Surgeon-General's Office, **Ward Ethics** Thomasine K. Kushner,David C. Thomasma,2001-06-07 The existing literature in medical ethics does not serve the practical needs of

medical students and trainees very well as the dilemmas posed are generally beyond their direct control and being a student or junior doctor brings its own set of ethical concerns The editors have addressed this need by compiling a series of case studies from around the world and inviting an international team of leading ethicists and clinicians to comment on them Over 80 actual cases cover the range of possible problems a medical trainee may encounter on the ward from drug and alcohol abuse whistleblowing and improper sexual conduct to performing procedures handling authority disclosure blaming personal responses to patients and misrepresentation of research The book will be an essential guide on how to cope with the ethical dilemmas of those embarking on medical careers

Princesses on the Wards Coryne Hall, 2014-09-01 Queens and princesses have always shown care and compassion but many went much further They were not afraid to roll up their sleeves work in wards or help in field hospitals and operating theatres despite their sheltered upbringings Through wars and revolutions across Europe their experiences were similar to those of thousands of other nurses but this is the first time that their involvement in nursing and the extent of their influence on the profession has been detailed in full Beginning with two daughters of Queen Victoria Princess Alice and Princess Helena Princesses on the Wards looks at the difficulties these royals faced while carving a worthwhile role in an age when the place of a well born woman was considered to be in the home Empress Alexandra of Russia Queen Marie of Romania Princess Marina Duchess of Kent and Princess Alice of Greece mother of the Duke of Edinburgh were just a few of Queen Victoria's relatives who set an example of service well beyond that considered necessary for their rank Not all of them were fully trained nurses but each made a positive contribution towards alleviating suffering which cannot be overestimated
