Economic Strategy Labour Party Hc:

Labour's Economic Policies 1974-1979 Michael J. Artis, 1991 *A neoliberal revolution?* Hugh Pemberton, James Freeman, Aled Davies, 2024-07-09 This book examines the Thatcher government's attempt to revolutionise Britain's pensions system in the 1980s and create a nation of risk-taking savers with an individual stake in capitalism. Drawing upon recently released archival records, it shows how the ideas motivating these reforms journeyed from the writings of neoliberal intellectuals into government and became the centrepiece of a plan to abolish significant parts of the UK's welfare state and replace these with privatised personal pensions. Revealing a government that veered between political caution and radicalism, the book explains why this revolution failed and charts the malign legacy left by the evolutionary changes that ministers salvaged from the wreckage of their reforms. The book contributes to understanding of policy change, Thatcherism and international neoliberalism by showing how major reforms to social security could reflect neoliberal thought and yet profoundly disappoint their architects.

Cognitive Rhetoric Sam Browse, 2018-10-15 This book sets out a framework for investigating audience responses to political discourse. It starts from the premise that audiences are active participants who bring their own background knowledge and political standpoint to the communicative event. To operationalise this perspective, the volume draws on concepts from classical rhetoric alongside contemporary research in cognitive stylistics and cognitive linguistics, including schema theory, Text World Theory, Cognitive Grammar and mind modelling, amongst others. It examines the role played by the speaker's identity, the arguments they make and the emotions of the audience in the often critical reception of political text and talk, using a diversity of examples to illustrate this three-dimensional approach, from political speeches, interviews and newspaper articles to more creative text types such as politicised rap, music, television, satire and filmic drama. The result of this wide-ranging application is a holistic and systematic account of the rhetorical and ideological effects of political discourse in reception.

The British left and the defence economy Keith Mc Loughlin, 2022-03-29 Forty years before COVID-19, socialists in Britain campaigned for workers to have the right to make socially useful products from hospital equipment, to sustain the NHS, to affordable heating systems for the impoverished elderly. This movement held one thing responsible above all else for the nation's problems: the burden of defence spending. In the middle of the Cold War, the left put a direct challenge to the defence industry, the Labour government and trade unions. The response it received revealed much about a military industrial state that prioritised the making and exporting of arms for political favour and profit. Looking at peace activism from the early 1970s to Labour's landslide defeat in the 1983 general election, this book examines the conflict over the cost of Britain's commitment to the Cold War and asserts that the wider left presented a comprehensive and implementable alternative to the stark choice between making weapons and joining the dole queue.

The London Underground Public Private Partnership 1997-2010 Stephen Glaister, 2025-01-09 This book provides an inside account of the intense battle between London Mayor Ken Livingstone, Chancellor Gordon Brown and Prime Minister

Tony Blair over control of the London Underground and the failed implementation of the UK's largest Private Finance Initiative and Public Private Partnership deal. Despite spending over 450 million on consultancy and five years of government effort, the project collapsed after just seven of its intended 30 years. Using documents released under confidentiality, the book details New Labour's persistence even as the plan fell apart under scrutiny. It reveals personal struggles, political spin, and character assassinations while analysing technical issues and expert predictions of failure. The book offers lessons on large scale public service procurement, comparing private and public ownership, efficient borrowing, consultant use, and the importance of scrutiny and accountability.

The Labour Party in Crisis Paul Whiteley, 2018-12-07. First published in 1983. This study draws upon empirical findings on party activists, members, and voters. It examines the origins and nature of Labour's crisis in the 1980s, showing how the split leading to the formation of the SDP was merely a manifestation of deeply rooted problems which went back many years. It argues that this crisis had three distinct but interrelated aspects: first, the ideological schism within the party which had grown in intensity over time; second, the electoral crisis which produced the worst electoral performance at the 1983 general election since 1918; and third, the membership crisis arising from the fact that the party had been losing more than 11,000 individual members per year on average since 1945. Using elite and mass surveys, the book demonstrates the link between these crises and Labour's policy performance in office, set against a background of rapid economic decline.

Parties, Elections, and Policy Reforms in Western Europe Kerstin Hamann, John Kelly, 2010-08-30. This book provides a comparative assessment of social pacts between governments, labor unions, and employer organizations in Western Europe. Using a dataset covering 16 European countries, as well as eight in-depth country case studies, the authors argue that governments' choice of social pacts or legislation is less influenced by economic problems but is strongly influenced by electoral competition.

Managing the Economy, Managing the People Jim Tomlinson, 2017-09-29. This study offers a distinctive new account of British economic life since the Second World War, focussing upon the ways in which successive governments, in seeking to manage the economy, have sought simultaneously to manage the people, to try and manage popular understanding of economic issues. In doing so, governments have sought not only to shape expectations for electoral purposes but to construct broader narratives about how the economy should be understood. The starting point of this work is to ask why these goals have been focussed upon and differentially over time, how they have been constructed to appeal to the population, and insofar as this can be assessed, how far the population has accepted these narratives. The first half of the book analyses the development of the major narratives from the 1940s onwards, addressing the notion of austerity and its particular meaning in the 1940s, the rise of a narrative of economic decline from the late 1950s, and the subsequent attempts to modernize the economy, the attempts to roll back the state from the 1970s, the impact of ideas of globalization in the 1990s, and finally the way the crisis of 2008-9 onwards was constructed as a problem of debts and deficits. The second part of the book focuses on four key issues in attempts to manage the people.

productivity the balance of payments inflation and unemployment It shows how in each case governments sought to get the populace to understand these issues in a particular light and shaped strategies to that end **The Treasury and Social Policy** N. Deakin,R. Parry,2000-01-28 What is the power of the Treasury in controlling the policies and development of the welfare state Drawing on in depth interviews with officials of the Treasury and the spending departments this book traces the developing role of the Treasury in setting social policy especially under Gordon Brown s chancellorship **The Making of Eurosceptic Britain** Chris Gifford,2017-11-30 Offering a radical interpretation of a major political issue Chris Gifford moves beyond existing narrative and institutional accounts of Britain and Europe to present a theoretically coherent and unique perspective on this troubled relationship He acknowledges that populist Euroscepticism has become fundamental to constituting Britain and Britishness in a post imperial context despite membership of the European Union Organized chronologically this interesting study provides lucid overviews of key periods in the British European Union relationship It combines political economy with political identity to illustrate how forms of Euroscepticism have become embedded across the British political class and culture The book focuses not on outlining history or the impact of British integration on British institutions but on the ways in which elite behaviour towards European integration should be analyzed as practices and discourses that use Euroscepticism to construct Britain and distinctive British political projects **Labour's European Dilemmas** R. Broad,2001-09-12 For thirty years the Labour Party was wracked by conflict over membership of the European Community swinging back and forth pro and anti when in and out of office It was a conflict that helped keep the party in opposition for eighteen years until it abandoned its socialist basis under New Labour The author as journalist and European Union official knew many of the major and minor players and brings this experience to bear **Labour's Economic Strategy** Labour Party (Great Britain),1969 **Parliamentary Debates** New Zealand. Parliament,1978-06-14 **No solution** Stuart C. Aveyard,2016-10-22 Utilising a wide range of archival correspondence and diaries this monograph reconstructs the 1974 79 Labour government s policies in Northern Ireland It covers the collapse of power sharing in May 1974 the secret dialogue with the Provisional IRA during the 1975 ceasefire the acquiescence of Labour ministers in continuing indefinite direct rule from Westminster efforts to mitigate conflict through industrial investment a major shift in security policy emphasizing the police over the army the adaptation of republicans to the threat of these new measures and their own adoption of a Long War strategy In so doing it sheds light on the challenges faced by British ministers civil servants soldiers and policemen and the reasons why the conflict lasted so long It will be a key text for researchers and students of both British and Northern Irish politics **Masters of the Universe** Daniel Stedman Jones,2014-07-21 How radical free market ideas achieved mainstream dominance in postwar America and Britain Based on archival research and interviews with leading participants in the movement Masters of the Universe traces the ascendancy of neoliberalism from the academy of interwar Europe to supremacy under Reagan and Thatcher and in the decades since Daniel Stedman Jones argues that

there was nothing inevitable about the victory of free market politics Far from being the story of the simple triumph of right wing ideas the neoliberal breakthrough was contingent on the economic crises of the 1970s and the acceptance of the need for new policies by the political left This edition includes a new foreword in which the author addresses the relationship between intellectual history and the history of politics and policy Fascinating important and timely this is a book for anyone who wants to understand the history behind the Anglo American love affair with the free market as well as the origins of the current economic crisis

Disrupting the Speculative City Amy Horton, Joe Penny, 2024-09-24 In 2011 police violence triggered an uprising in Tottenham that laid bare decades of neglect and state violence against the area's racialised communities In its aftermath local leaders and corporate developers devised an aggressive redevelopment agenda that would have demolished the homes workspaces and communities of thousands of council tenants private renters and traders Their plan was to transform Tottenham and surrounding areas from a diverse working class place to a space for wealthy investors residents and consumers Available as a free open access download and in print *Disrupting the Speculative City* tells the story of how a community coalition defeated one of the most ambitious programmes of state led gentrification in London Known as the Haringey Development Vehicle HDV it would have been executed through an undemocratic and speculative joint venture between the local council and the notorious international developer Lendlease Thanks to the political creativity tactical nous and extraordinary commitment of ordinary people the HDV was scrapped by the local council in 2018 Drawing on the accounts of those at the heart of the struggle and analysing crucial developments in property investment local statecraft and grassroots organising this book explores a significant and inspirational success for campaigners in London where social cleansing has become the default outcome of redevelopment Praise for *Disrupting the Speculative City* This book successfully combines rigorous research and political clarity Through their chronicle of an important urban struggle in North London the authors speak to broader issues about power politics and development The book will be of interest to students and scholars of urban planning urban geography and social movements as well as to anyone trying to understand the contradictions of urbanism today David Madden LSE This important book narrates how a grassroots campaign successfully fought off one of the most appalling mega gentrification schemes in London It makes clear that the fight was not simply political Momentum versus New Labour in Haringey but a coming together of a broad coalition of people who used practices and tactics that will be of real value in other anti gentrification struggles locally nationally and globally Loretta Lees Boston University *Disrupting the Speculative City* represents an inspirational major contribution to urban regeneration scholarship in relation to understanding how and why grassroots activists were able to successfully mount the StopHDV campaign in north London Paul Watt LSE

John Smith Mark Stuart, 2005 When John Smith died in May 1994 a nation mourned for an immensely popular politician who would have gone on to become a great Labour Prime Minister Now over ten years later his family have granted Mark Stuart their full cooperation and unlimited access to John Smith's private papers to write the definitive

authorised account of his life Stuart tells of Smith's strict Presbyterian upbringing and his youthful rebellion at Glasgow university where he started his lifelong friendship with Donald Dewar through his stellar career at the Scottish bar and onto his political journey to become the most popular Labour leader of modern times But the biography also reveals a darker side to personality his heavy drinking and explosive temper which threatened to ruin his marriage Peppered with insights and anecdotes culled from over three years of research and interviews Mark Stuart has written the most important political biography of 2005
