glowing review and an intro by Alexander Hislop In his work on *The Two Babylons* Dr Hislop has proven conclusively that all the idolatrous systems of the nations had their origin in what was founded by that mighty Rebel the beginning of whose kingdom was Babel Gen 10 10 A W Pink *The Antichrist* 1923 There is this great difference between the works of men and the works of God that the same minute and searching investigation which displays the defects and imperfections of the one brings out also the beauties of the other If the most finely polished needle on which the art of man has been expended be subjected to a microscope many inequalities much roughness and clumsiness will be seen But if the microscope be brought to bear on the flowers of the field no such result appears Instead of their beauty diminishing new beauties and still more delicate that have escaped the naked eye are forthwith discovered beauties that make us appreciate in a way which otherwise we could have had little conception of the full force of the Lord s saying Consider the lilies of the field how they grow they toil not neither do they spin and yet I say unto you That even Solomon in all his glory was not arrayed like one of these The same law appears also in comparing the Word of God and the most finished productions of men There are spots and blemishes in the most admired productions of human genius But the more the Scriptures are searched the more minutely they are studied the more their perfection appears new beauties are brought into light every day and the discoveries of science the researches of the learned and the labours of infidels all alike conspire to illustrate the wonderful harmony of all the parts and the Divine beauty that clothes the whole If this be the case with Scripture in general it is especially the case with prophetic Scripture As every spoke in the wheel of Providence revolves the prophetic symbols start into still more bold and beautiful relief This is very strikingly the case with the prophetic language that forms the groundwork and corner stone of the present work There never has been any difficulty in the mind of any enlightened Protestant in identifying the woman sitting on seven mountains and having on her forehead the name written Mystery Babylon the Great with the Roman apostacy

**The American Architect and Building News** ,1894      **An Encyclopædia of Gardening** John Claudius Loudon,1829      **The Deshima Diaries** ,2021-10-25 English translation of the marginalia or marginal notes that were added to the text of the Deshima Diaries from the 1670 s onwards in order to provide the Dutch chief of Deshima with a quick reference to the notes of his predecessors This volume covers the marginalia from the 1740 4800 diaries Providing the general public and especially those who have neither a command of Dutch nor of Japanese access to a fascinating period of Japanese history in which the Dutch played such a singular role At the same time the serious scholar wil obtain an easy key to the extremely rich holdings of the archive of the Deshima trading factory which covers a shelf length of more than forty meters in the National Archives in the Netherlands but which has been only rarely utilized by historians Japanologists or other scholars In the 1740s the Dutch East India Company VOC was in many ways at the height of its power The second half of the 18th century saw the decline of the Company from being the high and mighty and only trading company which covered from its base in Batavia Jakarta all of Asia with a network that stretched from Basra in Persia to Nagasaki in Japan to

becoming a mere shadow of its former self with only a tenuous hold on a few possessions in the Indonesian archipelago. By the end of the century it had lost its establishments in South Africa, India, and Ceylon to the British, and its fleet was gone. However, as a trading company it was dead, but as a proto-colonial producer it was actually doing quite well. The basis of the present text are the Deshima Dagregisters, their original tables of contents, Vol VII 1740-1760, Vol VIII 1760-1780, Vol IX 1780-1790, Vol X 1790-1800, published in the Intercontinenta Series Nos 18, 1993; 19, 1995; 20, 1996; and 21, 1997, by the Institute for the History of European Expansion at Leiden University.
