Knott, 2011-11-30 Forests have always been more than just their trees The forests in Michigan and similar

forests in other Great Lakes states such as Wisconsin and Minnesota played a role in the American cultural imagination from the beginnings of European settlement in the early nineteenth century to the present. Our relationships with those forests have been shaped by the cultural attitudes of the times and people have invested in them both moral and spiritual meanings. Author John Knott draws upon such works as Simon Schama's *Landscape and Memory* and Robert Pogue Harrison's *Forests: The Shadow of Civilization* in exploring ways in which our relationships with forests have been shaped using Michigan its history of settlement popular literature and forest management controversies as an exemplary case. Knott looks at such well known figures as William Bradford James Fenimore Cooper John Muir John Burroughs and Teddy Roosevelt Ojibwa conceptions of the forest and natural world including how Longfellow mythologized them early explorer accounts and contemporary literature set in the Upper Peninsula including Jim Harrison's *True North* and Philip Caputo's *Indian Country*. Two competing metaphors evolved over time. Knott shows the forest as howling wilderness impeding the progress of civilization and in need of subjugation and the forest as temple or cathedral worthy of reverence and protection. *Imagining the Forest* shows the origin and development of both.

The Perils of Moviegoing in America Gary D. Rhodes, 2011-11-24

During the first fifty years of the American cinema the act of going to the movies was a risky process fraught with a number of possible physical and moral dangers. Film fires were rampant claiming many lives as were movie theatre robberies which became particularly common during the Great Depression. Labor disputes provoked a large number of movie theatre bombings while low level criminals like murderers molesters and prostitutes plied their trades in the darkened auditoriums. That was all in addition to the spread of disease both real as in the case of influenza and imagined movie eyestrain. Audiences also confronted an array of perceived moral dangers. Blue Laws prohibited Sunday film screenings though theatres ignored them in many areas sometimes resulting in the arrests of entire audiences. Movie theatre lotteries became another problem condemned by politicians and clergymen throughout America for being immoral gambling. *The Perils of Moviegoing in America 1896-1950* provides the first history of the many threats that faced film audiences threats which claimed hundreds if not thousands of lives.
