First Find Your Child A Good Mother:

First Find Your Child a Good Mother Paul Riesman,1992 Through a systematic comparison of the life circumstances child rearing practices and personalities of the FulBe and their former slaves the RiimaayBe this book develops an alternative theory of the way personality is formed in the Fulani society of West Africa Riesman discusses the different characters economies and life plans of adult men and women of both groups focusing on their ideas about the value of relatives He further presents detailed observations of child rearing practices and concludes that the FulBe and RiimaayBe do not differ in these practices Contrasting Fulani and Western notions of parenting he suggests that child rearing practices are themselves irrelevant to the formation of adult personality but that a people s ideas about the meaning of life social relations and the development of character are very important Finally Riesman outlines a sociocultural theory of personality and its formation and uses this theory to make sense of the differences between FulBe and RiimaayBe **Childhoods at the Intersection of**

customs in Niger and how it has both a high fertility rate and high rates of maternal and infant mortality How do women in Niger experience pregnancy and childbirth differently from women in the United States or Europe Barbara M Cooper sets out to understand childbirth in a country with the world s highest fertility rate and an alarmingly high rate of maternal and infant mortality Cooper shows how the environment slavery and abolition French military rule and the rapid expansion of Islam have all influenced childbirth and fertility in Niger from the nineteenth century to the present day She sketches a

landscape where fear of infertility generates intense competition between communities ethnicities and co wives and creates a culture where concerns about infertility dominate concerns about overpopulation where illegitimate children are rejected and where the education of girls is sacrificed in the name of avoiding shame Given a medical system poorly adapted to women s needs a precarious economy and a political context where it is impossible to address sexuality openly Cooper discovers that it is little wonder that pregnancy and birth are a woman s greatest pride as well as a source of grave danger Beautifully written insightful and full of empathy A must read for anyone seeking to understand the damaging consequences of neglecting women s and infants health Johanna Schoen author of *Abortion after Roe* Few experiences are more potent than reproduction *Countless Blessings* brilliantly unwinds the full import of this potency tracing a history of demography bodily peril parental joy and social religious and political meaning Cooper s tremendous skill and creativity as a scholar enable us to see the political stakes of reproduction even as they are grounded in the intimacies of embodied experience Julie Livingston author of *Self Devouring Growth A Planetary Parable as Told from Southern Africa* *Countless Blessings* shows how women in Niger and in West Africa have long navigated the various states of social value personhood spirituality and childbirth and it paints a remarkable picture of how contested and embodied the social and material concerns of childbirth remain for women today Ampson Hagan Univeristy of North Carolina Chapel Hill IJAHS [Knowing Bodies, Moving Minds](#) Liora Bresler,2013-11-11 This book aims to define new theoretical practical and methodological directions in educational research centered on the role of the body in teaching and learning Based on our phenomenological experience of the world it draws on perspectives from arts education and aesthetics as well as curriculum theory cultural anthropology and ethnomusicology These are arenas with a rich untapped cache of experience and inquiry that can be applied to the notions of schooling teaching and learning The book provides examples of state of the art empirical research on the body in a variety of educational settings Diverse art forms curricular settings educational levels and cultural traditions are selected to demonstrate the complexity and richness of embodied knowledge as they are manifested through institutional structures disciplines and specific practices **Raising Children** David F.
