## **First Models Of The Socialist Economic Systems Principles And Theories:**

First Models of the Socialist Economic Systems László Szamuely, 1974      Collected Works of Domenico Mario Nuti, Volume II Saul Estrin, Milica Uvalic, 2023-08-10 This book the second of two volumes brings together the work of Domenico Mario Nuti to highlight his significant and varied contribution to economics Bringing together works from across Nuti's career his distinctive intellectual framework is exemplified in relation to discussions on the drivers of economic growth and development the most efficient economic system the organisation of firms and how economies should be managed This volume gives particular attention to Nuti's views about how economic systems evolve about the possibilities for various forms of economic democracy and his analysis of East West integration and globalization The volume also contains a bibliography of his works      **From Marx to Mises** David Ramsay Steele, 2013-12-15 In 1920 Ludwig von Mises proclaimed that all attempts to establish socialism would come to grief for reasons of informational efficiency At first socialists and economists took Mises's argument seriously but by the end of the Second World War a consensus prevailed that Mises had been discredited More recently that consensus has been rapidly reversed it is now widely agreed that Mises was right Yet the momentous implications of the Mises argument for economics politics culture and philosophy remain largely unexplored From Marx to Mises is a clear penetrating exposition of the economic calculation debate and a scrutiny of some of the broader issues it raises      Russia's Economic Transitions Nicolas Spulber, 2003-04-10 Russia's Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000 The first transition under Tsarism involved the partial break up of the feudal framework of land ownership and the move toward capitalist relations The second following the Communist revolution of 1917 brought to power a system of state ownership and administration a sui generis type of war economy state capitalism subjecting the economy's development to central commands The third started in the early 1990s and still unfolding is aiming at reshaping the inherited economic fabric on the basis of private ownership The three transitions originated within different settings but with a similar primary goal namely the changing of the economy's ownership pattern in the hopes of providing a better basis for subsequent development The treatment's originality impartiality and historical breadth have cogent economic social and political relevance      **What Was Bolshevism?** Lars T. Lih, 2023-10-20 How did the Bolsheviks see themselves What grand narrative gave meaning to their revolutionary aspirations The leading Western expert on Bolshevism Lars T Lih answers these questions in the first ever study of the Bolshevik outlook from Lenin to perestroika Sharply focused case studies allow individual leaders Lenin Stalin Bukharin Trotsky Zinoviev to come alive and speak in their own voices with surprising results that challenge conventional narratives left and right What Was Bolshevism uses novels plays literary criticism photographs statues poetry history textbooks songs and film to paint an indispensable self portrait of Soviet civilization      **Calculation and Coordination** Peter J Boettke, 2000-11-23 This collection of essays from one of the major Austrian economists working in the world today brings together some of his key

writings on a variety of economic issues      *Chinese Marxism in Flux 1978-84* Bill Brugger,2018-09-18 This book first published in 1985 considers the state of Marxist thought in China at the time a time when the country s leadership appeared more concerned with attaining modernisation and economic development than Marxist theory It considers the problems that Chinese Marxist intellectuals were facing and relates them to the actions of the political leadership The Gang of Four their utopianism and dogmatism had been denounced and this book argues that rather than being in retreat Chinese Marxism was in fact enjoying a productive period      *Planning and Profits in Socialist Economies* Jean-Charles Asselain,2013-11-05 This study of economic reforms throughout Eastern Europe covers the history of attempts at decentralization The book Describes the centralized model and compares its requirements with the realities of socialist countries Discusses the economic policies of the post Stalinist period Examines the origin of the reforms which began in 1956 culminating in the Soviet economic reform of 1965 and the rehabilitation of profit Countries covered include the former USSR the former East Germany and Hungary      *The Economic Organization of War Communism 1918-1921* Silvana Malle,2002-08-08 An assessment of the first Soviet economic system comparing programmes with outcomes and theory with practice      **The Political Economy of Soviet Socialism: the Formative Years, 1918-1928** Peter J. Boettke,2013-03-14 This book presents a narrative of one of the more interesting utopian experiments in comparative political and economic history the first decade of the Soviet experience with socialism 1918 1928 Though historical and textual analysis the book s goal is to render this experience intelligible to get at the meaning of the Soviet experience with socialism for comparative political economy today The book examines the texts of Lenin Bukharin and other revolutionaries as well as the interpretations of contemporary historians of the revolution and the writings of more recent interpreters of Soviet political and economic history Arguing that the first three years of the Bolshevik regime 1918 1921 constitute an attempt to carry out the Marxian ideal of comprehensive central planning and that the disastrous results which all commentators agree occurred were the inevitable outcome of this Marxian ideal coming into conflict with the economic reality of the coordination problem that all economic systems face the book draws clear conclusions and elucidates the air of mystery that often surrounds the subject Offering a radical challenge to contemporary comparative political economy at the level of high theory applied research and public policy this book is appropriate for students and scholars interested in Marxism economic history political economy and Austrian economics

**The Agrarian Question in Socialist Transitions** Ashwani Saith,2013-10-28 First published in 1986 This collection of eight essays begins with a piece that constructs a preliminary argument concerning the position of the peasantry in the twin transitions the first to industrialisation and the second towards socialism In the poor developing country launching upon both simultaneously the agrarian question bifurcates into two dichotomous sets of issues      *Routledge Library Editions: China Under Mao* Various,2021-06-23 This 13 volume collection of previously out of print titles reissues some key works in the study of Mao Zedong s huge influence on China its politics economics and development into the power that it is today

Foreign policy the Cultural Revolution the fate of opponents Chinese Marxist thought all are covered here and more in this essential reference resource [The Cambridge Economic History of Europe](#) Michael Moïsse Postan, H. J. Habakkuk, 1966 For contents and other editions see Title Catalog **First models of the socialist economic systems (Az első szocialista gazdasági mechanizmusok, engl.) Principles and theories** László Szamuely, 1974 [The Baba and the Comrade](#) Elizabeth A. Wood, 1997 How could the baba traditionally the backward Russian woman be mobilized as a comrade in the construction of a new state and society Drawing on newly available archival materials historian Elizabeth Wood explores the Bolshevik government's campaign to draw women into the public sphere and involve them in the world of politics in the early Soviet years *The Economic Transformation of the Soviet Union, 1913-1945* R. W. Davies, Mark Harrison, S. G. Wheatcroft, 1994 Leading scholars in the field analyse the Soviet economy sector by sector to make available in textbook form the results of the latest research on Soviet industrialisation *Newborn Socialist Things* Laurence Coderre, 2021-06-28 Contemporary China is seen as a place of widespread commodification and consumerism while the preceding Maoist Cultural Revolution is typically understood as a time when goods were scarce and the state criticized what little consumption was possible Indeed with the exception of the likeness and words of Mao Zedong both the media and material culture of the Cultural Revolution are often characterized as a void out of which the postsocialist world of commodity consumption miraculously sprang fully formed In *Newborn Socialist Things* Laurence Coderre explores the material culture of the Cultural Revolution to show how it paved the way for commodification in contemporary China Examining objects ranging from retail counters and porcelain statuettes to textbooks and vanity mirrors she shows how the project of building socialism in China has always been intimately bound up with consumption By focusing on these objects or newborn socialist things along with the Cultural Revolution's media environment discourses of materiality and political economy Coderre reconfigures understandings of the origins of present day China **Invisible Hands, Russian Experience, and Social Science** Stefan Hedlund, 2011-06-20 This book investigates cases in which national and international activities have gone massively wrong entailing seriously negative consequences and in which the sophisticated analytical models of social science have ceased to be helpful Illustrations range from the global financial crisis to the failure to achieve speedy systemic change in the former Soviet Union and the failure to achieve development in the Third World The analysis uses as a backdrop long term Russian history and short term Russian encounters with unrestrained capitalism to develop a framework that is based in the so called new institutionalism Understanding the causes of systemic failure is shown to require an approach that spans across the increasingly specialized subdisciplines of modern social science Demonstrating that increasing theoretical sophistication has been bought at the price of a loss of perspective and the need for sensitivity to the role of cultural and historical specificity the book pleads the case for a new departure in seeking to model the motives for human action **Soviet Communists in Power** R. Sakwa, 1988-06-21 [The Research Contracts](#) E. Lontai, 2024-11-04
