

First World Nationalisms

Paul Latawski

First World Nationalisms:

The New Nationalism and the First World War L. Rosenthal, V. Rodic, 2014-10-29 The New Nationalism and the First World War is an edited volume dedicated to a transnational study of the features of the turn of the century nationalism its manifestations in social and political arenas and the arts and its influence on the development of the global scale conflict that was the First World War

Nationalism in Europe, 1890-1940 Oliver Zimmer, 2017-04-29 While nationalism had become politically significant well before the late nineteenth century it was between 1890 and 1940 that it revealed its political explosiveness and destructive potential Organised around specific themes many of which are currently hotly debated among experts in the field Oliver Zimmer's study discusses such key issues as the modernity of nations and nationalism the formation of the nationalising state and the significance of national ritual for modern mass nations the ways in which nationalism shaped the treatment of minorities the relationship between nationalism and fascism and the perception of nationalism by liberals and socialists Zimmer's account is more explicitly focused on conceptual issues than most textbooks on the subject and also more historical and historiographical than many of the existing theoretical overviews The result is an incisive examination of the most powerful ideology of modern times

The Limits of Nationalism Chaim Gans, 2003-02-13 A radical new perspective on the demands made in the name of cultural nationalism

The Oxford Handbook of the History of Nationalism John Breuilly, 2013-03-07 The Oxford Handbook of the History of Nationalism comprises thirty six essays by an international team of leading scholars providing a global coverage of the history of nationalism in its different aspects ideas sentiments and politics Every chapter takes the form of an interpretative essay which by a combination of thematic focus comparison and regional perspective enables the reader to understand nationalism as a distinct and global historical subject The book covers the emergence of nationalist ideas sentiments and cultural movements before the formation of a world of nation states as well as nationalist politics before and after the era of the nation state with chapters covering Europe the Middle East North East Asia South Asia Southeast Asia sub Saharan Africa and the Americas Essays on everyday national sentiment and race ideas in fascism are accompanied by chapters on nationalist movements opposed to existing nation states nationalism and international relations and the role of external intervention into nationalist disputes within states In addition the book looks at the major challenges to nationalism international socialism religion pan nationalism and globalization before a final section considering how historians have approached the subject of nationalism Taken separately the chapters in this Handbook will deepen understanding of nationalism in particular times and places taken together they will enable the reader to see nationalism as a distinct subject in modern world history

Commercial Nationalism and Tourism Leanne White, 2017-01-19 This book combines academic analysis and critical exploration to examine national narratives in the context of tourism and events around the world It explores how particular narratives are woven to tell and sell a national story By deconstructing images of the nation it closely examines how national texts create

key archival imagery that can promote tourism and events while also shaping national identity It investigates the complex relationship between state appropriation of marketing strategies and the commercial use of nationalist discourses The book aims to demystify the ways in which the nation is imagined by key organisers and organisations and then communicated to millions

Liberal and Illiberal Nationalisms R. Taras, 2002-07-05 How people construct their idea of home influences the types of nationalisms that emerge in various parts of the world These nationalisms can be inclusive or exclusionary tolerant or intolerant peaceful or violent In this important new book Ray Taras provides a comprehensive analysis of the history and study of nationalism He describes what happens when home is defined as empire Russia and India secessionist state KwaZulu and Quebec uninational Volkstaat Germany and Israel or transnational community Islam and anti Americanism Finally he explores the idea that the mantra of multiculturalism has fuelled conflicts over what home is and generates divisions within and between communities

Communism and Nationalism Roman Szporluk, 1991 This study examines the relationship between the two dominant ideologies which emerged in the 19th century Karl Marx's communism and Friedrich List's theory of nationalism List was the first economist to be studied seriously by Marx Three years before publication of the Communist Manifesto Karl Marx began work on a critique of a movement that was gaining popularity as a challenge to capitalism nationalism as put forth by the German economist Friedrich List Long regarded as a major cultural and political force in 19th century Europe nationalism was in fact to become directly involved in the conflict between capitalism and socialism offering an appealing alternative to capitalism's New World Order the doctrine of Free Trade and socialism's call for a worldwide unification of the workers against the bourgeoisie In this original new work Professor Szporluk offers a major reinterpretation of Marxism's historical development one that recognises nationalism as the third contender on the battlefield where Marxism met capitalism A bold new interpretation of Marx's intellectual biography showing how the history of Marx and Marxism is to a great extent the story of their confrontation with nationalism before 1848

Islam, Secularism and Nationalism in Modern Turkey Soner Cagaptay, 2006-05-02 It is commonly believed that during the interwar period Kemalist secularism successfully eliminated religion from the public sphere in Turkey leaving Turkish national identity devoid of religious content However through its examination of the impact of the Ottoman millet system on Turkish and Balkan nationalisms this book presents a different view point Cagaptay demonstrates that the legacy of the Ottoman millet system which divided the Ottoman population into religious compartments called millets shaped Turkey's understanding of nationalism in the interwar period Providing a compelling examination of why and how religion shapes national identity in Turkey and the Balkans the book covers topics including Turkish nationalism the Ottoman legacy Kemalist citizenship policies and immigration Kurds Muslims and Jews and the ethno religious limits of Turkishness Incorporating documents from untapped Turkish archives this book is essential reading for scholars and students with research interests in Turkey Turkish nationalism and Middle East history

Nationalism and Youth in Theatre and

Performance Victoria Pettersen Lantz, Angela Sweigart-Gallagher, 2014-07-11 Nationalism and Youth in Theatre and Performance explores how children and young people fit into national political theatre and moreover how youth enact interrogative patriotic and or antagonistic performances as they develop their own relationship with nationhood Children are often seen as excluded from public discourse or political action However this idea of exclusion is false both because adults place children at the center of political debates with the rhetoric of future generations and because children actively insert themselves into public discourse Whether performing a national anthem for visiting heads of state creating a school play about a country's birth or marching in protest of a change in public policy young people use theatre and performance as a means of publicly staking a claim in national politics directly engaging with ideas of nationalism around the world This collection explores the issues of how children fit into national discourse on international stages The authors focus on national performances by for with youth and examine a wide range of performances from across the globe from parades and protests to devised and traditional theatre Nationalism and Youth in Theatre and Performance rethinks how national performance is defined and offers previously unexplored historical and theoretical discussions of political youth performance

Nationalism in a Transnational Age Frank Jacob, Carsten Schapkow, 2021-11-22 Nationalism was declared to be dead too early A postnational age was announced and liberalism claimed to have been victorious by the end of the Cold War At the same time postnational order was proclaimed in which transnational alliances like the European Union were supposed to become more important in international relations But we witnessed the rise a strong nationalism during the early 21st century instead and right wing parties are able to gain more and more votes in elections that are often characterized by nationalist agendas This volume shows how nationalist dreams and fears alike determine politics in an age that was supposed to witness a rather peaceful coexistence by those who consider transnational ideas more valuable than national demands It will deal with different case studies to show why and how nationalism made its way back to the common consciousness and which elements stimulated the re establishment of the aggressive nation state The volume will therefore look at the continuities of empire actual and imagined the role of foreign and otherness for nationalist narratives and try to explain how globalization stimulated the rise of 21st century nationalisms as well

Writing the History of Nationalism Stefan Berger, Eric Storm, 2019-09-19 What is nationalism and how can we study it from a historical perspective Writing the History of Nationalism answers this question by examining eleven historical approaches to nationalism studies in theory and practice An impressive cast of contributors cover the history of nationalism from a wide range of thematic approaches from traditional modernist and Marxist perspectives to more recent debates around gender postcolonialism and the global turn in history writing This book is essential reading for undergraduate students of history politics and sociology wanting to understand the complex yet fascinating history of nationalism

Latin American Nationalism James F. Siekmeier, 2017-09-07 With ethnic and class based national movements taking center stage in countries like Bolivia and Venezuela nationalism has proven to be

one of the most durable and important movements in Latin America In understanding the history of these nationalisms we can understand how Latin America relates to the rest of the world As Latin America inserts itself into a rapidly globalizing world understanding the changing nature of national identity and nationalism is key By tracing the important historical origins of present day Latin American nationalism this book gives readers a thorough introduction to the subject Only by understanding how nationalism came to be such an important social and political force can we understand its significance today In turn understanding Latin American nationalism helps us understand how Latin America shapes and is shaped by a rapidly globalizing world

Arab Nationalism B. Tibi, ed, trans Marion Farouk-Sluglett, Peter Sluglett, 1990-06-29 In this new edition Professor Tibi analyses the impact and function of nationalism and its contribution to social and political change in the Third World taking the rise of nationalism in the Middle East as a historical example He concentrates on the period after the First World War when many Arab intellectuals became disillusioned with Britain and France as a result of the occupation of their countries Professor Tibi's careful study of the writings and influence of Sati al Husri illustrates the connection between modern Arab nationalism and nineteenth century German Romantic nationalism which will be of particular interest to the English reader Professor Tibi concludes that while nationalism has played a necessary and important role in the movement for national independence in the Middle East it has since developed into an ideology which seems to obstruct further social and political emancipation This book will be of particular interest to historians and social scientists as well as to specialists in the area itself

Contemporary Nationalism in East Central Europe Paul Latawski, 2016-07-27 This book provides an introductory survey to contemporary nationalism in East Central Europe It examines the problem of nationalism in the region in the wake of the collapse of communism and attempts to place recent events within a historical context The book contains selected essays devoted to specific countries as well as those covering nationalism on a regional basis A further reading list is included to encourage a deeper probing into the problem of nationalism in East Central Europe

Nationalism in Europe and America Lloyd S. Kramer, 2011-08-01 Examining the history of nationalism's pervasive influence on modern politics and cultural identities Lloyd Kramer discusses how nationalist ideas gained emotional and cultural power after the revolutionary upheavals in the late eighteenth century Atlantic world Nationalism in Europe and America analyzes the multiple historical contexts and intellectual themes that have shaped modern nationalist cultures including the political claims for national sovereignty the emergence of nationalist narratives in historical writing and literature the fusion of nationalism and religion and the overlapping conceptions of gender families race and national identities Kramer emphasizes the similarities in American and European nationalist thought showing how European ideas about land history and national destiny flourished in the United States while American ideas about national independence and political rights reappeared among European nationalists and also influenced the rise of anticolonial nationalisms in twentieth century Asia and Africa By placing nationalist ideas and conflicts within the specific cross cultural

framework of Atlantic history and extending his analysis to the twentieth century world wars Kramer offers readers a thoughtful perspective on nationalism's enduring political and cultural importance throughout the modern world

Developmental and Cultural Nationalisms Radhika Desai, 2013-10-18 Premature announcements of the eclipse of nation states under globalization and empire stand exposed as the 21st century's first economic crisis underlines their continuing importance. A predominantly cultural study of nationalism was unable to resist the globalization thesis. Focusing on selected Asian cases, this book argues that nationalisms have always contained political economies as well as cultural politics. Placing nation states centrally in our understanding of modern capitalism, it challenges the globalization thesis. Rather than eclipse nations and nationalisms, they have undergone changes under the impact of neoliberalism since the 1970s. Classical 20th century developmental nationalisms emphasised citizenship, economy and future orientations. Later cultural nationalisms, Asian values, Hindutva, Confucianism or Nihonjiron stressed identity, culture and past orientations. Amid neoliberalism's flagrantly unequal political economy, not primarily concerned with material production or productivity, they glorified static conceptions of original cultures and identities, whether religious, ethnic or other, and justified inequality as cultural difference. In contrast to the popular mobilizations which powered developmental nationalisms, cultural nationalisms thrive on neoliberalism's disengagement and disenfranchisement, albeit partially compensated by the political baptism of newly enriched groups. Extremist wings of cultural nationalism in some countries were a function of this lack of popular support. This book was published as a special issue of *Third World Quarterly*.

Nationalism, Labour and Ethnicity 1870-1939 Angel Smith, Stefan Berger, 1999 This text looks at the inter relationships between labour nationalist movements and ethnicity during the Age of Imperialism. Two of the most debated contemporary issues focus on the decline of labour, particularly socialist ideologies, and the rise of nationalism. It is sometimes assumed that the demise of one led to the triumph of the other. It is also thought that labour as an internationalist movement underestimated and misunderstood the power of nationalism. This text links these historical phenomena and sets the debate in more accurate historical context.

The Cambridge History of Nationhood and Nationalism: Volume 2, Nationalism's Fields of Interaction Cathie Carmichael, Matthew D'Auria, Aviel Roshwald, 2023-11-09 This major new reference work with contributions from an international team of scholars provides a comprehensive account of ideas and practices of nationhood and nationalism from antiquity to the present. It considers both continuities and discontinuities, engaging critically and analytically with the scholarly literature in the field. In volume II, leading scholars in their fields explore the dynamics of nationhood and nationalism's interactions with a wide variety of cultural practices and social institutions, in addition to the phenomenon's crucial political dimensions. The relationships between imperialism and nationhood, nationalism and between major world religions and ethno-national identities are among the key themes explained and explored. The wide range of case studies from around the world brings a truly global comparative perspective to a field whose study was long constrained by Eurocentric assumptions.

Nationalism in Modern Europe Derek Hastings, 2023-01-12 Derek Hastings's *Nationalism in Modern Europe* is the essential guide to a potent political and cultural phenomenon that featured prominently across the modern era. With firm grounding in transnational and global contexts, the book traces the story of nationalism in Europe from the French Revolution to the present. Hastings reflects on various nationalist ideas and movements across Europe and always with a keen appreciation of other prevalent signifiers of belonging such as religion, race, class, and gender, which helps to inform and strengthen the analysis. The text shines a light on key historiographical trends and debates and includes 20 images, 14 maps, and a range of primary source excerpts which can serve to sharpen vital analytical skills which are crucial to the subject. New content and features for the second edition include a chapter examining religion, class, and gender as alternative markers of identity throughout the 19th century; an enhanced global dimension that covers transnational fascism and non-European comparatives; additional primary source excerpts and figures; historiographical updates throughout which account for recent research in the field.

Liberal Nationalisms James Kennedy, 2012-10-01 The early twentieth century witnessed the emergence of Scottish and Quebec nationalisms that were closely intertwined with liberal philosophies. The Young Scots Society and the Ligue nationaliste canadienne carried these liberal nationalist ideas. This book offers a comparative and historical examination of their ideas and politics, exploring the Young Scots as a movement as well as the ideas of key Nationalistes. James Kennedy argues that the growth of the Young Scots Society and the Ligue nationaliste canadienne was largely in response to changes within empire, state, and civil society. He suggests that the actions of the British Empire and the Canadian state not only prompted nationalist responses in Scotland and Quebec respectively but also shaped their liberal character. His comparative analysis provides insights that would not arise from a single case study of either movement while detailing the important roles that geopolitics, consociation, and federation and organized religion played in the creation of nationalist philosophies. The first ever comparative history of nationalism in Scotland and Quebec, *Liberal Nationalisms* is an insightful study of nascent political nationalisms and a major contribution to the scholarship of nationalist movements in the early twentieth century.
