Worlds Reginald Cline-Cole, Elsbeth Robson, 2016-02-17 West African Worlds provides a critical assessment of social economic and political change in Africa's most populous and arguably most externally focused region. With an emphasis on globalisation and modernisation, case studies and commentary are integrated throughout to highlight the concerns and issues of the region. Enriched by an impressive mix of West African voices, this text combines theory and application with policy and practice to address socio-economic change, the pursuit of livelihoods and development within West Africa. **The African Studies Companion** Hans Zell, 2021-11-15 Published in dual print and electronic formats, this is a new edition of a much acclaimed reference source that brings together a wide range of sources of information in the African studies field, covering both print and electronic sources. It evaluates the best online resources, the major general reference tools in print format, current bibliographies and indexing services, biographical, cartographic, statistical and economic resources, as well as film and video resources. Additionally, there are separate sections on African studies library collections and repositories throughout the world, a directory of over 250 African studies journals, listings of news sources, profiles of publishers active in the African studies field, dealers and distributors of African studies materials, African studies societies and associations, major African and international organizations, donor agencies and foundations, awards and prizes in African studies, electronic mailing lists and discussion forums, and more. *Displacing Human Rights* Adam Branch, 2011-08-22 Today, Western intervention is a ubiquitous feature of violent conflict in Africa. Humanitarian aid agencies, community peacebuilders, microcredit promoters, children's rights activists, the World Bank, the International Criminal Court, the U.S. military, and numerous others have involved themselves in African conflicts, all claiming to bring peace and human rights to situations where they are desperately needed. However, according to Adam Branch, Western intervention is not the solution to violence in Africa, but instead can be a major part of the problem, often undermining human rights and even prolonging war and intensifying anti-civilian violence. Based on an extended case study of Western intervention into northern Uganda's twenty-year civil war and drawing on Branch's own extensive research and human rights activism, this book lays bare the reductive understandings motivating Western intervention in Africa, the inadequate tools it insists on employing, its refusal to be accountable to African citizenries, and most important, its counterproductive consequences for peace, human rights, and justice. In short, Branch demonstrates how Western interventions undermine the efforts Africans themselves are undertaking to end violence in their own communities. The book does not end with critique, however. Motivated by a commitment to global justice, it proposes concrete changes for Western humanitarian peacebuilding and justice interventions, as well as a new normative framework for re-orienting the Western approach to violent conflict in Africa around a practice of genuine solidarity. A key strength of the book is its ability to analyse and reveal common patterns in seemingly disparate and complex empirical instances of counterproductive human rights interventions in Uganda. This book should be required reading for all those working on various themes in Africa today. *The Journal of Modern African Studies* This book provides a pessimistic but much needed

critique of the history of foreign intervention in Northern Uganda Responsible discussions of foreign policy must consider the ways in which great power politics can hurt people in the name of protection this book is an excellent place to start that discussion The Christian Science Monitor *Développement, inégalités, pauvretés* Nicola Maria Boccella, Andrea Billi, 2005 Tant au niveau des revenus que du développement économique les inégalités n'ont pas diminué dans le monde en ce début du troisième millénaire et cela malgré les interventions des gouvernements des ONG et des bailleurs de fonds internationaux On commettrait galement une grave erreur de diagnostic si l'on considérait la pauvreté et l'exclusion sociale comme des caractéristiques réservées aux pays en développement Les inégalités dans la répartition du revenu et dans l'accès aux droits existent galement dans les pays les plus riches Les essais regroupés dans cet ouvrage entendent procéder une étude aussi exhaustive que possible des rapports entre développement économique, égalité et pauvreté Cette analyse est conduite dans le cadre de trois grands domaines thématiques Le premier présente le cadre théorique de référence relatif aux interconnexions entre développement économique et inégalités Le deuxième est consacré à l'étude de la pauvreté et de l'exclusion sociale dans les régions et pays en développement Sahel Maroc Burkina Faso Nigeria Enfin le troisième thème porte sur l'analyse des inégalités et de la pauvreté dans les pays développés en particulier dans les zones urbaines de Rome Naples Munich Dublin aux fins d'une analyse comparative Dans l'essai introductif Growth and Inequality Theoretical Issues and Empirical Evidence sont examinées les interconnexions entre croissance économique et inégalités Les auteurs procèdent ainsi à une revue critique aussi vaste que minutieuse de la littérature en la matière Ils démontrent que l'examen des inégalités ne saurait être limité à la répartition du revenu mais qu'il faut également prendre en compte bien d'autres facteurs pour identifier les dimensions réelles du bien-être et des inégalités

The Roots of African Conflicts Alfred G. Nhema, Paul Tiyambe Zeleza, 2008 This work along with The Resolution of African Conflicts clearly demonstrates the efforts by a wide range of African scholars to explain the roots, routes, regimes and resolution of African conflicts and how to rebuild post conflict societies **Institutions and Investment in Sudan** Denu G. Berhanu, 2011 This book provides insights into the development of institutions during war and peace times in Sudan and presents an analysis of the impact of institutional variables on investment and economic growth The study combines a new institutional economics framework and a socioeconomic analysis of investment behavior with an analysis of the process of post conflict reconstruction and development in Sudan South Sudan The book contains a wealth of information for policymakers for the development aid community and for researchers based on the results of a cross country analysis of panel data for Sudan and the results of survey data on investment determinants in South Sudan An agenda for institutional reform is suggested for Sudan and South Sudan on the basis of the findings of the study It presents valuable discussions on policy relevant issues for Sudan and South Sudan and it also contains an agenda for economic cooperation between Sudan and independent South Sudan Series Institut für Weltwirtschaft und Internationales Management Vol 18 Living on the Boundaries Carol Camp Yeakey, 2012-05-18 From the first chapter to the last this immensely insightful anthology richly

details and informs us about the human condition from multidisciplinary perspectives about urban life in global contexts It examines the complex often controversial issues impacting those who live on the margins of society in our densely populated cities
