Joan Rubin, Bjorn Jernudd, 2019-03-31 This pioneer study goes well beyond the subject of linguistics to encompass economic sociological political and educational approaches to language change In the context of the development of national resources the book focuses on language planning the deliberate change and promotion of language structure and language use It outlines a theoretical approach to the study of language planning and includes selected case studies which demonstrate the possibilities of broadening and improving national planning by taking linguistic and human resources into explicit account to enhance forecasting The contributors to this volume include highly renowned experts in their respective academic fields as well as actual language planners They were brought together on the instigation of a study group on language planning processes sponsored by the East West Center University of Hawaii with Ford Foundation support Can Language Be Planned is one result of their joint studies An on going cross national research project on language planning processes at Stanford University is another **A Nation of Empire** Michael Meeker, 2002-03-29 A history of the political transformation of the Ottoman Empire from the 16th century to the present by an anthropologist who has spent 30 years studying Turkish history and culture USAK Yearbook of International Politics and Law 2010, Vol. 3, 2008 **Turkish Politics and the Military** William Hale, 2013-09-13 Turkey's geographical position between the Middle East and Europe and at the centre of the current upheavals in the USSR and the Balkans has led to a reawakening of interest in its international standing Meanwhile its domestic politics are of increasing interest and Turkey seems to have become a model for Liberal Democracy in Central Asia David Hale focuses on the role of the military in contemporary politics He author argues that the military has behaved quite differently from its counterparts in other third world states it has acted in some degree as a guardian of the state committed to economic and social modernisation The book places contemporary politics in perspective by looking at the evolution of the armed forces in Turkey from the end of the eighteenth century The author traces the role of the military through the establishment of the Republic the military coups of 1960 and 1980 the gradual return to civilian government of the sixties and seventies and the military disengagement from politics of 1983 onwards Hale is interested in the army as an actor in the political drama rather than in the professional functions of soldiers and his historical exposition reveals much about the modern scene *Books on Asia from the Near East to the Far East* Eleazar Birnbaum, 1971-12-15 This is a selected annotated list of some 2 000 books on Asia in English and French currently in print chosen with the aim of providing a long term historical perspective for the general reader The list is presented in four main parts Asia as a whole the Islamic world India South and Southeast Asia the Far East Subdivisions cover such topics as general and reference works history social science and law history of literature literature in translation religion and ideas arts crafts architecture and science and the lands in modern times *Turkey,*

Islam, Nationalism, and Modernity Carter V. Findley, 2010-09-21 Book Description Publication Date August 30 2011 Turkey Islam Nationalism and Modernity reveals the historical dynamics propelling two centuries of Ottoman and Turkish history As mounting threats to imperial survival necessitated dynamic responses ethnolinguistic and religious identities inspired alternative strategies for engaging with modernity A radical secularizing current of change competed with a conservative Islamically committed current Crises sharpened the differentiation of the two streams forcing choices between them The radical current began with the formation of reformist governmental elites and expanded with the advent of print capitalism symbolized by the privately owned Ottoman language newspapers The radicals engineered the 1908 Young Turk revolution ruled empire and republic until 1950 made secularism a lasting belief system and still retain powerful positions The conservative current gained impetus from three history making Islamic renewal movements those of Mevlana Halid Said Nursi and Fethullah Gulen Powerful under the empire Islamic conservatives did not regain control of government until the 1980s By then they too had their own influential media Findley s reassessment of political economic social and cultural history reveals the dialectical interaction between radical and conservative currents of change which alternately clashed and converged to shape late Ottoman and republican Turkish history Turkey's Engagement with Modernity C. Kerslake, K. Öktem, P. Robins, 2010-02-25 Turkey s Enagement with Modernity explores how the country has been shaped in the image of the Kemalist project of nationalist modernity and how it has transformed if erratically into a democratic society where tensions between religion state and society continue unabated **The Military and Modernization** Henry Bienen, 2017-07-05 There is a growing body of work on the military in developing countries Few studies have explored in depth questions concerning the social origins of offi cers and enlisted men or trace career patterns within the armed forces of the developing world With the exception of Latin America it has been rare for a study to assess the performance of ruling or non ruling militaries for political development and modernization of their societies Th is oversight is exactly what Henry Bienen addresses in this collection Bibliography of Periodical Literature on the Near and Middle East ,1961 New Perspectives on Israeli History Laurence J Silberstein, 1991-10-01 In this volume a distinguished group of international scholars draws from history folklore political anthropology historiography and cultural criticism to reexamine critical issues surrounding the birth of Israel The authors explore such issues as the transition form yishuv to state early state policy toward the Arab minority the origins of the Palestinian refugee problem the conflict over myths and symbols in the early state early attitude toward Holocaust victims and survivors Arab historiography of the 1948 war Israel Diaspora relations and the shaping of Israeli foreign policy The contributors to the book include Myron J Aronoff Rutgers University Uri Bialer Hebrew University of Jerusalem Neil Caplan Vanier College Montreal Benny Morris Hebrew Univeristy of Jerusalem Don Peretz State University of New York Binghamton Dina Porat Tel Aviv University Jehuda Reinharz Brandeis University Elie Rekhess Tel Aviv University Avraham Sela Hebrew University of Jerusalem Anton Shammass University of Michigan Laurence J Silberstein

The Struggle for Egypt Steven A. Cook, 2013-03-21 A half century ago Egypt under Nasser became the putative leader of the Arab world and a beacon for developing nations Yet in the decades prior to the 2011 revolution it was ruled over by a sclerotic regime plagued by nepotism and corruption During that time its economy declined into near shambles a severely overpopulated Cairo fell into disrepair and it produced scores of violent Islamic extremists In The struggle for Egypt now with a new epilogue on the post Mubarak era noted regional specialist Steven A. Cook provides a sweeping and incisive account of how this parlous state of affairs came to be why the revolution occurred and where Egypt might be headed next From p 4 of cover *United and Independent Turania* Zarevand, 1971 Modern Revolutions John Dunn, 1989-06-22 Many political regimes today draw such legitimacy as they have from a revolution the destruction of an existing political elite and its replacement by a different group or groups drawn from inside the same society A large part of the ideological dispute in world politics has come in consequence to turn on an interpretation of the character of revolutions as political and social events It is extremely difficult to separate ideological assessments of the desirability or otherwise of what has occurred in revolutions from causal explanations of why these revolutions occurred and both major traditions in the analysis of revolutionary phenomena have been damaged by their failure to distinguish clearly between explanation and assessment In examining eight major revolutions of the twentieth century John Dunn helps readers to remedy this state of affairs by thinking for themselves Collapse of an Empire Yegor Gaidar, 2010-01-01 My goal is to show the reader that the Soviet political and economic system was unstable by its very nature It was just a question of when and how it would collapse From the Introduction to Collapse of an Empire The Soviet Union was an empire in many senses of the word a vast mix of far flung regions and accidental citizens by way of conquest or annexation Typical of such empires it was built on shaky foundations That instability made its demise inevitable asserts Yegor Gaidar former prime minister of Russia and architect of the shock therapy economic reforms of the 1990s Yet a growing desire to return to the glory days of empire is pushing today's Russia backward into many of the same traps that made the Soviet Union untenable In this important new book Gaidar clearly illustrates why Russian nostalgia for empire is dangerous and ill fated Dreams of returning to another era are illusory Attempts to do so will lead to defeat Gaidar uses world history the Soviet experience and economic analysis to demonstrate why swimming against this tide of history would be a huge mistake The USSR sowed the seeds of its own economic destruction and Gaidar worries that Russia is repeating some of those mistakes Once again for example the nation is putting too many eggs into one basket leaving the nation vulnerable to fluctuations in the energy market The Soviets had used

revenues from energy sales to prop up struggling sectors such as agriculture which was so thoroughly ravaged by hyperindustrialization that the Soviet Union became a net importer of food When oil prices dropped in the 1980s that revenue stream diminished and dependent sectors suffered heavily Although strategies requiring austerity or sacrifice can be politically difficult Russia needs to prepare for such downturns and restrain spending during prosperous times Collapse of an Empire shows why it is imperative to fix the roof before it starts to rain and why so
