Economics Of The Modern Construction Sector:

The Economics of the Modern Construction Sector G. Ive, S. Gruneberg, 2000-07-31 This book will be of interest to built environment professionals and to students of the economics and management of the built environment. It shows the value of integrating ideas and data about the production of the built environment as an industrial process with theories and data about the demand for construction. The approach taken is institutional and post Keynesian and illuminates an important and distinctive sector of the economy embracing design construction and property industries. This book offers some new and important perspectives for research and teaching in construction economics and management.

The Economics of the Modern Construction Firm S. Gruneberg, Graham J. Ive, 2000-08-08 This is a book about the whole diverse range of firms that are found in the construction sector about their decision making and the economic environments in which they operate. The authors aim to provide a new and coherent perspective on these firms and the choices they have to make both for their managers and for all who have a stake in these firms and their industry. This book offers some new and important perspectives for research and teaching about construction firms.

Modern Construction Economics Gerard de Valence, 2010-11-10 Modern construction economics has a wider focus than was previously the case with stronger links to mainstream economics reflecting increasing interest in a range of theoretical issues. This book brings together the essential reviews of this trend and pushes towards the development of a comprehensive theoretical framework for construction economics.

Economics for the Modern Built Environment Les Ruddock, 2008-10-10 Recent decades have seen a major social and economic changes across the developed world and consequent changes in the construction and property industries. The discipline of construction economics needs to respond to this. For instance the importance of sustainable development has become recognised as has the need to increasingly master the medium.
