Horsley, 2023-09-28 This volume brings together groundbreaking essays that laid the foundations of several of Horsley s later works The initial aims of these essays were first to ferret out evidence from our sources primarily from the histories of Josephus evidence for the lives of ordinary people living in Judean and Galilean villages A second purpose was to explore as precisely as possible the fundamental conflictual division between the Roman Herodian and high priestly rulers in Palestine and the Judean and Galilean villagers they ruled A third purpose was to explore more particularly how the popular and scribal opposition to the rulers was manifested in a remarkable diversity of movements and their leaders And the fourth purpose entailed in the first two was to wriggle out from under some of the controlling constructs of New Testament biblical studies that had been hiding the considerable complexity of the historical context This was necessary even to begin to discern more precisely the fundamental political economic religious conflict between the rulers and the villagers manifested in a diversity of social movements attested in the sources *The Palatine Family and the Thirty Years' War* Thomas

Pert,2023-06-01 The Palatine Family and the Thirty Years War examines the experience of exiled royal and noble dynasties during the early modern period through a study of the rulers of the Electorate of the Palatinate during the Thirty Years War 1618 1648 By drawing on a wide range of archival source materials ranging from financial records printed manifestos and considerable quantities of diplomatic and personal correspondence it investigates the resources available to the exiled Palatine Family as well as their attempts to recover the lands and titles lost by Elector Frederick V the son in law of King James VI and I of England and Scotland in the opening stages of the Thirty Years War This work focuses on the years between Frederick s death in 1632 and the partial restoration of his son Charles Louis under the Peace of Westphalia in 1648 Although the Palatine Question remained one of the most divisive and important issues throughout the entire Thirty Years War the years 1632 1648 have been greatly overlooked in previous examinations of the Palatine Family s exile By considering the experiences of exiled elites in early modern Europe such as the relationship between the Palatine Family and the Stuart Dynasty this work will reveal the influence of dynastic and familial obligations on the high politics of the period as well as the importance of conspicuous display and diplomatic recognition for exiled regimes in seventeenth century Europe It will demonstrate that that dispossessed rulers and houses were not automatically rendered politically insignificant after losing their lands and titles and could actually remain an important player on the geo political stage of early modern Europe
