public art gallery complemented by a science museum in Peter Leopold s reign whose relics can still be visited in the Museo Galileo and La Specola

Origins of a new economic union (7th-12th centuries). Preliminary results of the nEU-Med project: October 2015-March 2017 Giovanna Bianchi, Richard Hodges, 2018-10-11 The nEU Med project is part of the Horizon 2020

programme in the ERC Advanced project category It began in October 2015 and will be concluded in October 2020 The University of Siena is the host institution of the project The project is focussed upon two Tuscan riverine corridors leading from the Gulf of Follonica in the Tyrrhenian Sea to the Colline Metallifere It aims to document and analyze the form and timeframe of economic growth in this part of the Mediterranean which took place between the 7th and the 12thc Central to this is an understanding of the processes of change in human settlements in the natural and farming landscapes in relation to the exploitation of resources and in the implementation of differing political strategies This volume brings together the research presented at the first nEUMed workshop held in Siena on 11-12 April 2017 The aim of the workshop was to draw up an initial survey of research and related work on the project one and a half years after its inception The project is composed of several research units Each unit covers an aspect of the interdisciplinary research underpinning the nEU Med project each with their own methodology For this first volume of results it was decided not to give an account of all the work carried out within all the units but to select those lines of investigation which at the end of the first year and a half have made it possible to articulate and develop an interdisciplinary research strategy *La Civiltà cattolica*, 1980 **Opere** Benedetto
