Economics , **Natural Resource Booms in the Modern Era** Mr. Andrew M. Warner, 2015-11-12 The global boom in hydrocarbon metal and mineral prices since the year 2000 created huge economic rents rents which once invested were widely expected to promote productivity growth in other parts of the booming economies creating a lasting legacy of the boom years This paper asks whether this has happened To properly address this question the empirical strategy must look behind the veil of the booming sector because that by definition will boom in a boom So the paper considers new data on GDP per person outside of the resource sector Despite having vast sums to invest GDP growth per capita outside of the booming sectors appears on average to have been no faster during the boom years than before The paper finds no country in which non resource growth per person has been statistically significantly higher during the boom years In some

Gulf states oil rents have financed a migration facilitated economic expansion with small or negative productivity gains Overall there is little evidence the booms have left behind the anticipated productivity transformation in the domestic economies It appears that current policies are overall proving insufficient to spur lasting development outside resource intensive sectors *Economics, 12e* David Begg, Gianluigi Vernasca, 2019-12-11 Economics 12e

The Evolution of Economic Development in Africa Francis K. Mburo, 2021-07-11 Within the theoretical framework of the trade growth and structural transformation growth nexuses the book examines the evolution of African goods and service trade in terms of value and share of global commerce relative to other regions during the period 1948 2017 It also identifies and discusses discernible changes in the composition and structure of African exports and imports between 1995 and 2015 and their implications for economic development in Africa The study attributes Africa's laggard trade performance during the period primarily to sub optimal macroeconomic policies and lack of bold export development policies and initiatives among other factors It also offers an incisive discussion of several inhibitions to the structural transformation of African exports and imports including lack of finance globalization tariff and non tariff measures in global markets The discussion of the evolution of African trade during the period 1948 2017 based on statistics and publications of international organizations including the UNCTAD the World Bank and the African Development Bank among others is the first of its kind in terms of scope and depth of review of African trade The analyses of cross border trade during 1948 2017 and their implications for Africa's economic development prospects constitute a useful reference material for academics and students of African and development studies and African and international policymakers *First Principles of Economics* Richard G. What's Wrong with Keynesian Economic Theory? Steven

Kates,2016-08-26 Possibly the strangest phenomenon in all of economics is the absence of a long tradition of criticism focused on Keynesian economic theory Keynesian demand management has been at the centre of some of the worst economic outcomes in history from the great stagflation of the 1970s to the lost decade and more in Japan following the expenditure program of the 1990s And once again following the Global Financial Crisis it is incontrovertible that no stimulus program in any part of the world has been a success each one having been abandoned as conditions deteriorated under the weight of public sector spending This book brings together some of the most vocal critics of Keynesian economics Each author attempts to explain what is wrong with Keynesian theory in ways that can be understood by those seeking guidance on where to turn for a more accurate explanation of the business cycle and on what to do when recessions occur *Post-War Business Planners in the United States, 1939-48* Charlie Whitham,2016-10-20 During the Second World War several independent business organizations in the US devoted considerable energy to formulating and advocating social and economic policy options for the US government for implementation after the war This planning community of far sighted businessmen joined with academics and government officials in a nationwide endeavor to ensure that the colossal levels of productivity achieved by the US during wartime continued into the peace At its core this effort was part of a wider struggle between liberals moderates and conservatives over determining the economic and social responsibilities of government in the new post war order In this book Charlie Whitham draws on an abundance of unpublished primary material from private and public archives that includes the minutes memoranda policy statements and research studies of the major post war business planning organisations on a wide range of topics including monetary policy demobilization labor policy international trade and foreign affairs This is the untold story of how the post war business planners of all hues helped shape the moderate consensus which prevailed after 1945 over a permanent but limited government responsibility for fiscal welfare and labor affairs advanced American interests overseas and established The Economic Experience Charles A. Holt, Erica Sprott,2025-07-29 An innovative introduction to economic behavior that uses interactive experiments to promote experience based discovery This book presents a unique active learning approach to economic thinking providing a behavioral perspective on basic economic concepts ranging from trust to trade Each chapter features a classroom experiment where students engage directly with the material as market participants and chapters come with warm up exercises quizzes and incisive summaries The Economic Experience empowers students to develop insights into essential economic principles and goes beyond merely documenting behavioral anomalies by showing students how to navigate and anticipate them through hands on learning and team building Encourages discovery of key behavioral insights with interactive class simulations Provides a Socratic structure through lab reports for interpreting and applying lessons from experiment results while interacting with fellow students Includes What Economists Do sections that highlight key applications and policy issues Covers standard topics such as gains from trade marginal analysis and the resilience of competitive markets Enables students to experience the negative effects of market

imperfections related to monopoly power non price rent seeking corruption congestion and inadequate incentives for the provision of public goods Introduces notions of risk and strategic behavior in games and auctions Explains foundational macroeconomic concepts such as financial markets and the role of money while addressing behavioral issues like bank runs and asset market price bubbles that may arise in a macroeconomic setting Is supported by a free website that instructors can use to set up classroom experiments online *Mark Twain National Forest (N.F.), Hardrock Mineral Leasing* ,1988
