Landscapes of Liminality Dara Downey, Ian Kinane, Elizabeth Parker, 2016-11-16 Landscapes of Liminality expands upon existing notions of spatial practice and spatial theory and examines more intricately the contingent notion of liminality as a space of in-between-ness that avoids either essentialism or stasis It capitalises on the extensive research that has already been undertaken in this area and elaborates on the increasingly important and interrelated notion of liminality within contemporary discussions of spatial practice and theories of place Bringing together international scholarship the book offers a broad range of cross disciplinary approaches to theories of liminality including literary studies cultural studies human geography social studies and art and design The volume offers a timely and fascinating intervention which will help in shaping current debates concerning landscape theory spatial practice and discussions of liminality
