A new edition, etc. With a supplement Matthew PILKINGTON (Vicar of Donabate, Dublin.), 1840 Global Byzantium Leslie Brubaker, Rebecca Darley, Daniel Reynolds, 2022-07-29 Global Byzantium is in part a recasting and expansion of the old Byzantium and its neighbours theme with however a methodological twist away from the resolutely political and toward the cultural and economic A second thing that Global Byzantium as a concept explicitly endorses is comparative methodology Global Byzantium needs also to address three further issues cultural capital the importance of the local and the empire's strategic geographical location Cultural capital in past decades it was fashionable to define Byzantium as culturally superior to western Christian Europe and

Byzantine influence was a key concept especially in art historical circles This concept has been increasingly criticised and what we now see emerging is a comparative methodology that relies on the concept of competitive sharing not blind copying but rather competitive appropriation The importance of the local is equally critical We need to talk more about what the Byzantines saw when they looked out and what others saw in Byzantium when they looked in and to think about how that impacted on our very post modern concepts of globalism Finally we need to think about the empire s strategic geographical position between the fourth and the thirteenth centuries if anyone was travelling internationally they had to travel across or along the coasts of the Byzantine Empire Byzantium was thus a crucial intermediary for good or for ill between Europe Africa and Asia effectively the glue that held the Christian world together and it was also a critical transit point between the various Islamic polities and the Christian world The art of landscape painting in oil colours [by W. Williams]. W. Williams,1849
