Developing a dialogue between historians and economists is a crucially important task if we are to improve our understanding of the past Economists have the tools to be able to provide in depth analysis the historians have the meat and substance which is necessary and a blending of the two is terribly important Economics and the Historian is a valuable resource for this interchange Nobel Laureate Douglass C North author of Institutions Institutional Change and Economic Performance This is a superlative collection of essays for historians who would like to learn about economic history but lack much formal training in mathematics and economic theory The essays present fundamental concepts of economic analysis in a clear and concise manner and they show how these concepts can be applied to a variety of historical problems Ted W Margadant author of Urban Rivalries in the French Revolution This book is must reading for historians who want to know what there is in economics that might be useful for their fields Nobel Laureate Robert W Fogel author of Time on the Cross Introduces historians and history students to the concepts models and logic of economic theory and shows how economic analysis can be applied to solving historical puzzles and problems Each of the essays illuminates a different subfield of economics with numerous examples drawn from a quarter century of cliometrics This book will make basic tools of economic historical analysis accessible and at times even entertaining to students and colleagues who have little or no background in economics And it is guaranteed to enliven any course or seminar as it did mine John H Coatsworth author of Central America and the United States **Statistical Reference Index** ,1983 *The Countries of the Former Soviet Union at the Turn of the Twenty-First Century* Ian Jeffries,2004-01-08 Offering a unique level of coverage this book provides a comprehensive survey of the political and economic development of the countries of the former Soviet Union from the mid 1990s onwards
