where you may experience this relationship explanations of world myths which provide clues to this unsuspected visionary world around us This is the first book to synthesize all the fragments of geomantic perception sacred sites energy points vertexes etc into a global interactive model that ties human consciousness directly to it Leviton describes 85 subtle features in the planetary landscape places you can go for mystical experiences They are features of the Earth s energy body almost all invisible to conventional sight But psychic cognition can be trained and you can usefully interact with any of these types of sites today without seeing what you re doing Your intent to interact for the benefit of yourself and the planet is all that s required Just as modems dial us into the Internet so the features of the Earth s energy body described in *The Emerald Modem* help us get online with the galaxy You can learn to visit Grail Castles experience a Mount Olympus or walk through the stars in a landscape zodiac and you can learn enough to become confident that you re not traveling alone *Pursuing an Earthy Spirituality* Gary S. Selby, 2019-05-21 Engaging the writings of C S Lewis Gary Selby contends that spiritual formation comes about not by retreating from the physical world but through deeper engagement with it By considering themes such as our human embodiment our sense of awareness in our everyday experiences and the role of our human agency Selby demonstrates that an earthy spirituality can be a robust spirituality
