Firenze Perduta Two Volumes:

The Life of Lorenzo De' Medici Called the Magnificent in Two Volumes by William Roscoe ,1842 *Michelozzo* : in two volumes. 2 (1977) Harriet McNeal Caplow,1977 **Language Diversity Volume 2** David Britain,Siria Guzzo,2016-09-23 This volume explores the complex relationship between language and identity from various critical perspectives and by means of different research methodologies Following the earlier collection Language Diversity Identities Genres Discourses this book provides further insights into the multifaceted process of identity construction through language The choice of dealing with the broad concept of diversity underlines the inclusiveness of this text which was conceived to analyse how identities are linguistically and socially construed maintained and challenged in a vast array of sociolinguistic contexts The choice of collecting papers concerning the thorny issue of language and diversity is grounded on the idea that individual identities are dynamic and socially negotiated in interaction and discourse with language choices being true acts of identity Le Page and Tabouret Keller 1985 by means of which people s selves are performed and defined To offer wide yet accurate descriptions of how identities are variously conveyed linguistically this volume offers a varied approach to diversity by covering different fields of research from the investigation of ethnic minorities identities to the socio linguistic and cultural status of Scots to mention but two examples The book consists of nine selected papers dealing with professional cultural ethnic and social identities gender ideologies and national stereotypes built and negotiated in language practices and discourse In particular this work tackles a wide set of key topics the construction and legitimation of ESOL teachers identities in their community of practice multidimensional research on Italian immigrants distinctiveness the negotiation of self in bilingual families Scottish national belonging and attitudes towards the Scots language the correlation between sexism and gender categories and the development of a positive approach to diversity via enhanced critical awareness of culture bound stereotypes Literary Monographs. Volume 2 Eric Rothstein,1969 **Italian Intellectuals and International Politics, 1945-1992** Alessandra Tarquini,Andrea Guiso,2019-10-01 Italian intellectuals played an important role in the shaping of international politics during the Cold War The visions of the world that they promulgated their influence on public opinion and their ability to shape collective speech whether in agreement with or in opposition to those in power have been underestimated and understudied This volume marks one of the first serious attempts to assess how Italian intellectuals understood and influenced Italy s place in the post World War II world The protagonists represent the three key post war political cultures Catholic Marxist and Liberal Democratic Together these essays uncover the role of such intellectuals in institutional networks their impact on the national and transnational circulation of ideas and the relationships they established with a variety of international associations and movements Giotto the Painter. Volume 1-3 Michael Viktor Schwarz,2023-04-17 Vol 1 Life Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto s life there are on the

one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto's lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre modern artist Vol 2 Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again Vol 3 Survival Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies
