Bob Coats,2005-08-17 Coats has made an outstanding contribution to the history of economic thought economic methodology and the sociology of economics This unique volume represents a substantial part of his work on the sociology and professionalization of economics **Information Sources of Political Science** Stephen W. Green,Douglas J. Ernest,2005-07-15 A thoroughly revised and updated new edition of the world s leading comprehensive bibliography of American and international politics The eagerly anticipated new edition of the widely acclaimed Information Sources of Political Science is the most comprehensive English language political bibliography available offering the surest way for students and researchers to get straight to the information they need Like no other volume it provides a fully rounded view of the field both in the United States and internationally including relevant works in history economics sociology and education Its 2 500 entries cover a wide variety of source types indexing and abstracting services major bibliographical tools encyclopedias dictionaries handbooks directories statistical compilations and more In addition this edition is the first to feature substantial coverage of electronic resources both databases and Internet sites Each source receives its own annotation with entries grouped in categories to bring together like works for easy comparison This work is a cornerstone reference for academic and public libraries **Sociology and Its Publics** Terence C. Halliday,Morris Janowitz,1992-10-15 Sociology faces troubling developments as it enters its second century in the United States A loss of theoretical coherence and a sense of disciplinary fragmentation a decline in the quality of its recruits the cooptation of its clients a muted public voice and sinking prestige in governmental circles these are only a few of the trends signalling a need for renewed debate about how sociology is organized In this volume some of the most authoritative voices in the field confront these conditions offering a variety of perspectives as they challenge sociologists to self examination *A Guide to Econometrics* Peter Kennedy,2008-02-19 This is the perfect and essential supplement for all econometrics classes from a rigorous first undergraduate course to a first master s to a PhD course Explains what is going on in textbooks full of proofs and formulas Offers intuition skepticism insights humor and practical advice dos and don ts Contains new chapters that cover instrumental variables and computational considerations Includes additional information on GMM nonparametrics and an introduction to wavelets *An Introduction to Time Series Analysis and Forecasting* Robert A. Yaffee,Monnie McGee,2000-04-27 A time series is a set of repeated measurements of the same phenomenon taken sequentially over time Capturing the data creates a time series memory to document correlations or lack and to help them make decisions based on this data **Guide to American Directories** ,1994 *Inferring bank-to-bank competition from dynamic time series analysis of price correlations* Eduardo Ribeiro,Kamaiaji Castor,2022-01-29 Inferring bank to bank rivalry and competition generally requires the estimation of a full demand model with high data requirements unavailable to most researchers We

suggest dynamic time series analysis of price correlations to infer about bank to bank competition taking into account the well known criticisms to price correlations for delimiting relevant markets The method is applied for credit markets in Brazil where bank monthly loan interest rates time series are available We conclude that there is little rivalry between large banks in most of the credit markets studied **Modern Time Series Analysis in Forest Products Markets** Jens Abildtrup, F. Helles, Per Holten-Andersen, Jakob Fromholt Larsen, Bo Jellesmark Thorsen, 2012-12-06 This volume comprises fifteen papers exploring the consequences of applying modern time series methods particularly co integrated time series methods for the analysis of forest economics problems The methods represent the forefront of econometrics in this area and the volume is the first of its kind An introductory paper explains the econometrics of unit root processes Much of what follows in the other papers depends upon only a few of the ideas presented in the introduction The volume includes tests of e g the Law of One Price land valuation models demand and supply models Granger causality and forecast models The reader will learn a great deal about forest economies particularly in Northern Europe and about the practical use of modern time series methods The methods presented are applicable to other fields of economics The volume is aimed at researchers in applied economics and as a supplement to advanced theoretical textbooks mainly in Natural Resource Economics **Handbook on Social Structure of Accumulation Theory** McDonough, Terrence, McMahon, Cian, Kotz, David M., 2021-12-07 This pioneering Handbook offers a state of the art exploration of the social structure of accumulation theory a leading theory of stages of capitalism expertly summarising its development to date It breaks new ground in several areas including econometric evidence for the theory and developing institutional analyses of technology and the environment **Agricultural Libraries Information Notes**, 1986 **Handbook on the Political Economy of Social Policy** Bent Greve, Amílcar Moreira, Minna van Gerven, 2024-05-02 Research in social policy has been greatly influenced by the emergence of modern political economy in the late 1970s The Handbook on the Political Economy of Social Policy offers a systematic yet comprehensive framework for understanding how concepts theoretical standpoints and methodological approaches stemming from political economy have been applied to the study of social policies and models of welfare provision The authors also signpost current developments and discuss their likely impact on future research **Writer's Directory** Saint Martins Press Inc, 1994 **Library Journal** Melvil Dewey, Richard Rogers Bowker, Charles Ammi Cutter, Bertine Emma Weston, Karl Brown, Helen E. Wessells, 1911 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **Library Journal**, 1917 **Advances in Quantitative Analysis of Finance and Accounting (New Series) 2012 Vol 10** Cheng F. Lee, Alice C. Lee, 2012-12-01 Advances in Quantitative Analysis of Finance and Accounting New Series is an annual publication designed to disseminate developments in the quantitative analysis of finance and accounting The publication is a forum for statistical and quantitative analyses of issues in finance and accounting as well as applications of quantitative methods to problems in

financial management financial accounting and business management The objective is to promote interaction between academic research in finance and accounting and applied research in the financial community and the accounting profession

Methods for Applied Macroeconomic Research Fabio Canova, 2007-02-11 Brings together dynamic equilibrium theory data analysis and advanced econometric and computational methods to provide a comprehensive set of techniques for use by academic economists as well as professional macroeconomists in various fields This book starts from a class of DSGE models and describes methods needed to estimate their parameters

Time Series Techniques for Economists Terence C. Mills, 1990 The application of time series techniques in economics has become increasingly important both for forecasting purposes and in the empirical analysis of time series in general In this book Terence Mills not only brings together recent research at the frontiers of the subject but also analyses the areas of most importance to applied economics It is an up to date text which extends the basic techniques of analysis to cover the development of methods that can be used to analyse a wide range of economic problems The book analyses three basic areas of time series analysis univariate models multivariate models and non linear models In each case the basic theory is outlined and then extended to cover recent developments Particular emphasis is placed on applications of the theory to important areas of applied economics and on the computer software and programs needed to implement the techniques This book clearly distinguishes itself from its competitors by emphasising the techniques of time series modelling rather than technical aspects such as estimation and by the breadth of the models considered It features many detailed real world examples using a wide range of actual time series It will be useful to econometricians and specialists in forecasting and finance and accessible to most practitioners in economics and the allied professions

Nonlinear Time Series Analysis of Business Cycles C. Milas, P. A. Rothman, Dick van Dijk, David E. Wildasin, 2006-02-08 This volume of Contributions to Economic Analysis addresses a number of important questions in the field of business cycles including How should business cycles be dated and measured What is the response of output and employment to oil price and monetary shocks And is the business cycle asymmetric and does it matter

The SAGE Handbook of Regression Analysis and Causal Inference Henning Best, Christof Wolf, 2013-12-20 The editors of the new SAGE Handbook of Regression Analysis and Causal Inference have assembled a wide ranging high quality and timely collection of articles on topics of central importance to quantitative social research many written by leaders in the field Everyone engaged in statistical analysis of social science data will find something of interest in this book John Fox Professor Department of Sociology McMaster University The authors do a great job in explaining the various statistical methods in a clear and simple way focussing on fundamental understanding interpretation of results and practical application yet being precise in their exposition Ben Jann Executive Director Institute of Sociology University of Bern Best and Wolf have put together a powerful collection especially valuable in its separate discussions of uses for both cross sectional and panel data analysis Tom Smith Senior Fellow NORC University of Chicago Edited and written by a team of leading international social scientists this

Handbook provides a comprehensive introduction to multivariate methods The Handbook focuses on regression analysis of cross sectional and longitudinal data with an emphasis on causal analysis thereby covering a large number of different techniques including selection models complex samples and regression discontinuities Each Part starts with a non mathematical introduction to the method covered in that section giving readers a basic knowledge of the method s logic scope and unique features Next the mathematical and statistical basis of each method is presented along with advanced aspects Using real world data from the European Social Survey ESS and the Socio Economic Panel GSOEP the book provides a comprehensive discussion of each method s application making this an ideal text for PhD students and researchers embarking on their own data analysis
