A Mountaineer's Life Allen Steck, 2017-10-24 Sixteen year old Allen Steck made his initial climb a first ascent of Mount Maclure in the Sierras with no hardware no ropes no experience but the event turned him into a mountaineer's life Over seventy years later Steck has had a prolific climbing career including a 1954 expedition to Makalu a 1963 first ascent of the south face of the Clyde Minaret and a 1965 first ascent of the Hummingbird Ridge on Mount Logan These are stories from the days when mountain climbing was discovery when men like Steck forged new routes both literal and literary With dry humor and detailed recall he captures the excitement and intrigue of a time when there were few rules and no guidelines With amazing photographs many published for the first time this memoir is a treasure and inspiration and an anchor to the foundation of the life changing sport of alpine climbing

The Impossible Climb Mark Synnott, 2020-03-10 INSTANT NATIONAL BESTSELLER NEW YORK TIMES MONTHLY BESTSELLER One of the 10 Best Books of March Paste Magazine A deeply reported insider perspective of Alex Honnold's historic achievement and the culture and history of climbing One of the most compelling accounts of a climb and the climbing ethos that I've ever read Sebastian Junger In Mark Synnott's unique window on the ethos of climbing his friend Alex Honnold's astonishing free solo ascent of El Capitan's 3 000 feet of sheer granite is the central act When Honnold topped out at 9 28 A M on June 3 2017 having spent fewer than four

hours on his historic ascent the world gave a collective gasp The New York Times described it as one of the great athletic feats of any kind ever Synnott s personal history of his own obsession with climbing since he was a teenager through professional climbing triumphs and defeats and the dilemmas they render makes this a deeply reported enchanting revelation about living life to the fullest What are we doing if not an impossible climb Synnott delves into a raggedy culture that emerged decades earlier during Yosemite s Golden Age when pioneering climbers like Royal Robbins and Warren Harding invented the sport that Honnold would turn on its ear Painting an authentic wry portrait of climbing history and profiling Yosemite heroes and the harlequin tribes of climbers known as the Stonemasters and the Stone Monkeys Synnott weaves in his own experiences with poignant insight and wit tensions burst on the mile high northwest face of Pakistan s Great Trango Tower fellow climber Jimmy Chin miraculously persuades an official in the Borneo jungle to allow Honnold s first foreign expedition led by Synnott to continue armed bandits accost the same trio at the foot of a tower in the Chad desert The Impossible Climb is an emotional drama driven by people exploring the limits of human potential and seeking a perfect choreographed dance with nature Honnold dared far beyond the ordinary beyond any climber in history But this story of sublime heights is really about all of us Who doesn t need to face down fear and make the most of the time we have **First Ascent** OCTOPUS BOOKS,2014-05-05 What transformed pure physical delight into something deeper was the fact that no one had been here before Discover the fascinating stories of the men and women who have scaled the world s highest peaks Featuring accounts of some of the world s most treacherous mountain climbs this amazing collection covers the ascent of Mont Blanc in the 1780s the golden age of alpine climbing which saw the Matterhorn and the Bietschhorn conquered as well as the climbing of the great summits of the Americas and the Himalayan peaks Everest and Annapurna First Ascent is a unique survey of human achievement and a tribute to the adventurous spirit of mountaineers past and present Early Days in the Range of Light Daniel Arnold,2011-01-01 A splendid chronicle of early climbing in the Sierra Nevada Royal Robbins It s 1873 Gore Tex shells and aluminum climbing gear are a century away but the high mountains still call to those with a spirit of adventure Imagine the stone in your hands and thousands of feet of open air below you with only a wool jacket to weather a storm and no rope to catch a fall Daniel Arnold did more than imagine he spent three years retracing the steps of his climbing forefathers and in Early Days in the Range of Light he tells their riveting stories From 1864 to 1931 the Sierra Nevada witnessed some of the most audacious climbing of all time In the spirit of his predecessors Arnold carried only rudimentary equipment no ropes no harness no specialized climbing shoes Sometimes he left his backpack and sleeping bag behind as well and like John Muir traveled for days with only a few pounds of food rolled into a sack slung over his shoulder In an artful blend of history biography nature and adventure writing Arnold brings to life the journeys and the terrain traveled In the process he uncovers the motivations that drove an extraordinary group of individuals to risk so much for airy summits and close contact with bare stone and snow Ever wish you could travel back to climbing s early days and follow the

earliest first ascent visionaries This fantasy comes to life in this elegant narrative Climbing Magazine
