Bureau of Mines, 1994 **The First of Men** John E. Ferling, 2010-02-04 Written by John Ferling one of America's leading historians of the Revolutionary era The First of Men offers an illuminating portrait of George Washington's life with emphasis on his military and political career Here is a riveting account that captures Washington in all his complexity recounting not only Washington's familiar sterling qualities courage industry ability to make difficult decisions ceaseless striving for self improvement love of his family and loyalty to friends but also his less well known character flaws Indeed as Ferling shows Washington had to overcome many negative traits as he matured into a leader The young Washington was accused of ingratitude and certain of his letters from this period read as if they were written by a pompous martinet and a whining petulant brat As commander in chief of the Continental Army he lost his temper more than once and indulged flatterers Aaron Burr found him a boring colorless person As president he often believed the worst about individual officials Ferling concludes that Washington's personality and temperament were those of a self centered and self absorbed man one who since youth had exhibited a fragile self esteem And yet he managed to realize virtually every grand design he ever conceived Ferling's Washington is driven fired by ambition envy and dreams of fame and fortune Yet his leadership and character galvanized the American Revolution probably no one else could have kept the war going until the master stroke at Yorktown and helped the fledgling nation take and survive its first unsteady steps This superb paperback makes available once again an unflinchingly honest and compelling biography of the father of our country **Poetry, edited by Ernest**
