Kuwait Ragaei el Mallak, 1968 *Kuwait: Trade And Investment* Ragaei El Mallakh, 2019-03-04 Although small geographically Kuwait casts a disproportionately large shadow in the areas of international finance energy and trade It enjoys a capital surplus economy but is still a developing country and one of the fastest growing markets for goods and services Kuwait's drive toward economic development and self sustaining investment both at home and abroad arises from the knowledge that the nation's prosperity derives overwhelmingly from a single nonrenewable asset petroleum Professor El Mallakh delineates Kuwait's economic activities and potential and assesses the country's impact on the global economy Basing his work on two decades of research and writing on Kuwait and neighboring Gulf states and on interviews with Kuwaiti officials and financial and business leaders he presents a wealth of detailed and practical information little of which is readily accessible elsewhere He also analyzes the use of Kuwait's capital surplus funds with reference to the region to Europe and to the United States and looks at the country's priorities for future international investment and development projects *The Economy of Kuwait* M.W. Al-Ebraheem, 2016-04-14 A major result of the Second World War was the emergence of small states which vastly increased the membership of the international system While a number of small states existed before the war many of these had made no effort to participate actively in the system since then the doctrine of equality of states has been established in theory at least through their admission to the UN This book first published in 1984 deals with the factors which have contributed to the emergence of such a large number of small states the difficulties which they have experienced in achieving statehood and their struggle to gain political integration A precise analysis of the foreign policy and economic factors governing the activity of small states particularly that of Kuwait and the other Gulf states is presented here **The Making of Contemporary Kuwait** Mahjoob Zweiri, Sinem Cengiz, 2024-06-03 This book explores the contemporary history governance foreign policy political economy culture and society of Kuwait It highlights the dynamics of the country putting forward both an overview of each subject covered and new research findings It begins by providing a historical understanding of state formation and goes on to examine state structure including the ruling monarchy state legitimacy and the creation of the Constitution and the

National Assembly It considers foreign policy including the tools of diplomacy the state s regional and international approach and the factors that have formed and reformed Kuwait s strategic policy in the global arena It assesses the economy including rentierism the labour market both for locals and for migrants the class system and the process of Kuwaitization and it discusses Kuwaiti society and national identity as well as investigates issues of women civil society youth and the Bidoon minority Overall the book provides a full and detailed analysis of contemporary Kuwait and of the factors which are bringing about new developments Doing Business in the Middle East Pete W. Moore,2004-10-14 Is business the solution to the problems of the Middle East Some economists and policymakers argue that unleashing the Arab private sector is the key to sustainable growth and more liberal politics Pete Moore s book is the first to examine relations between state authority and elite business representation in the region By analysing the Kuwait and Jordan cases he considers why organised business in Kuwait has been able to coordinate policy reform with state officials while their Jordanian counterparts have generally failed The author concludes that unleashing the private sector alone is insufficient to change current political and economic arrangements and that successful economic adjustment requires successful political adjustment *Kuwait* ,1964

Yom,2015-12-01 Based on comparative historical analyses of Iran Jordan and Kuwait Sean L Yom examines the foreign interventions coalitional choices and state outcomes that made the political regimes of the modern Middle East A key text for foreign policy scholars From Resilience to Revolution shows how outside interference can corrupt the most basic choices of governance who to reward who to punish who to compensate and who to manipulate As colonial rule dissolved in the 1930s and 1950s Middle Eastern autocrats constructed new political states to solidify their reigns with varying results Why did equally ambitious authoritarians meet such unequal fates Yom ties the durability of Middle Eastern regimes to their geopolitical origins At the dawn of the postcolonial era many autocratic states had little support from their people and struggled to overcome widespread opposition When foreign powers intervened to bolster these regimes they unwittingly sabotaged the prospects for long term stability by discouraging leaders from reaching out to their people and bargaining for mass support early coalitional decisions that created repressive institutions and planted the seeds for future unrest Only when they were secluded from larger geopolitical machinations did Middle Eastern regimes come to grips with their weaknesses and build broader coalitions
