The economic of pastoralism: a case study of Sub-Saharan Africa ,1978 **Studies in the Economic History of Southern Africa** Z.A. Konczacki,Jane L. Parpart,Timothy M. Shaw,2016-04-15 First Published in 1990 Routledge is an imprint of Taylor Francis an informa company *Pastoralist Perspectives in Nigeria* Jerome O. Gefu,1992 The Pastoral Continuum Paul Spencer,1998-01-29 Paul Spencer presents the definitive study of the ways of life of the cattle herding peoples of East Africa drawing on many years of research This region has offered a prime example of a traditional culture resisting the inevitability of change it provides the best known and most extensive instance both of cattle pastoralist society and of social organization based primarily on age Pastoral peoples were once dominant in the East African interior but development of the market economy has progressively polarized the region and forced them into the most marginal drought ridden areas in this ecological trap they have become a peripheral underclass The Pastoral Continuum examines the richness and resilience of their cultures and illuminates the role of indigenous practices and institutions in adaptation and survival The pastoralists systems of age organization in particular are notable for their resilience it is demonstrated that these are bound up with problems of growth and succession in family enterprises and that marriage is a critical link in the web of alliance that governs the problematic relations between old and young Spencer s exploration of the development of the pastoralist phenomenon yields a unique view of its place in the modern world and its prospects for the future This landmark work by a leading authority will be of lasting value to any reader interested in traditional social systems of this kind

Economics of Ecological Resources Charles Perrings,1997-01-01 Perrings book is a well edited and presented integrated work based upon nine of his articles and book chapters published between 1989 and 1995 Clive L Spash Environmental Values Economics of Ecological Resources presents new or recently published work on ecological economies sustainability poverty resource degradation and decision making under uncertainty The book explores the allocation of resources in jointly determined ecological economic systems An introductory chapter examines the work of other major contributors to the field of ecological economics and introduces Professor Perrings s work and the material in this volume The first of three parts is concerned with the dynamics of joint systems and with the implications for the control and conservation of ecological resources The second part focuses on the conditioning effect of the economic environment on private decisions in low income resource dependent economies The final part considers the way that decision makers handle the uncertainty that is an integral feature of the evolution of the ecological economic system **Pastoralism in the New Millenium** Food and Agriculture Organization of the United Nations,2001-01-01 Pastoralism refers to the type of farming

system which uses extensive grazing on grasslands for livestock production This type of farming covers 25 per cent of the world s land area and supports 20 million households It makes substantial contributions to the economies of developing countries although agricultural encroachment conflict and drought continue to erode this way of life This publication considers key policy issues and trends involved in attempts to improve the livelihoods of pastoralist families and communities

Somalia, a Country Study Harold D. Nelson,1982 General study on Somalia covers history revolutionary social change physical geography demographic aspects social structure Islamic religious practice education refugees economy agriculture trade government legal system politics international relations defence etc Bibliography glossary maps photographs statistical tables Pastoralism and Climate Change in East Africa Zebhe Yanda,Gasper Mung'ong'o,2016-12-29 Pastoralism and Climate Change in East Africa provides systematic and robust empirical investigations on the impact of climate change on pastoral production systems as well as participating in the ongoing debate over the efficacy of traditional pastoralism This book is an initial product of the Project Building Knowledge to Support Climate Change Adaptation for Pastoralist Communities in East Africa implemented by the Centre for Climate Change Studies of the University of Dar es Salaam with support from the Open Society Initiative for Eastern Africa Traditional pastoralism has proved to be a resilient and unique system of adaptations in a dynamic process of unpredictable climatic variability and continuous human interactions with the natural environment in dryland ecosystems Pastoral adaptations and climate induced innovative coping mechanisms have strategically been embedded in the indigenous social structures and resource management value systems Pastoral livelihoods have nevertheless become increasingly vulnerable to climate change impacts as a result of prolonged marginalization and harmful external interventions The negative effect of global climate change has been an added dimension to the already prevailing crisis in the pastoral livelihood system which is substantially driven by non climatic factors of internal and external pressures of change such as population growth bad governance and shrinking rangelands lost to competing activities **A**

Select Bibliography On Economic Development John P. Powelson,2019-05-20 This bibliography of more than 2 000 titles contains both books and journal articles primarily those published since 1970 Most of the entries are annotated The material is classified according to forty eight categories and there is also a list of relevant titles for each major country in Africa Asia and Latin America

A Survey of Agricultural Economics Literature Lee R. Martin,1977 **Change and Development in Nomadic and Pastoral Societies** ,2022-10-17 **Human Ecology as Human Behavior** John W. Bennett,2017-07-05 Human interaction with the natural environment has a dual character By turning increasing quantities of natural substances into physical resources human beings might be said to have freed themselves from the constraints of low technology survival pressures However the process has generated a new dependence on nature in the form of complex socionatural systems as Bennett calls them in which human society and behavior are so interlocked with the management of the environment that small changes in the systems can lead to disaster Bennett s essays cover a wide range from the

philosophy of environmentalism to the ecology of economic development from the human impact on semi arid lands to the ecology of Japanese forest management This expanded paperback edition includes a new chapter on the role of anthropology in economic development Bennett s essays exhibit an underlying pessimism if human behavior toward the physical environment is the distinctive cause of environmental abuse then reform of current management practices offers only temporary relief that is conservationism like democracy must be continually reaffirmed Clearly presented and free of jargon Human Ecology as Human Behavior will be of interest to anthropologists economists and environmentalists

The State and Rural Transformation in Northern Somalia, 1884-1986 Abdi Ismail Samatar, 1989 Scandinavia s most famous painter the Norwegian Edvard Munch 1863 1944 is probably best known for his painting The Scream a universally recognized icon of terror and despair A version was stolen from the Munch Museum in Oslo Norway in August 2004 and has not yet been recovered But Munch considered himself a writer as well as a painter Munch began painting as a teenager and in his young adulthood studied and worked in Paris and Berlin where he evolved a highly personal style in paintings and works on paper And in diaries that he kept for decades he also experimented with reminiscence fiction prose

portraits philosophical speculations and surrealism Known as an artist who captured both the ecstasies and the hellish depths of the human condition Munch conveys these emotions in his diaries but also reveals other facets of his personality in remarks and stories that are alternately droll compassionate romantic and cerebral This English translation of Edvard Munch's private diaries the most extensive edition to appear in any language captures the eloquent lyricism of the original Norwegian text The journal entries in this volume span the period from the 1880s when Munch was in his twenties until the 1930s reflecting the changes in his life and his work The book is illustrated with fifteen of Munch's drawings many of them rarely seen before While these diaries have been excerpted before no translation has captured the real passion and poetry of Munch's voice This is a translation that lets Munch speak for himself and evokes the primal passion of his diaries J Gill Holland's exceptional work adds a whole new level to our understanding of the artist and the depth of his scream LTC Paper ,1986
