First Person Singular Haruki Murakami, 2021-04-06 NATIONAL BEST SELLER A mind bending new collection of short stories from the internationally acclaimed best selling author Some novelists hold a mirror up to the world and some like Haruki Murakami use the mirror as a portal to a universe hidden beyond it The Wall Street Journal The eight stories in this new book are all told in the first person by a classic Murakami narrator From memories of youth meditations on music and an ardent love of baseball to dreamlike scenarios and invented jazz albums together these stories challenge the boundaries between our minds and the exterior world Occasionally a narrator may or may not be Murakami himself Is it memoir or fiction The reader decides Philosophical and mysterious the stories in First Person Singular all touch beautifully on love and solitude childhood and memory all with a signature Murakami twist **The First Person Singular** William Rose

Benet, 1985-01-01 *A Grammar of Kulina* Stefan Dienst, 2014-12-12 This book is a reference grammar of Kulina an Amazonian language spoken in Brazil and Peru The dialect described by the author is spoken on the upper Purus River in the Brazilian state of Acre Kulina belongs to the Arawan language family It is predominantly head marking and has a complex verbal morphology which is largely agglutinating with some instances of fusion The language has two noun classes and two genders The gender agreement of transitive verbs with their arguments is in part governed by intricate grammatical rules and in part pragmatically driven There are three types of possession alienable inalienable and kinship The latter category only applies to some kinship nouns while others are alienably possessed Kulina has aspirated and unaspirated obstruents but different aspirated obstruents do not co occur in one morpheme due to Grassmann's law a dissimilation process known from Sanskrit and Ancient Greek The book contains two Kulina texts and a chapter on the lexicon which discusses colour terms generic nouns for plants and animals pet vocatives idioms and the origin of loan words **The Canadian Teacher ...** Gideon E. Clusivity Elena Filimonova, 2005-01-01 This book presents a collection of papers on clusivity a newly coined term for the inclusive exclusive distinction Clusivity is a widespread feature familiar from descriptive grammars and frequently figuring in typological schemes and diachronic scenarios However no comprehensive exploration of it has been available so far This book is intended to make the first step towards a better understanding of the inclusive exclusive opposition by documenting the current linguistic knowledge on the topic The issues discussed include the categorial and paradigmatic status of the opposition its geographical distribution realization in free vs bound pronouns inclusive imperatives clusivity in the 2nd person honorific uses of the distinction etc These case studies are complemented by the analysis of the opposition in American Sign Language as opposed to spoken languages In depth areal and family surveys of clusivity consider this opposition in Austronesian Tibeto Burman central western South American Turkic languages and in Mosetenan and Shuswap

Reading Sappho Ellen Greene,1996 Essays that aim to draw attention to Sappho's importance as a poet and to offer a sense of the lively debate and competing critical positions within Sappho studies Case in Africa Christa König,2008-06-12 This book provides a typological overview of the different manifestations of grammaticalized case systems in African languages After defining and distinguishing case systems Christa König begins a thorough analysis of case in roughly 100 African languages and reveals several features such as tone as a marker for case and the marked nominative system which are rare phenomena in other languages of the world Wherever possible the author takes into account data from her own substantial and highly regarded field research The book provides answers to questions such as the following What is the relationship between definiteness and case Are case phenomena areally or genetically motivated Why are case distinctions neutralized in nearly all case languages with verb initial or verb medial word order Which grammaticalizations appear with case What is the relationship between topics and nominative cases or focus and accusative cases Yuki Grammar Uldis Balodis,2016-04-26 The Yuki language including Huchnom and Coast Yuki was spoken in Mendocino County until relatively recently the last speaker died in 1983 This grammar is based primarily on spoken narratives recorded by Alfred Kroeber between 1901-1911 While Yuki was extensively documented over the course of the twentieth century there is relatively little in the way of actual published works on the language Balodis discusses the language within the historical and cultural context of the people who spoke it **The Juvenile Expositor : Or** Albert Pickett,1810 **A New System of English Grammar, etc** William ANGUS (A. M., of Glasgow.),1812 Publication ,1904 *Publications* Philippines. Ethnological Survey,1904 **Elihu Root Collection of United States Documents Relating to the Philippine Islands** ,1904 **Division of Ethnology Publications** ,1904 **The Beginning of the Biblical Canon and Ben Sira** Alma Brodersen,2023-01-02 The Book of Ben Sira written in Hebrew in the early second century BCE is often regarded as containing the earliest references to the canon of the Hebrew Bible Old Testament In contrast Alma Brodersen examines methodological and historical issues regarding the beginning of the biblical canon and Ben Sira and demonstrates that the book itself as distinct from the later Prologue to its Greek translation does not actually refer to texts as canonical In addition a systematic analysis of key passages in Ben Sira 38-39 and 44-50 in Hebrew and Greek uncovers similarities with other ancient texts which are not canonical today but preserved in the Dead Sea Scrolls Far from proving the existence of the biblical canon in his day Ben Sira's book indicates instead the importance of oral teaching and the relevance of a wide range of traditions *Introductory Linguistics for Speech and Language Therapy Practice* Jan McAllister,James E. Language in the Americas Joseph Harold Greenberg, 1987 This book is concerned primarily with the evidence for the validity of a genetic unit Amerind embracing the vast majority of New World languages The only languages excluded are those belonging to the Na Dene and Eskimo Aleut families It examines the now widely held view that Haida the most distant language genetically is not to be included in Na Dene It confined itself to Sapir's data although the evidence could have been buttressed considerably by the use of more recent materials What survives is a body of evidence superior to that which could be adduced under similar restrictions for the affinity of Albanian Celtic and Armenian all three universally recognized as valid members of the Indo European family of languages A considerable number of historical hypotheses emerge from the present and the forthcoming volumes Of these the most fundamental bears on the question of the peopling of the Americas If the results presented in this volume and in the companion volume on Eurasiatic are valid the classification of the world's languages based on genetic criteria undergoes considerable simplification
