Kozuskanich,2014-10-03 Known for his influential role in the debates that established the founding documents of the United States Benjamin Franklin was not only an astute politician but also an Atlantic citizen whose commitment to the American cause was informed by years spent in England and France The life of this iconic founder provides an ideal opportunity for students to take a closer look at eighteenth century colonial society and the contested formation of the early American nation In this carefully contextualized account Nathan R Kozuskanich considers the many facets of Franklin s private and public lives and shows how Franklin grappled with issues that still concern us today the right to bear arms the legacy of slavery and the nature of American democracy In a concise narrative bolstered by supporting primary documents Benjamin Franklin American Founder Atlantic Citizen introduces students to the world of the burgeoning United States and enables them to understand the journey from imperial colonies to an independent nation dedicated to the premise that all men are created equal *Benjamin Franklin* Edwin S. Gaustad,2004-09-16 Writer inventor diplomat businessman musician scientist humorist and civic leader are only a few of the hats Franklin wore Edwin S Gaustad presents a balanced account of Franklin s life emphasizing Franklin s character and personality and quoting extensively from Franklin s own writings Benjamin Franklin Maria Mihalik Higgins,2007 An introduction to the life and career of the statesman inventor scientist and printer Benjamin Franklin **The Real Benjamin Franklin** Jessica Gunderson,2019 Benjamin Franklin led a productive life but is it possible his accomplishments include everything attributed to him The answer is yes for the most part He never did suggest the wild turkey should be the national symbol of the United States He did however lend his wisdom to the founding of the country and he was the only person to sign four of the documents most critical to the creation and character of the nation **Focus On: 100 Most Popular American Autobiographers** Wikipedia contributors, Benjamin Franklin's Intellectual World Paul E. Kerry,Matthew S. Holland,2012-12-27 This volume attempts to throw fresh light on two areas of Benjamin Franklin s intellectual world namely his self fashioning and his political thought It is an odd thing that for all of Franklin s voluminous writings a fantastically well documented correspondence over many years scientific treatises that

made his name amongst the brightest minds of Europe newspaper articles satires and of course his signature on the Declaration of Independence and the U S Constitution and yet scholars debate how to get at his political thought indeed if he had any political philosophy at all It could be argued that he is perhaps the American Founder most closely associated with the Enlightenment Similarly for a man who left so much evidence about his life as a printer bookseller postmaster inventor diplomat politician scientist among other professions one who wrote an autobiography that has become a piece of American national literature and indeed a contribution to world culture the question of who Ben Franklin continues to engage scholars and those who read about his life His identity seems so stable that we associate it with certain virtues that apply to the way we live our lives time management for example The image of the stable figure of Franklin is applied to create a sense of trust in everything from financial institutions to plumbers His constant drive to improve and fashion himself reveal however a man whose identity was not static and fixed but was focused on growth on bettering his understanding of himself and the world he lived in and attempted to influence and improve

for anyone looking to hone his or her knowledge of the fascinating figures who wrote the first chapter of U S history The Last Freedom Joseph P. Viteritti,2009-02-09 The presidency of George W Bush has polarized the church state debate as never before The Far Right has been emboldened to use religion to govern while the Far Left has redoubled its efforts to evict religion from public life entirely Fewer people on the Right seem to respect the church state separation and fewer people on the Left seem to respect religion itself still less its free exercise in any situation that is not absolutely private In The Last Freedom Joseph Viteritti argues that there is a basic tension between religion and democracy because religion often rejects compromise as a matter of principle while democracy requires compromise to thrive In this readable original and provocative book Viteritti argues that Americans must guard against debasing politics with either antireligious bigotry or religious zealotry Drawing on politics history and law he defines a new approach to the church state question that protects the religious and the secular alike Challenging much conventional opinion Viteritti argues that the courts have failed to adequately protect religious minorities that the rights of the religious are under greater threat than those of the secular and that democracy exacts greater compromises and sacrifices from the religious than it does from the secular He takes up a wide range of controversies including the pledge of allegiance school prayer school vouchers evolution abortion stem cell research gay marriage and religious displays on public property A fresh and surprising approach to the church state question The Last Freedom is squarely aimed at the wide center of the public that is frustrated with the extremes of both the Left and the Right More Book Lust Nancy Pearl,2009-09-29 Whether you re searching for the perfect read for yourself or for a friend More Book Lust offer eclectic recommendations unlike those in any other reading guide available In this followup to the bestselling Book Lust popular librarian Nancy Pearl offers a fresh collection of 1 000 reading recommendations in more than 120 thematic intelligent and wholly entertaining reading lists For the friend wanting to leave her job Living Your Dream offers good armchair dreaming books about people who have left stodgy jobs to do what they love Are you a budding chef Fiction For Foodies includes books that sneak in a recipe or two along with a tantalizing plot For the James Bond wannabe Crime is a Globetrotter features crime novels set in various locations around the world such as Tibet Sweden and Sicily In the book s introduction Pearl jokes If we were at a twelve step meeting together I would have to stand up and say Hi I m Nancy P and I m a readaholic Booklist magazine plays off this obsession while echoing a sentiment of Nancy Pearl s fans everywhere A self confessed readaholic Pearl lets us benefit from her addiction May she never seek recovery Indeed The Brave New World Peter Charles Hoffer,2023-01-31 A lively synthesis of early American history now in its third edition The Brave New World covers the entire span of early American history from 30 000 years before Europeans landed on North American shores to the Revolutionary War With its exploration of the places and peoples of early America this comprehensive new edition of a classic textbook brings together the most recent scholarship on the colonial and revolutionary eras Native Americans slavery and the slave trade politics war and the daily lives of ordinary people In this edition Peter Charles Hoffer

incorporates the wealth of innovative work on early American history including fresh material on environmental history the Dutch and French Caribbean Indigenous societies consumer goods mapping captivity tales settler imperialism power who has it who wants it how it is expressed and how it is opposed Emphasizing how diverse and entangled the early American imperial world was this edition also greatly expands the geographical scope of the book An updated bibliographic essay offering short descriptions of relevant books articles collections and anthologies rounds out the volume Wide ranging and inclusive The Brave New World continues to provide students instructors and historians with an engaging and accessible history of early North America American Treasures Stephen Puleo,2016-08-30 The dramatic never before told stories behind the Declaration of Independence the Constitution and the Gettysburg Address America s crown jewels that define its commitment to freedom *Benjamin Franklin's Vision of American Community* Lester C. Olson,2004 Olson contends that attention to the visual images created in each of these roles dramatizes fundamental changes in Franklin s sensibility concerning British America In 1754 Franklin was an American Whig supporter of the British Empire s constitutional monarchy During the late 1750s and early 1760s he veered toward increasing the power of the Crown over Pennsylvania by changing the colony s form of government before ultimately rejecting constitutional monarchy and advocating republican politics during the 1770s and 1780s The shifts in Franklin s fundamental political commitments are among the most arresting aspects of his life Benjamin Franklin s Vision of American Community highlights these changes as it examines his pictorial representations of British America through several decades BOOK JACKET
