**Dynamic of Ethnic Relations in Southeast Asia** Mohd Azizuddin Mohd Sani,Shamsuddin L. Taya,2010-04-16 Dr Mahathir Mohamad former Prime Minister of Malaysia said in the Far Eastern Economic Review 28 October 1996 The threat is from inside So we have to be armed so to speak Not with guns but with the necessary laws to make sure the country remains stable He implied that ethnic conflict and political instability are inevitable in a multi ethnic society unless protected by certain laws Ethnic conflict is like a time bomb The misuse of human rights for political ends and to exploit ethnic sentiments can spark ethnic conflict In theory the modern nation state must achieve pluralism in its project of nation building There are few nations in the world which consist of a single ethnic group Yet multi ethnicity also seems to be a serious challenge to any system of government especially in Southeast Asia as it adds possibly deep running cleavages to societies Some groups are marginalized in the course of nation building as a result of the nature of the relationship between nation and state Arjun Appadurai stated that the nation and the state have become one another s project groups try to capture states and their power while states try to monopolize about the nationhood There is always tension between the centre and the margin The centre often consists of one ethnic group and marginalised minority groups are denied their right to equality Sometimes horrible wars with thousands of victims commence as a consequence of such processes of ethnically framed nation building Therefore a democratic setting should be functionally superior that is in a better position to moderate the escalatory tendencies inherent in a multi ethnic setting thereby achieving less violence prone conflict management and its eventual resolution in Southeast Asia This book is intended for anyone interested in the subject of ethnic relations and conflicts especially politicians policy makers civil society activists academia and students of ethnic race studies and Southeast Asian politics *Trade and Poverty Reduction in the Asia-Pacific Region* Andrew L. **Disasters and Social Capital** Justin Vuthey, 2025-05-30. This book analyzes social capital and preparations for natural hazards in the Philippines. It emphasizes the importance of inequalities, contextualization, and scale, while also underlining the significance of historical and political contexts to better understand social dynamics. Social capital continues to be a debated concept, but it can be useful for thinking about how human societies interact with natural hazards. This book contributes to the growing scientific inquiries which have begun to address the connections between social capital and natural disasters. Chapters explore the links between these two fields of knowledge by analyzing the Filipino situation in general, as well as detailing a specific case study of a rural municipality in the Eastern Visayas region. The book's central argument is that economic inequality is detrimental to social capital, which then has negative repercussions on preparing for natural hazards. In an analysis at several geographical scales, Justin shows how inequality via social capital makes societies more at risk of having natural hazards turn into disasters. The book argues that a cautious use of the concept of social capital, which is cognizant of the historical and geographical complexities of the context it is applied to, has the potential to improve the way people collectively prevent hazards from turning into disasters. It is essential reading for students, scholars, disaster risk management practitioners, policymakers, and anyone seeking to understand the complexities of climate change, inequality, and crisis resilience.
