*The Role of the G8 in International Peace and Security* Risto

Penttilä, 2013-06-17 This Adelphi Paper is the first concise yet comprehensive analysis of the role of the G8 in international peace and security It argues that the G7 8 has a long and impressive history in the field of international security The G7 8 has for example spearheaded the introduction of low politics and soft security to the top table of great power diplomacy and

integrated Japan and later Russia into the realm of Western security discussions In questions of war and peace the G8 does not command the legitimacy of the UN Security Council but for the international community is a more acceptable vehicle than unilateral action As such the G8 can be seen as a not worthy second best option after the UN Security Council This Paper further argues that China should be admitted into the G8 first as an observer and later as a member There is also a strong argument for the European Union to have one seat at the G8 even if such a change does not seem realistic today The G8 bears great resemblance to the 19th century Concert of Europe Whether it will assume a similar role in the 21st century depends in the final analysis on whether the United States welcomes such a role for the G8
