First Humans:

The First Humans Göran Burenhult, 1993 Examines theories of evolution the Great Apes the origins of language extinct species and the global expansion that precipitated adaptation and diversity *The First Humans* Frederick E. Grine, John G. Fleagle, Richard E. Leakey, 2009-05-24 There are some issues in human paleontology that seem to be timeless Most deal with the origin and early evolution of our own genus something about which we should care Some of these issues pertain to taxonomy and systematics How many species of Homo were there in the Pliocene and Pleistocene How do we identify the earliest members the genus Homo If there is more than one Plio Pleistocene species how do they relate to one another and where and when did they evolve Other issues relate to questions about body size proportions and the functional adaptations of the locomotor skeleton When did the human postcranial Bauplan evolve and for what reasons What behaviors and what behavioral limitations can be inferred from the postcranial bones that have been attributed to Homo habilis and Homo erectus Still other issues relate to growth development and life history strategies and the biological and archeological evidence for diet and behavior in early Homo It is often argued that dietary change played an important role in the origin and early evolution of our genus with stone tools opening up scavenging and hunting opportunities that would have added meat protein to the diet of Homo Still other issues relate to the environmental and climatic context in which this genus evolved

Life on Earth The Diagram Group, 2004 A guide to the earliest humans including what defines a human how humans developed over time what prehistoric humans daily lives were like and how scientists have learned about them Early Humans and Their World Bo Gräslund, 2005 The deconstruction of current thought on early hominid evolution continues as the author applies critical scrutiny to the biological theory of kin selection and its relevance for the evolution of human morality and the behaviours of inbreeding avoidance and infanticide He also examines other key issues such as the origin of cognition spoken language morality and typical human sexuality as well as diet and population density Jacket **The Rift Valley and the Archaeological Evidence of the First Humans** Kristina Lyn Heitkamp, 2016-07-15 East Africa's Rift Valley has proven a rich source of information about our distant ancestors Fossil finds there including the famous Lucy and Turkana Boy have permanently altered our understanding of how modern humans evolved Readers will learn about the other hominins such as the species Homo erectus and the genus Australopithecus who help fill out the human family tree The engaging text explains how archaeologists discoveries of bones tools early art evidence of hearths and other evidence has furthered our understanding of the origins of modern humans A timeline helps readers understand the chronology of the topic **The First Humans** Nicholas Harris, 2006 **The First Human** Ann Gibbons, 2007-04-10 In this dynamic account award winning science writer Ann Gibbons chronicles an extraordinary quest to answer the most primal of questions When and where was the dawn of humankind Following four intensely competitive international teams of scientists in a heated race to find the missing link the fossil of the earliest human ancestor Gibbons ventures to Africa where she encounters a

fascinating array of fossil hunters Tim White the irreverent Californian who discovered the partial skeleton of a primate that lived 4 4 million years ago in Ethiopia French paleontologist Michel Brunet who uncovers a skull in Chad that could date the beginnings of humankind to seven million years ago and two other groups one led by zoologist Meave Leakey the other by British geologist Martin Pickford and his French paleontologist partner Brigitte Senut who enter the race with landmark discoveries of their own Through scrupulous research and vivid first person reporting *The First Human* reveals the perils and the promises of fossil hunting on a grand competitive scale *First Humans* Rebecca Stefoff,2010-01-15 Take a step back in time to explore the first humans Bearing Sin as Church Community Hyun Joo Kim,2022-07-28 Hyun Joo Kim claims that Bonhoeffer transforms and reconstructs the Augustinian doctrine of original sin by shifting the hamartiological premise from the doctrine of God to the doctrine of the church based on his Lutheran resources In Bonhoeffer s view Augustine s doctrine of original sin does not fully relate the doctrine of sin to the responsibility of the saints In order to reform Augustinian hamartiology Bonhoeffer appropriates Augustine s notion of the church as the whole Christ totus Christus which is located in Augustine s ecclesiology Kim explicates how Augustine relates his epistemological premises in his Christianized Platonism to his formulation of the doctrine of original sin and examines how Luther s Christocentric standpoint transforms Augustine s anthropology and ultimately leads Luther to his relational hamartiology Kim contends that Bonhoeffer s later hamartiology and ethics contain the most distinctive characteristics of Bonhoeffer s doctrine of sin in that he not only incorporates both the active and passive dimensions of sin but also intensifies his continuing notion of vicarious representative action towards the church community **The First Humans** Herbert Thomas,1995 Who are we Where did we come from What makes us human The whole puzzle of our early life on earth is gradually being pieced together from fragments of bone skulls and primitive tools dispersed throughout the world The trail leads back nearly five million years Here is a history of human evolution that reveals the very latest finds and thinking discoveries that can help us to understand our past our present and even future **A Companion to Early Modern Philosophy** Steven Nadler,2008-04-15 This is a reference for early modern philosophy Representing the most contemporary research in the history of early modern philosophy it is organized by thinker rather than theme and covers every important philosopher and philosophical movement of 16th and 18th century Europe *Early Human Behaviour in Global Context* Ravi Korisettar,Michael D. Petraglia,2003-09-02 *Early Human Behaviour in a Global Context* will be of use to students and professionals who are interested in prehistory Paleolithic archaeology and paleoanthropology Those interested in our ancestors and their place in the natural world will also benefit from the information presented in this book Chapters focus on the nature of archaeological evidence stone tool technology subsistence practices settlement distributions **The Bible Delusion: 101 'Hang On A Minute' Moments; And God's Mysterious Ways** Jim Whitefield,2016-05-22 OThe Bible Delusion 101 OHang on a MinuteO Moments and GodOs Mysterious WaysO comprises an easy to read summary of 101 examples of absurdity in the King James Version of the Bible dismantling

followers that pleasure and contentment were the aims of the good life For hundreds of years Epicureanism was one of the dominant schools of philosophy But by the 6th century it had all but disappeared Discovering how and why Epicureanism was driven from philosophy and public discourse reveals much about how Western thought developed Despite attempts to erase him the lessons of Epicurus have been recovered from the mists of time and the ashes of Vesuvius How he was restored to his place in history is a story of brilliant Renaissance scholars chance discoveries and a hunger for intellectual freedom This new biography of Epicurus reveals the life of Epicurus and traces how his teachings have influenced thinkers across time
