Bryan McGuire,2004-06-29 **Hamburg's Hybrids** S. "Flit" Thomas,2017-06-02 The contents of this book will open up the full spectrum of the readers interest in knowing who are the Langleys and what is the secret the patriarch of the family left in a package after his demise This novel paints a captivating picture of the lifestyle and history of a well established wealthy family in Charleston South Carolina The family has to face the fact that the patriarch of the family upon his death decided to reveal via a handwritten document to his daughter in law Jennifer the true story of the maternal and paternal bloodline of his only son Edwin This document was delivered to Jennifer on the wedding day of his firstborn granddaughter Bria The story provides the dynamic characteristics personalities and secrets of each family member and culminates with the son Edwin wondering why his father waited until after his death to reveal these truths Edwin is left wondering how these revelations would affect him in his business and social life More importantly will he be able to cope with the truth about his real bloodline **Either/or** Robert L. Perkins,1995 In Either Or Part One Kierkegaard presents what he calls the aesthetic form of life There he focuses on a large variety of the stereotypical views of women from a sentimental and whining appraisal of her position in the world through the view that sexual exploitation is an uncontrollable natural instinct and or drive for which men are not morally responsible to the view that woman is a jest not to be taken seriously as a moral and responsible being and then that she is just there as a sexual object or plaything to be reflectively seduced on the male s terms and for his pleasure or rejection whatever suits him at the moment Needless to say this great variety of views of the uses of woman has provoked a large critique and just as predictably that critique is as varied as the intellectual tools available for the analysis of a work that is as literary as it is philosophic The present collection of essays treats these and many other of the most important issues raised in Either Or in fresh and perceptive ways Even where familiar themes are argued the authors introduce innovative interpretive models new approaches and new materials are appealed to or new rebuttal arguments against previously held positions are offered Several of the articles for instance appropriate or criticize methods or insights derived from postmodernism and or feminist philosophy an approach that would have been unlikely two decades ago
