Arno J. Mayer

First European Revolution 1776 1815:

The First European Revolution, 1776-1815 Norman Hampson, 1969 **The First European Revolution 1776-1815** Norman Hampson, 1969 **The Furies** Arno J. Mayer, 2013-05-16 The great romance and fear of bloody revolution strange blend of idealism and terror have been superseded by blind faith in the bloodless expansion of human rights and global capitalism Flying in the face of history violence is dismissed as rare immoral and counterproductive Arguing against this pervasive wishful thinking the distinguished historian Arno J Mayer revisits the two most tumultuous and influential revolutions of modern times the French Revolution of 1789 and the Russian Revolution of 1917 Although these two upheavals arose in different environments they followed similar courses The thought and language of Enlightenment France were the glories of western civilization those of tsarist Russia s intelligentsia were on its margins Both revolutions began as revolts vowed to fight unreason injustice and inequality both swept away old regimes and defied established religions in societies that were 85% peasant and illiterate both entailed the terrifying return of repressed vengeance Contrary to prevalent belief Mayer argues ideologies and personalities did not control events Rather the tide of violence overwhelmed the political actors who assumed power and were rudderless Even the best plans could not stem the chaos that at once benefited and swallowed them Mayer argues that we have ignored an essential part of all revolutions the resistances to revolution both domestic and foreign which help fuel the spiral of terror In his sweeping yet close comparison of the world s two transnational revolutions Mayer follows their unfolding from the French Declaration of the Rights of Man and the Bolshevik Declaration of the Rights of the Toiling and Exploited Masses the escalation of the initial violence into the reign of terror of 1793-95 and of 1918-21 the dismemberment of the hegemonic churches and religion of both societies the externalization of the terror through the Napoleonic wars and its internalization in Soviet Russia in the form of Stalin s Terror in One Country Making critical use of theory old and new Mayer breaks through unexamined assumptions and prevailing debates about the attributes of these particular revolutions to raise broader and more disturbing questions about the nature of revolutionary violence attending new foundations **The First European Revolution 1776-1815, with 103 Illustrations, 20 in Colour** Norman

Hampson, 1969 **The First European Revolution 1776-1815 with 103 Ills., 20 in Colour** Norman Hampson, 1969

Historical Dictionary of the French Revolution Paul R. Hanson, 2015-01-15 The French Revolution remains the most examined event or period in world history It was most historians would argue the first modern revolution an event so momentous that it changed the very meaning of the word revolution from restoration as in the Glorious Revolution of 1688 in England to its modern sense of connoting a political and or social upheaval that marks a decisive break with the past one that moves a society in a forward or progressive direction No revolution has occurred since 1789 without making reference to this first revolution and most have been measured against it One cannot utter the date 1789 without thinking of revolution and so significant were the changes unleashed in that year that it has come to mark the dividing line between early modern and late

modern European history Kings This second edition of Historical Dictionary of the French Revolution covers its history through a chronology an introductory essay and an extensive bibliography The dictionary section has over 400 cross referenced entries on the causes and origins the roles of significant persons crucial events and turning points important institutions and organizations and the economic social and intellectual factors involved in the event that gave birth to the Declaration of the Rights of Man and Citizen This book is an excellent access point for students researchers and anyone wanting to know more about this period

Early Modern Europe Euan Cameron,2001-02-15 Early Modern is a term applied to the period which falls between the end of the middle ages and the beginning of the nineteenth century This book provides a comprehensive introduction to Europe in this period exploring the changes and transitions involved in the move towards modernity Nine newly commissioned chapters under the careful editorship of Euan Cameron cover social political economic and cultural perspectives all contributing to a full and vibrant picture of Europe during this time The chapters are organized thematically and consider the evolving European economy and society the impact of new ideas on religion and the emergence of modern political attitudes and techniques The text is complemented with many illustrations throughout to give a feel of the changes in life beyond the raw historical data

The House of Orange in Revolution and War Jeroen Koch,Dik van der Meulen,Jeroen van Zanten,2022-06-06 An epic account of the House of Orange Nassau over one hundred and fifty years of European history Three rulers from the House of Orange Nassau reigned over the Netherlands from 1813 to 1890 King William I from 1813 to 1840 King William II from 1840 to 1849 and King William III from 1849 to 1890 Theirs is an epic tale of joy and tragedy progress and catastrophe disappointment and glory all set against the backdrop of a Europe plagued by war and revolution The House of Orange in Revolution and War relates one and a half centuries of House of Orange history in a gripping narrative leading the reader from the last stadholders of the Dutch Republic to the modern monarchy of the early twentieth century from the French Revolution and the Napoleonic wars to World War I and the European Revolutions that came after it

Handbook for History Teachers W. Burston dec'd,Cyril Green,E Nicholas,A Dickinson,D Thompson,2021-12-24 First published in 1972 Handbook for History Teachers is intended to be a general and comprehensive work of reference for teachers of history in primary and secondary schools of all kinds The book covers all aspects of teaching history among them are the use of sources world history art and history principles of constructing a syllabus and the psychological aspects of history teaching The bibliographical sections are arranged on three parts school textbooks a section on audio visual aids and finally books for the teacher and possibly for the sixth form It thoroughly investigates and critiques the various methods employed in teaching history within classrooms and suggests alternatives wherever applicable Diligently curated by the Standing Sub Committee in History University of London Institute of Education the book still holds immense value in the understanding of pedagogy

The Wars of Napoleon Charles J. Esdaile,2014-02-04 A survey of the Napoleonic Wars The central theme is the scale of French military power and its impact on other European states from Portugal to

Russia and from Scandinavia to Sicily **Revolution and World Politics** Fred Halliday,1999 Reassesses the role of revolution as a force that has shaped the development of world politics **Joseph de Maistre and his European Readers**,2011-05-23 Following the publication of Isaiah Berlin s essay on Joseph de Maistre 1753 1821 the Savoyard philosopher has been known primarily in the English speaking world as a precursor of fascism The essays in this volume challenge this view Disclosing the inaccuracies and limitations of Berlin s account they illustrate Maistre s colossally diverse European posterity Far from an inflexible ideologist Maistre was a versatile and deeply modern thinker who attracted interpreters across the political spectrum Through the centuries Maistre s passionate Europeanism has contributed to his popularity from Madrid to Moscow And in our times when religion is re asserting itself as a source of public reason his theorization of the encounter between tradition and modernity is lending his work ever more urgent relevance Cover illustration by Matthieu Manche

A Short History of the French Revolution, 1789-1799 Albert Soboul,1977 A Marxist analysis of the causes and course of the French Revolution argues that it can be understood on all levels only in terms of class struggle Dialectics and Revolution David H. DeGrood,1979-12-01 **Daily Life during the French Revolution** James M. Anderson,2007-02-28 The French Revolution sought to change daily life itself This book looks at the thirteen years between 1789 1802 that experienced the Terror banning of the aristocracy and the rearrangement of the calendar No part of French life was left untouched during this incredible period of turmoil and warfare from women s role in the family to men s role in the state Art and theater were invigorated and harnessed for political purposes Subtleties in one s dress could mean the difference between life and death The first modern mass army was created Chapters include the physical make up of France the social and political background of the revolution the First Republic religion church and state urban life rural life family life the fringe society clothes and fashion food and drink the role of women military life education health and medicine and writers artists musicians and entertainment Anderson breathes life into the day to day lives of those living during the French Revolution Greenwood s Daily Life through History series looks at the everyday lives of common people This book will illuminate the lives of those living during the French Revolution and provide a basis for further research Black and white photographs maps and charts are interspersed throughout the text to assist readers Reference features include a timeline of historic events glossaries of terms and names an annotated bibliography of print and electronic resources suitable for high school and college student research and an index **Romanticism** Lilian R. Furst,2017-07-06 First published in 1969 this work traces the evolution of Romanticism and in doing so demonstrates its novelty as an imaginative and emotional perception of the world in contrast to the rationalistic approach which was dominant in the seventeenth century It identifies the fundamental similarities between Romantic writing in England France and Germany as well as their differences brought about by divergent literary and social backgrounds The book is concluded by a review of the problems that arise from a simple definition of Romanticism Origins of the French Revolution William Doyle,1999 The revised and updated 3rd

edition of the Origins of the French Revolution emphasises the Revolution s social economic origins critically appraises the results of a new generation of research findings and interpretation **European History in a World Perspective: Early modern times** Shepard B. Clough,1975 Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1973 **The Publishers' Trade List Annual** ,1983

Decoding **First European Revolution 1776 1815**: Revealing the Captivating Potential of Verbal Expression
