## **First Great Triumph How Five Americans Made Their Country A World Power:**

*First Great Triumph* Warren Zimmermann, 2004-01-15 The author discusses how the lives of Theodore Roosevelt Alfred T Mahan Henry Cabot Lodge John Hay and Elihu Root intersected with the growth of the American imperialism that eventually made the United States a world power [First Great Triumph](#) Warren Zimmermann, 2004 [Smithsonian Stories](#) Wilton S. Dillon, 2017-07-05 Why is the Smithsonian more than the Nation's Attic Or more than a museum complex As Wilton S Dillon shows the Smithsonian came to be the institution we know today under the twenty year leadership of Sun King S Dillon Ripley Ripley aspired to reinvent the Smithsonian as a great university with museums Although little understood by the public at large it began as a basic research center The Smithsonian remains a key contributor to the world of higher learning and functions diplomatically as the ministry of culture for the United States Dillon provides backstage insights into Ripley's quest for the wholeness of knowledge He describes how he inspired its role as a theater of ideas as well as artifacts Under his tutelage the National Mall became a playground for world intelligentsia an intellectual free trade zone in the shadow of the nation's political capital Dillon reminds us that interdisciplinary international Smithsonian symposia foreshadowed twenty first century issues and trends His descriptions of the educational rewards of balancing tradition with the avant garde are inspiring As Dillon reminds us Ripley's twenty year reign may well have helped spark the waning embers of the Enlightenment *The Age of Empires* Robert Aldrich, 2020-06-23 The critical story of thirteen empires showing their key role in the foundation of today's global civilization For over five hundred years empires have been a feature of the political landscape and today many contemporary conflicts resonate with issues tied to colonial conquest and the uneasy situations they produced Empires evoke potent images Henry Morton Stanley David Livingstone and the gallery of colonial explorers the Spanish conquistadors quest for gold and silver and the Dutch heritage of trade in the East Indies These legacies still pose major issues for historians who study their key role in the foundation of today's global civilization The Age of Empires frames the era of empires with maps of explorations chronologies of voyages records of settlers and administrators the balance sheets of commerce and other records that made up the Age of Empires This account incorporates research from across the globe and vivid illustrations to tell a story full of conflict cruelty great journeys and influence **American Imperatives** Anders Stephanson, 2025-07-15 A radical reinterpretation of the Cold War by its most iconoclastic historian What was the cold war Conventional wisdom makes it coextensive with an epoch stretching from the end of the Second World War to the collapse of the Soviet Union a geopolitical period dominated by the confrontation between the United States and the USSR In a fundamental challenge to prevailing orthodoxy Anders Stephanson explodes this misconception which has misled historians and obscured the US centered nature of the entire process He argues that the cold war is better understood as the frame that made the global role of the US after 1947 not only possible but imperative and that in its classic form it ended in 1963 after the Cuban Missile Crisis *American Imperatives* does not assume that the causes of the great

superpower rivalry rest solely with the United States But the frame was unmistakably and ineradicably American Without it there would not have been properly speaking a cold war      Central Eurasia in Global Politics Mehdi Amineh, Henk W. Houweling, 2005-05-01 This anthology brings together studies of post colonial post Cold War Central Eurasia This part of the world is in transition from Soviet institutions to independent statehood nation building resistance against state expansion cultural change and the release of market forces The theoretical framework of the study is called critical geo politics The objective of the work is to better comprehend the nature of the post colonial Great Game Part I studies US power projection activity in the region America is extending its World War II trans oceanic defense perimeter into the fossil fuel rich area between integrating Europe recovering Russia and industrializing China Part II details various aspects of state nation building and soci cultural and economic change in the region Part III studies interactions between outsiders neighbors and Central Asian Republics Conflict and cooperation in the Caspian region is studied in part IV with Aral Sea and Azerbaijan as cases This is the revised edition of the book that was published under the same title in 2004      *Unintended Consequences* Kenneth J. Hagan, Ian J. Bickerton, 2007-04-25 The United States does not do nation building claimed Secretary of Defense Donald Rumsfeld three years ago Yet what are we to make of the American military bases in Korea Why do American warships patrol the Somali coastline And perhaps most significantly why are fourteen enduring bases being built in Iraq In every major foreign war fought by United States in the last century the repercussions of the American presence have been felt long after the last Marine has left Kenneth J Hagan and Ian J Bickerton argue here that despite adamant protests from the military and government alike nation building and occupation are indeed hallmarks and unintended consequences of American warmaking In this timely groundbreaking study the authors examine ten major wars fought by the United States from the Revolutionary War to the ongoing Iraq War and analyze the conflicts unintended consequences These unexpected outcomes *Unintended Consequences* persuasively demonstrates stemmed from ill informed decisions made at critical junctures and the surprisingly similar crises that emerged at the end of formal fighting As a result war did not end with treaties or withdrawn troops Instead time after time the United States became inextricably involved in the issues of the defeated country committing itself to the chaotic aftermath that often completely subverted the intended purposes of war Stunningly *Unintended Consequences* contends that the vast majority of wars launched by the United States were unnecessary avoidable and catastrophically unpredictable In a stark challenge to accepted scholarship the authors show that the wars unintended consequences far outweighed the initial calculated goals and thus forced cataclysmic shifts in American domestic and foreign policy A must read for anyone concerned with the past present or future of American defense *Unintended Consequences* offers a provocative perspective on the current predicament in Iraq and the conflicts sure to loom ahead of us      **Globocop: How America Sold Its Soul and Lost Its Way** Mark David Ledbetter, 2004-10-24 The first post 9 11 election gave us a choice between two big government high tax globocops quibbling over the details not an alternative

to the aggressive international militarism that makes us the natural and logical target of terrorism This book looks at the progression from republic protected by militia to empire protected by standing armies in Athens and Rome and the similar progression in America It looks at an alternative The Swiss way which has kept Switzerland free and republican for 700 years in the center of a warlike continent America once understood and followed Washington's Great Rule and J Q Adams admonition not to go out into the world in search of monsters to destroy We were then the light not the sword of freedom Now we have picked up the sword only to see the light grow dimmer year by year

### **A Political History of the World**

Jonathan Holslag, 2018-10-25 A three thousand year history of the world that examines the causes of war and the search for peace In three thousand years of history China has spent at least eleven centuries at war The Roman Empire was in conflict during at least 50 per cent of its lifetime Since 1776 the United States has spent over one hundred years at war The dream of peace has been universal in the history of humanity So why have we so rarely been able to achieve it In A Political History of the World Jonathan Holslag has produced a sweeping history of the world from the Iron Age to the present that investigates the causes of conflict between empires nations and peoples and the attempts at diplomacy and cosmopolitanism A birds eye view of three thousand years of history the book illuminates the forces shaping world politics from Ancient Egypt to the Han Dynasty the Pax Romana to the rise of Islam the Peace of Westphalia to the creation of the United Nations This truly global approach enables Holslag to search for patterns across different eras and regions and explore larger questions about war diplomacy and power Has trade fostered peace What are the limits of diplomacy How does environmental change affect stability Is war a universal sin of power At a time when the threat of nuclear war looms again this is a much needed history intended for students of international politics and anyone looking for a background on current events

### Historical

**America at the Ballot Box** Gareth Davies, Julian E. Zelizer, 2015-07-29 Elections are and always have been the

lifeblood of American democracy Often raucous and sharply contentious sometimes featuring grand debates about the nation's future and invariably full of dramatic moments elections offer insight into the character and historical evolution of American politics America at the Ballot Box uses the history of presidential elections to illuminate American political democracy and its development from the early Republic to the late twentieth century Some of the contributions in America at the Ballot Box focus on elections that resulted in dramatic political change including Jefferson's defeat of Adams in 1800 the 1860 election of Lincoln and Reagan's 1980 landslide victory Others concentrate on contests whose importance lies more in the way they illuminate the broad underlying processes of political change such as the corruption controversy of Cleveland's acrimonious election in 1884 or the advent of television advertising during the 1952 campaign when Eisenhower defeated Stevenson Another set of essays takes a thematic approach exploring the impact of foreign relations Anglophobia and political communications over long periods of electoral time Uniting all of the chapters is the common conviction that elections provide a unique vantage point from which to view the American political system Ranging from landmark contests to less influential victories and defeats the essays by leading political historians seek to rehabilitate the historical significance of presidential elections and integrate them into the broader evolution of American government policies and politics Contributors Brian Balogh Gareth Davies Meg Jacobs Richard R John Kevin M Kruse Jeffrey L Pasley Andrew Preston Elizabeth Sanders Bruce J Schulman Jay Sexton Adam I P Smith Sean Wilentz Julian E Zelizer America and the World: The Double Bind Kevin P. Clements, 2017-07-05 As the world's first democracy with a written constitution and Bill of Rights the United States has stood for global aspirations toward democratic liberty equality and solidarity since its formation in 1776 However as it developed into an empire by the late nineteenth century the United States also has threatened the liberties of other peoples including Native Americans Hawaiians Latin Americans Asians and Africans The American role in world affairs has long been polarized around two conflicting images and strategies In the name of counter terrorism the Bush administration pursued a largely unilateralist policy in the Middle East and elsewhere Yet in the name of protecting its national sovereignty the United States also has rejected most of the recent multilateral treaties that strive to contain violence by fortifying the rule of international law A unilateralist strategy also goes largely against the U S postwar multilateralism which established the United Nations and its specialized agencies This volume explores these contradictions Contributors include Kevin P Clements Tom Coffman Audrey Kitagawa Jeffrey F Addicott Steven Zunes Vivien Stewart Kathy Ferguson Phyllis Turnbull Bilveer Singh Ibrahim G Aoude Richard Falk Ann Wright Beverley Kleeve Linda Groff George Kent Majid Tehranian Mohammad Ali Terrence Paupp Gillian Young Mihay Simaii and David Krieger The annual publication Peace Policy sponsored by the Toda Institute for Global Peace and Policy Research is now in its ninth year It is dedicated to providing a forum for the discussion of all issues concerning peace policy and the rights and responsibilities of global citizenship This latest volume fulfills that commitment *Faith and Foreign Affairs in the American Century* Mark Thomas

Edwards,2019-08-22 The United States has led the world in almost every way since World War I In 1941 Life magazine publisher Henry Luce dubbed his country s preponderant power the American Century His editorial was a statement of fact but also an aspiration for countrymen to unite in promotion of a world order friendly to American interests Faith and Foreign Affairs in the American Century examines the nature of public involvement in American diplomacy As a concept decades in the making the American Century was conceived by those connected through the country s leading foreign policy think tank the Council on Foreign Relations The missionary couple and Washington insiders Francis and Helen Miller who fought to make the American empire a radically democratic one figured prominently in that work The Millers many partnerships embodied the conflicts as well as the cooperation of Christianity and secularism in the long reimagining of the United States as a global state Mark Thomas Edwards offers in this study a genealogy of the concept of the American Century Readers will encounter moments of Protestant Christian power and marginalization in the making of modern American foreign relations

**Fighting Irish in the American Civil War and the Invasion of Mexico** Arthur H. Mitchell,2017-03-23 As mid 19th century America erupted in violence with the invasion of Mexico and the outbreak of the Civil War Irish immigrants joined the fray in large numbers on both sides They sometimes were disruptive elements In Mexico a body of Irish artillerymen defected to the other side During the Civil War Patrick Cleburne stirred controversy in the Confederacy when he proposed enlisting slaves in exchange for their freedom The New York draft riots a violent insurrection by a predominantly Irish mob raged for three days before Federal troops restored order Despite turmoil and contention the Irish soldiers who fought in the Union army contributed significantly to the preservation of the United States This collection of essays examines the involvement of Irish men and women in America s conflicts from 1840 to 1865 **Greater Gotham** Mike

Michael Pillsbury,2015-02-03 One of the U S government s leading China experts reveals the hidden strategy fueling that country s rise and how Americans have been seduced into helping China overtake us as the world s leading superpower For more than forty years the United States has played an indispensable role helping the Chinese government build a booming economy develop its scientific and military capabilities and take its place on the world stage in the belief that China s rise will bring us cooperation diplomacy and free trade But what if the China Dream is to replace us just as America replaced the British Empire without firing a shot Based on interviews with Chinese defectors and newly declassified previously undisclosed national security documents The Hundred Year Marathon reveals China s secret strategy to supplant the United States as the world s dominant power and to do so by 2049 the one hundredth anniversary of the founding of the People s Republic Michael Pillsbury a fluent Mandarin speaker who has served in senior national security positions in the U S government since the days of Richard Nixon and Henry Kissinger draws on his decades of contact with the hawks in China s military and intelligence agencies and translates their documents speeches and books to show how the teachings of

traditional Chinese statecraft underpin their actions He offers an inside look at how the Chinese really view America and its leaders as barbarians who will be the architects of their own demise Pillsbury also explains how the U S government has helped sometimes unwittingly and sometimes deliberately to make this China Dream come true and he calls for the United States to implement a new more competitive strategy toward China as it really is and not as we might wish it to be The Hundred Year Marathon is a wake up call as we face the greatest national security challenge of the twenty first century
