Children and Animals Frank R. Ascione, 2005 Animal abuse has been an acknowledged problem for centuries but only within the past few decades has scientific research provided evidence that the maltreatment of animals often overlaps with violence toward people The variants of violence including bullying or assaults in a schoolyard child abuse in homes violence between adult intimate partners community hostility in our streets and neighborhoods and even the context of war are now the subject of concerted research efforts Very often the association of these forms of violence with cruelty to animals has been found The perpetrators of such inhumane treatment are often children and adolescents How common are these incidents What motivates human maltreatment of animals Are there cultural societal neighborhood and family contexts that contribute to cruelty to animals How early in a child's life does cruelty to animals emerge and are these incidents always a sign of future interpersonal violence Are there ways of preventing such cruelty Can we intervene effectively with children who already have a history of abuse and violence *Children and Animals Exploring the Roots of Kindness and Cruelty* presents the current scientific and professional wisdom about the relation between the maltreatment of animals and interpersonal violence directed toward other human beings However the author Frank R Ascione a noted expert in these areas writes in a style and presents the findings in a language that will be understandable to parents teachers counselors clergy animal welfare professionals foster parents mental health professionals youth workers law enforcement professionals and anyone else whose work or interest crosses into the lives of children and adolescents

electronic version **Forensic Psychology** Graham M. Davies, Anthony R. Beech, 2012-04-23 Forensic Psychology is essential reading for all undergraduate courses in forensic psychology and an excellent introduction for more detailed postgraduate courses. Expert authors cover every aspect of forensic psychology from understanding criminal behaviour to applying psychological theory to criminal investigation to analysis of the legal process and the roles of witnesses to the treatment of offenders Assessing and Treating Low Incidence/High Severity Psychological Disorders of Childhood Stefan C. Dombrowski, Karen L. Gischlar, Martin Mrazik, 2011-07-08 During the past several decades interest in children's psychological disorders has grown steadily within the research community resulting in a burgeoning knowledge base. The majority of the attention and funding not surprisingly has focused on the more prevalent and well known conditions. Although this raises the odds that young people with more well known disorders such as ADHD, autism and learning disorders will receive much needed professional assessment and intervention, children with less frequently encountered disorders may experience a higher risk of misdiagnosis and inappropriate treatment. Useful data has been scattered throughout the literature for severe but less frequent childhood psychological disorders including fire setting, gender identity disorder, impulse control disorders i.e. kleptomania, trichotillomania, intermittent explosive disorder, selective mutism, Munchausen by proxy, childhood schizophrenia, gang involvement, sexual offending, self-injurious behavior and feral children. This concise volume offers up to date information on these conditions which though relatively rare may have profound effect not only on the children themselves but also their families, friends and the community at large. Coverage of each disorder is presented in an accessible format covering Overview and history, Description and diagnostic classification with proposed changes to the DSM-V, Etiology and theory, Assessment tools and interview protocols, Commonly used psychological and pharmacological treatment options, Current research issues and directions for future investigation. *Assessing and Treating Low Incidence/High Severity Psychological Disorders of Childhood* is a must have reference for researchers, clinicians, practitioners and graduate students in clinical child and school psychology, pediatrics, psychiatry, social work, school counseling, education and public policy *Encyclopedia of Adolescence* Roger J.R. Levesque, 2011-09-05 The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence. Comprehensive in breadth and textbook in depth, the Encyclopedia of Adolescence with entries presented in easy to access A to Z format serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks. By making full use of Springer's print and online flexibility, the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society. Substantively, the Encyclopedia draws from four major areas of research relating to adolescence. The first broad area includes research relating to Self Identity and Development in Adolescence. This area covers research relating to identity from early adolescence through emerging adulthood, basic aspects

of development e g biological cognitive social and foundational developmental theories In addition this area focuses on various types of identity gender sexual civic moral political racial spiritual religious and so forth The second broad area centers on Adolescents Social and Personal Relationships This area of research examines the nature and influence of a variety of important relationships including family peer friends sexual and romantic as well as significant nonparental adults The third area examines Adolescents in Social Institutions This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents These major institutions include schools religious groups justice systems medical fields cultural contexts media legal systems economic structures and youth organizations Adolescent Mental Health constitutes the last major area of research This broad area of research focuses on the wide variety of human thoughts actions and behaviors relating to mental health from psychopathology to thriving Major topic examples include deviance violence crime pathology DSM normalcy risk victimization disabilities flow and positive youth development

Animal Cruelty Linda Merz-Perez, Kathleen M. Heide, 2003 Practitioners in the animal welfare field law enforcement circles and social services arena have often maintained that childhood cruelty to animals is a forerunner to violence against people Does this behavior serve as a red flag with respect to extremely violent offenders such as serial killers Is it part of the cycle of violence associated with domestic abuse Perez and Heide provide the first scientific examination of this relationship and examine issues of cruelty across different types of animals pet wild stray farm The authors evaluate both qualitative and quantitative data to identify correlations between childhood cruelty and adult violent behavior utilizing interviews and criminal records of violent and nonviolent inmates in a maximum security prison Their findings will be of importance to a diverse audience including researchers and practitioners in the field of juvenile justice violence and domestic abuse social welfare animal welfare and animal rights and developmental psychologists and counselors as well as law enforcement officers district attorneys and judges county and municipal officials animal control officers veterinarians and school administrators especially those concerned with intervention and prevention strategies

The Top Books of the Year Firesetting Children Risk Assessment And Treatment The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have enthralled audiences this year. Firesetting Children Risk Assessment And Treatment : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
