The Movies in the Age of Innocence, 3d ed. Edward Wagenknecht, 2014-10-01. Upon its original publication in 1962, Edward Wagenknecht's *The Movies in the Age of Innocence* immediately earned recognition as a classic in the history of early cinema. A tribute to American silent film from the first person perspective of one who grew up with the medium, the volume surveys the pre-feature and feature era of silent films from a distinctly literary standpoint and considers the careers of directors like D.W. Griffith and Erich von Stroheim and actors such as Charlie Chaplin, Mary Pickford and Lillian Gish. With nearly 90 illustrations from early films, fan magazines and brochures, indices of film titles and names and an appendix containing Wagenknecht's otherwise unavailable 1927 pamphlet *Lillian Gish: An Interpretation*, this third edition retains its significance today.

The Youth Drug F.W. Watt, 2014-12. John Hornby and Norman Shearer are two middle-aged Canadian doctors deeply engaged in the search for a cancer cure. Their quest is beginning to show promising but somewhat puzzling developments when they are lured away from Toronto to join a research center in California. There they are guaranteed more freedom to conduct their work wherever it may lead them, reluctant as they are to leave behind patients they are carefully observing and treating, especially the star of the TV Blue Network, Faye Delisle. Chadwick Hamilton, an immensely wealthy business man with his own motives for enlisting them, supports a private lab in Notlimah, his enormous spectacular innovative country estate near Los Angeles. When they take up their residence and their work in Notlimah, they are drawn into bizarre life-changing experiences for themselves and for those close to them, including Shearer's needful wife and restless teenage daughter. For adjacent to their new research center is Notlimah's sprawling idyllic commune overseen by Hamilton's estranged son Garth, whose job is to guide and nourish a unique environment in which young people can thrive freely and creatively. In this remarkable setting, the Hornby-Shearer medical research project veers into uncharted territory where the human dream of everlasting youth emerges to collide with the realities of incurable disease and inescapable old age. More fiction by F.W. Watt: *Heads or Tails*, *23 Stories After the Funeral*, *Loving Daughters*, *The Road to Sutton*, *The Lannigan Set Up*, *Joking Matters*, *Where is Julius*.
