First Christian Centuries:

The First Christian Centuries Paul McKechnie, 2001 *Women and Religion in the First Christian Centuries* Deborah F. Sawyer, 2002-11

Women and Religion in the First Christian Centuries focuses on religion during the period of Roman imperial rule and its significance in women's lives. It discusses the rich variety of religious expression from pagan cults and classical mythology to ancient Judaism and early Christianity and the wide array of religious functions fulfilled by women. The author analyses key examples from each context creating a vivid image of this crucial period which laid the foundations of western civilization. The study challenges the concepts of religion and of women in the light of post modern critique. As such it is an important contribution to contemporary gender theory. In its broad and interdisciplinary approach this book will be of interest to students of early religion as well as those involved in cultural theory.

Making Sense in (and of) the First Christian Century Francis Gerald Downing, 2000-08-01

The first Christian century must be approached with careful attention to its cultural and linguistic heterogeneity. It should not simply be assumed that this past is a different place; they do things differently there. Downing treats the ways in which early Christians tried to make things make sense within their cultures, noting both the similarities and differences between their ways and contemporary ones and stressing the variety of contexts and influences on first century communication. Downing brings his renowned expertise to bear in illuminating the cultural features of early Christian society with a range of fascinating and telling examples.

The Early Christian Centuries Philip Rousseau, 2014-06-06

Charting the first six hundred years of the Christian movement, *THE EARLY CHRISTIAN CENTURIES* carries the reader from the world of second temple Judaism to the Byzantine age, the rise of Islam and the beginnings of medieval European politics. With a combination of rare tact and acuity, Philip Rousseau takes the measure of a generation of scholarship on early Christianity and the late Roman world. He stresses the importance of shifting historical consciousness, the continuity and development of ideas and the urge for social respectability. Paying the greatest attention to the inner components of Christian life, the

resulting story captures fully the major figures Paul the gospel writers the early apologists and the great figures of the patristic age including the Cappadocian Fathers Augustine and Gregory the Great **The First Three Christian Centuries** Islay Burns,1890 Making Sense in (and Of) the First Christian Century Francis Gerald Downing,2000-08-01

Although its religious heritage was that of a variegated Judaism the tiny early Christian movement was nevertheless much more complexly and richly linked with the Graeco Roman world in which it came to birth than is usually allowed for In particular ordinary people were capable of a sophisticated use of words that can be detected also in the New Testament writings But the use of words in Graeco Roman times was often very different from what we suppose and this collection of studies attempts to identify some of the anachronisms that still pervade even the best of modern scholarship
