First Food Empire:

First Food Empire Peter A. Bird, 2000 From modest beginnings as supplier of catering to the Newcastle Exhibition in 1887 the new firm rapidly expanded to become the first food empire which was the largest in Europe In the process Lyons became a household name and the Joe Lyons Corner Houses and teashops with their Nippy waitresses passed into history Lyons brought a unique blend of showmanship style and spectacle to its aim of combining high quality with value for money Lyons owed its survival to the sure touch of its entrepreneurs and its ability to adapt to public needs and fashions

London's West End Rohan McWilliam, 2020-09-25 How did the West End of London become the world's leading pleasure district What is the source of its magnetic appeal How did the centre of London become Theatreland London's West End 1800 1914 is the first ever history of the area which has enthralled millions The reader will discover the growth of theatres opera houses galleries restaurants department stores casinos exhibition centres night clubs street life and the sex industry The area from the Strand to Oxford Street came to stand for sensation and vulgarity but also the promotion of high culture The West End produced shows and fashions whose impact rippled outwards around the globe During the nineteenth century an area that serviced the needs of the aristocracy was opened up to a wider public whilst retaining the imprint of luxury and prestige Rohan McWilliam tells the story of the great artists actors and entrepreneurs who made the West End figures such as Gilbert and Sullivan the playwright Dion Boucicault the music hall artiste Jenny Hill and the American Harry Gordon Selfridge who wanted to create the best shop in the world At the same time McWilliam explores the distinctive spaces created in the West End from the glamour of Drury Lane and Covent Garden through to low life bars and taverns We encounter the origins of the modern star system and celebrity culture London's West End 1800 1914 moves from the creation of Regent Street to the glory days of the Edwardian period when the West End was the heart of empire and the entertainment industry Much of modern culture and consumer society was shaped by a relatively small area in the middle of London This pioneering study establishes why that was *From Plain Fare to Fusion Food* Derek J. Oddy, 2003 Table of contents

Cultures of Selling Laura Ugolini, 2018-12-07 The study of consumption and its relationship to cultural and social values has become a vibrant and important field in recent years Hitherto however relatively few detailed and full length works on this topic have been published In what will become a seminal volume this book examines retail selling in various historical contexts and locations as both an activity at once mundane and almost universal The book introduces the reader to the existing literature relevant to the subject and explores the widespread perceptions of moral ambiguity surrounding the practice of selling consumer goods ranging from concerns about the adulteration of goods to fears about sharp practice on the part of retailers and places such concerns in the context of wider societal values and ideas The ambivalence towards retail selling and sellers is also a central focus of the collection focussing on the attempts by retailers to develop selling techniques and successful practices of salesmanship and at the same time establish widely shared

understandings of good retailing The book also delves into the more dubious practices of retail selling including practices on the margin of legality the issue of credit and changing attitudes towards debt Uniquely the book examines how sales techniques relate to the wider context of a whole shopping experience or shopping environment Taken as a whole this volume will provide a first port of call for students researchers and others interested in exploring consumer cultures and the cultural norms and practices involved in the sale of consumer goods in various historical periods and geographical contexts

Nights Out Judith Walkowitz, 2012-05-15 London's Soho district underwent a spectacular transformation between the late Victorian era and the end of the Second World War its old buildings and dark streets infamous for sex crime political disloyalty and ethnic diversity became a center of culinary and cultural tourism servicing patrons of nearby shops and theaters Indulgences for the privileged and the upwardly mobile edged a dangerous transgressive space imagined to be outside the nation Treating Soho as exceptional but also representative of London's urban transformation Judith Walkowitz shows how the area's foreignness and porousness were key to the explosion of culture and development of modernity in the first half of the twentieth century She draws on a vast and unusual range of sources to stitch together a rich patchwork quilt of vivid stories and unforgettable characters revealing how Soho became a showcase for a new cosmopolitan identity

Intimate Subjects Simeon Koole, 2024-07-26 An insightful history of nineteenth and twentieth century Britain told through a single sense touch When where and who gets to touch and be touched and who decides What do we learn through touch How does touch bring us closer together or push us apart These are urgent contemporary questions but they have their origins in late nineteenth and early twentieth century Britain when new urban encounters compelled intense discussion of what touch was and why it mattered In this vividly written book Simeon Koole excavates the history of these concerns and reveals how they continue to shape ideas about touch in the present Intimate Subjects takes us to the bustling railway stations shady massage parlors all night coffee stalls and other shared spaces where passengers customers vagrants and others came into contact leading to new understandings of touch We travel in crammed subway cars where strangers negotiated the boundaries of personal space We visit tea shops where waitresses made difficult choices about autonomy and consent We enter classrooms in which teachers wondered whether blind children could truly grasp the world and labs in which neurologists experimented on themselves and others to unlock the secrets of touch We tiptoe through London's ink black fogs in which disoriented travelers became newly conscious of their bodies and feared being accosted by criminals Across myriad forgotten encounters such as these Koole shows touch remade what it meant to be embodied as well as the meanings of disability personal boundaries and scientific knowledge With imagination and verve Intimate Subjects offers a new way of theorizing the body and the senses as well as a new way of thinking about embodiment and vulnerability today

what consequences for the country's classes of labour The book is an in depth study of agrarian transformations in contemporary India through the lens of food regime analysis While the food regime approach has emphasized global scale studies this book breaks new ground in downscaling the approach to account for specific historical geographical cases The book thus develops an innovative Marxist approach to food regime analysis that challenges prevailing scholarly accounts in agrarian studies and beyond

Fitzrovia, The Other Side of Oxford Street Dr Ann Basu, 2019-05-01 This is the other side of the story Before the Second World War Ann Basu's family of Jewish tailors lived where the BT Tower stands today At that time of high migration the women's fashion trade and the new car industry were sweeping into Fitzrovia Russian and German anarchists argued in its clubs Indian revolutionaries practised at the shooting range and popular cafes such as Lyons transformed the social lives of workers The Jews of Fitzrovia and Soho saw each other as being on the other side of Oxford Street and this book reflects Fitzrovia's distinctive inbetween ness at the inner edge of central London but

separate from the West End Putting the spotlight on Fitzrovia's enterprising twentieth century immigrant workers this is the history of working class and outsider voices that have previously been muted **Modernity Britain** David

Kynaston, 2014-09-11 Following Austerity Britain and Family Britain the third volume in David Kynaston's landmark social history of post war Britain Triumphant A historian of peerless sensitivity and curiosity about the lives of individuals Financial Times This superb history captures the birth pangs of modern Britain It is a part of Kynaston's huge achievement that such moments of insight and pleasure should accompany what has become a monumental history of our recent past The Times

David Kynaston's history of post war Britain has so far taken us from the radically reforming Labour governments of the late 1940s in Austerity Britain and through the growing prosperity of Family Britain's more placid 1950s Now Modernity Britain 1957-62 sees the coming of a new Zeitgeist as Kynaston gets up close to a turbulent era in which the speed of social change accelerated The late 1950s to early 1960s was an action packed often dramatic time in which the contours of modern Britain began to take shape These were the never had it so good years when the Carry On film series got going and films like Room at the Top and the first soaps like Coronation Street and Z Cars brought the working class to the centre of the national frame when CND galvanised the progressive middle class when youth emerged as a cultural force when the Notting Hill riots made race and immigration an inescapable reality and when meritocracy became the buzz word of the day In this period the traditional norms of morality were perceived as under serious threat Lady Chatterley's Lover freely on sale after the famous case and traditional working class culture was changing wakes weeks in decline the end of the maximum wage for footballers The greatest change though concerned urban redevelopment city centres were being yanked into the age of the motor car slum clearance was intensified and the skyline became studded with brutalist high rise blocks Some of this transformation was necessary but too much would destroy communities and leave a harsh fateful legacy This profoundly important story of the transformation of Britain as it arrived at the brink of a new world is brilliantly told through diaries letters newspapers and a rich haul of other sources and published in one magnificent paperback volume for the first time **The Mystique of Running the Public House in England** David W. Gutzke, 2024-05-14 This book is the first

scholarly study to explore economic relations between brewers and publicans in the brewing industry over a century Based on overlooked historical evidence this volume examines over 400 interviews with candidates for public houses unpublished evidence of royal commissions heard in secrecy representations of publicans in fiction and film and systematic reading of 15 licensed victuallers newspapers The Mystique of Running the Public House in England situates licensed victualling among upper working and lower middle class occupations in England and abroad This book explores why aspiring but untrained individuals sought public house tenancies notwithstanding high levels of turnovers and numerous bankruptcies among licensed victuallers Encapsulated in any newcomer's appraisal was the captivating vision of El Dorado a nirvana which promised unimaginable wealth high social status respectability and social mobility as rewards for those limited in income but

not in ambition Despite the allure of El Dorado the likelihood of publicans realizing their aspirations was quite as remote as that of fish and chip proprietors Blackpool landladies and French caf proprietors This volume will be of great value to students and scholars alike interested in British History Economic History and Social and Cultural History *The English Landscape in the Twentieth Century* Trevor Rowley,2006-01-01 Trevor Rowley s new study is a highly topical account of the changes that have taken place and that continue to take place on the country around us *Austerity Britain, 1945-1951* David Kynaston,2010-12-01 As much as any country England bore the brunt of Germany s aggression in World War II and was ravaged in many ways at the war s end Celebrated historian David Kynaston has written an utterly original and compellingly readable account of the following six years during which the country rebuilt itself Kynaston s great genius is to chronicle the country s experience from bottom to top coursing through through the book therefore is an astonishing variety of ordinary contemporary voices eloquently and passionately evincing the country s remarkable spirit Judy Haines a Chingford housewife gamely endures the tribulations of rationing Mary King a retired schoolteacher in Birmingham observes how well fed the Queen looks during a royal visit Henry St John a persnickety civil servant in Bristol is oblivious to anyone s troubles but his own Together they present a portrait of an indomitable people and Kynaston skillfully links their stories to bigger events thought the country Their stories also jostle alongside those of more well known figures like celebrated journalist to be John Arlott making his first radio broadcast Glenda Jackson and Doris Lessing newly arrived from Africa and struck by the leveling poverty of post war Britain Kynaston deftly weaves into his story a sophisticated narrative of how the 1945 Labour government shaped the political economic and social landscape for the next three decades **Consuming Behaviours** Erika Rappaport,Sandra Trudgen Dawson,Mark J. Crowley,2020-05-26 In twentieth century Britain consumerism increasingly defined and redefined individual and social identities New types of consumers emerged the idealized working class consumer the African consumer and the teenager challenged the prominent position of the middle and upper class female shopper Linking politics and pleasure Consuming Behaviours explores how individual consumers and groups reacted to changes in marketing government control popular leisure and the availability of consumer goods From football to male fashion tea to savings banks leading scholars consider a wide range of products ideas and services and how these were marketed to the British public through periods of imperial decline economic instability war austerity and prosperity The development of mass consumer society in Britain is examined in relation to the growing cultural hegemony and economic power of the United States offering comparisons between British consumption patterns and those of other nations Bridging the divide between historical and cultural studies approaches Consuming Behaviours discusses what makes British consumer culture distinctive while acknowledging how these consumer identities are inextricably a product of both Britain s domestic history and its relationship with its Empire with Europe and with the United States 'From Punch and Judy to Haute Cuisine'- a Biography on the Life and Times of Arthur Edwin Simms 1915-2003 Michael Flagg,2011-11-14

The London Restaurant, 1840-1914 Brenda Assael, 2018-07-03 This is the first scholarly treatment of the history of public eating in London in the Victorian and Edwardian eras The quotidian nature of eating out during the working day or evening should not be allowed to obscure the significance of the restaurant defined broadly to encompass not merely the prestigious West End restaurant but also the modest refreshment room and even the street cart as a critical component in the creation of modern metropolitan culture The story of the London restaurant between the 1840s and the First World War serves as an exemplary site for mapping the expansion of commercial leisure the increasing significance of the service sector the introduction of technology the democratization of the public sphere changing gender roles and the impact of immigration The London Restaurant incorporates the notion of gastro cosmopolitanism to highlight the existence of a diverse culture in London in this period that requires us to think not merely beyond the nation but beyond empire The restaurant also had an important role in contemporary debates about public health and the sometimes conflicting but no less often complementary prerogatives of

commerce moral improvement and liberal governance The London Restaurant considers the restaurant as a business and a place of employment as well as an important site for the emergence of new forms of metropolitan experience and identity While focused on London it illustrates the complex ways in which cultural and commercial forces were intertwined in modern Britain and demonstrates the rewards of writing histories which recognize the interplay between broad global forces and highly localized spaces

The Coffee-House Markman Ellis,2011-05-12 How the simple commodity of coffee came to rewrite the experience of metropolitan life When the first coffee house opened in London in 1652 customers were bewildered by this strange new drink from Turkey But those who tried coffee were soon won over More coffee houses were opened across London and in the following decades in America and Europe For a hundred years the coffee house occupied the centre of urban life Merchants held auctions of goods writers and poets conducted discussions scientists demonstrated experiments and gave lectures philanthropists deliberated reforms Coffee houses thus played a key role in the explosion of political financial scientific and literary change in the 18th century In the 19th century the coffee house declined but the 1950s witnessed a dramatic revival in the popularity of coffee with the appearance of espresso machines and the coffee bar and the 1990s saw the arrival of retail chains like Starbucks
