*Ekphrasis in American Poetry* Sandra Lee Kleppe, 2015-10-19 Ekphrasis in American Poetry The Colonial Period to the 21st Century provides a sample of the chronological range and stylistic variety of ekphrastic poetry or poetry that engages in various ways with different types of visual art including pictographs paintings moving panoramas daguerreotypes photographs landscape and more The volume shows how ekphrasis has been a part of American poetry from its inception and that as many American men as women have produced work in this genre The book opens with an overview chapter followed by an examination of American ekphrastic poems during the formative Colonial period where Europe Africa and Indigenous America met in encounters that are depicted in art and literature It closes with two chapters on Native American poetry that consider how American landscapes serve as ekphrastic prompts for personal and collective experiences In between are contributions on men and women poets and artists who have engaged with ekphrasis in a variety of ways from different periods As such American ekphrasis emerges as a genre that has implications far beyond the Eurocentric versions of the canon that have hitherto been discussed in the critical literature on the topic

**In the Frame** Jane Hedley, Nick Halpern, Willard Spiegelman, 2009 The subject of *In the Frame* is poetic ekphrasis poems whose starting point or source of inspiration is a work of visual art The authors of these sixteen essays several of whom are poets as well as critics have a twofold purpose calling attention to the contribution women poets have made to this important genre of poetic writing and rethinking ekphrastic poetry's motives and purposes From Marianne Moore and Elizabeth Bishop to Mary Jo Salter C D Wright and Susan Wheeler many of our best women poets have done important work in this genre and when they describe confront or speak for an image that is itself wordless their motives are not only formal but aesthetic Their poems also raise important questions from a perspective that is often but not always gender inflected about how art is made and displayed experienced and valued celebrated and commodified Jane Hedley is K Laurence Stapleton Professor of English at Bryn Mawr College Willard Spiegelman is the Hughes Professor of English at Southern Methodist University and editor in chief of the Southwest Review Nick Halpern is an associate professor in the English Department at North Carolina State University

*Literary Realism and the Ekphrastic Tradition* Mack Smith, 2010-11-01 *Literary Realism and the Ekphrastic Tradition* examines representative texts and the theories of realism upon which they are based It studies the foundations of these theories in the philosophies of language contemporaneous with them Beginning with Adamicism Mack Smith looks at the way humanist rationalist empiricist Kantian positivist and poststructuralist theories of language are textually dramatized He considers the cultural and personal influences that affect historical notions of realism and reality He also demonstrates the rhetorical basis of realism by considering a mimetic device used by novelists in rendering a faithful version of reality ekphrasis the narrative description of a work of art Smith seeks a middle ground between the extremes of theory and interpretation discourse and reality and textualism and history thus making an important contribution to the revaluation of

literary studies      *Museum of Words* James A. W. Heffernan, 2004-04 Ekphrasis is the art of describing works of art the verbal representation of visual representation Profoundly ambivalent ekphrastic poetry celebrates the power of the silent image even as it tries to circumscribe that power with the authority of the word Over the ages its practitioners have created a museum of words about real and imaginary paintings and sculptures In the first book ever to explore this museum James Heffernan argues that ekphrasis stages a battle for mastery between the image and the word Moving from the epics of Homer Virgil and Dante to contemporary American poetry this book treats the history of struggle between rival systems of representation Readable and well illustrated this study of how poets have represented painting and sculpture is a major contribution to our understanding of the relation between the arts      **Poets on Paintings** Robert D. Denham, 2010-03-10 Ekphrasis the description of pictorial art in words is the subject of this bibliography More specifically some 2500 poems on paintings are catalogued by type of publication in which they appear and by poet Also included are 2000 entries on the secondary literature of ekphrasis including works on sculpture music photography film and mixed media      **A Poetry Pedagogy for Teachers** Maya Pindyck, Ruth Vinz, Diana Liu, Ashlynn Wittchow, 2022-08-25 A Poetry Pedagogy for Teachers generates imaginative encounters with poetry and invites educators to practice a range of poetry exercises in order to inform instructional approaches to reading and writing Guided by pedagogical principles prompted by their readings of Wallace Stevens *Thirteen Ways of Looking at a Blackbird* Maya Pindyck and Ruth Vinz provide critical discussion of prominent literacy practices in secondary classrooms and offer alternative approaches to encountering a text They do this by way of experimental readings of Wallace Stevens poem toward a set of thirteen pedagogical principles that anchor a pedagogy of poetic practices The book also offers invitational exercises the authors own engagements with poetry practices as well as student examples visual modes of theorizing and a gathering of relevant resources compiled by two classroom teachers This is a book for secondary English teachers teaching artists English educators college writing professors readers and writers of poetry both existing and aspirational and any educator interested in poetry s capacities to pedagogically inform their subject matter and or literacy practices      Ekphrasis Murray Krieger, 2019-12-01 Originally published in 1992 What in apparently pictorial poetry do words represent Conversely how can words in a poem be picturable Murray Krieger develops a systematic theoretical statement out of answers to such questions Ekphrasis is his account of the continuing debates over meaning in language from Plato to the present Krieger sees the modernist position as the logical outcome of these debates but argues that more recent theories radically question the political and aesthetic assumptions of the modernists and the two thousand year tradition they claim to culminate Krieger focuses on ekphrasis the literary representation of visual art real or imaginary a form at least as old as its most famous example the shield of Achilles verbally invented in the *Iliad* He argues that the ekphrastic principle has remained enduringly problematic in that it reflects the resistant paradoxes of representation in words As he examines the conflict between the spatial and temporal between vision centered and word centered metaphors

Krieger reveals how literary theory has been shaped by the attempts and the deceptive failures of language to do the job of the natural sign      Wordsworth's Poetry of Repetition Sarah Houghton-Walker, 2023 This book explores those moments of repetition placing them in the early nineteenth century context from which they emerged and teasing out through extended close attention to the poetry itself the complexities of repetition and recapitulation      **The Riddle in the Poem** Živilė Gimbutas, 2004 The Riddle in the Poem is a study of the ramifications of riddles and riddle elements in the context of selected twentieth century poetry It includes works by Francis Ponge Wallace Stevens Richard Wilbur Rainer M Rilke and Henrikas Radauskas This book enlarges the scope of riddles as a root of lyric by connecting it with the folkloristic concept of riddling essentially a question and answer series and by tracing the influence of the root in poetic methodology The Riddle in the Poem may be defined as an attempt to advance the notion which has been discussed in previous folkloristic and literary studies which riddle as the root of lyric manifests itself in various ways      *The Elegiac Cityscape* Tara S. Welch, 2005 Throughout its history the city of Rome has inspired writers to describe its majesty to situate themselves within its sweeping landscape and to comment upon its contribution to their own identity The Roman elegiac poet Propertius was one such author This final published collection issued in 16 BCE has been traditionally read as an abandonment by Propertius of his earlier flippant love poems for a more mature engagement with Roman public life or else a comical send up of imperial policies as embodied in Rome's public buildings The relationship between poet and city is complicated at every turn with the presence in the background of the emperor Augustus whose sustained artistic patronage of Roman monuments brought about the most pervasive transformation that the cityscape had yet seen The Elegiac Cityscape explores Propertius Rome and the various ways his poetry about the city illuminates the dynamic relationship between one individual and his environment Combining the approaches of archaeology and literary criticism Tara S Welch examines how Propertius poems on Roman places scrutinize the monumentalization of various ideological positions in Rome as they poke and prod Rome's monuments to see what further meanings they might admit The result is a poetic book rife with different perspectives on the eternal city perspectives that often call into question any sleepy or complacent adherence to Rome's traditional values      **Thinking Through Poetry** Marjorie Levinson, 2018-07-04 Thinking through Poetry Field Reports on Romantic Lyric pursues two goals The title signals the contribution to debates about reading Do we think through by means of with poems sympathetically elaborating their surfaces Is this compatible with a second meaning thinking through poems to their end solving a problem getting to its root its deep truth Third can we square these surface and depth readings with a speculative philosophical criticism to which the poem carries us where through denotes a going beyond All three meanings of through are in play throughout The subtitle applies field first to Romantic studies since the 1980s a field that this project reflects upon from beginning to end Examples are drawn especially from Wordsworth but also from Coleridge and in assessing Romanticism's afterlife from Stevens Field also characterizes the shift from a unitary to a field concept of form during that time span a shift

pursued through prolonged engagement with Spinoza Field thus underscores the synthesis of form and history the importance of analytic scale to that synthesis and the displacement of entity text by relation as the object of investigation While the book historically connects early nineteenth century intellectual trends to twentieth and twenty first century scientific revolutions its focuses on introducing new models to literary criticism Unlike accounts of the influence of science on literature or various literature X approaches literature and ecology literature and cognitive science it constructs its object of inquiry in a way cognate with work in non humanities disciplines thus highlighting a certain unity to human knowledge The claim is that specialists in literature should think the way distinguished scientists think and vice versa *Ravishing Images* Katy Aisenberg,1995 This major study of Wordsworth Auden and Larkin proposes that we read the history of contemporary poetry as the history of a war between words and images This book argues that the desire for transparent clear poetry in the 19th and 20th centuries led poets to try to appropriate the powers of the image the main trope they used was ekphrasis a written description of a work of art But the relationship between the arts was less a marriage than a rape These poets feared the wordless power of the other they described They narcissistically created these images with the rhetoric of possession domination violence or entombment *The Oxford Handbook of Modern Irish Poetry* Fran Brearton,Alan Gillis,2012-10-25 The Oxford Handbook of Modern Irish Poetry consists of 40 essays by leading scholars and new researchers in the field Beginning with W B Yeats the figure who towers over the century s poetry it includes chapters on the major poets to have emerged in Ireland over the last 100 years **Basic Poetry** Jean Elizabeth, Poet Laureate Ward,2008-08-02 Basic Poems with instructions and reference pages on how to write your own poetry Illustrations within this charming book for the beginner or any one who needs to be inspired *War Is Here* Robert McGill,2017-09-01 Canada did not fight in the Vietnam War but the conflict seized the Canadian imagination with an energy that has persisted In *War Is Here* Robert McGill explains how the war contributed to a golden age for writing in Canada As authors addressed the conflict they helped to construct an enduring myth of Canada as liberal hospitable and humanitarian For many writers the war was one that Canadians could and should fight against if not in person then on the page In this pioneering account of war related Canadian literature McGill observes how celebrated books of the era channel Vietnam sometimes in subtle but pervasive ways He examines authors attempts to educate their readers about American imperialism and Canadian complicity and he discusses how writers repeatedly used language evoking militarism and violence from the figure of the United States as a rapist to the notion of Canada as a peaceable kingdom in order to make Canadians feel more intensely about their country McGill also addresses the recent spate of prize winning Canadian novels about the war that have renewed Vietnam s resonance in the wake of twenty first century conflicts involving America *War Is Here* vividly revisits a galvanizing time in world history and Canadian life offering vital insights into the Vietnam War s influence on how people think about Canada its place in the world and the power of the written word to make a difference *Epistolary Poetry in Byzantium and Beyond*

Krystina Kubina, Alexander Riehle, 2021-05-04 Letters were an important medium of everyday communication in the ancient Mediterranean. Soon after its emergence the epistolary form was adopted by educated elites and transformed into a literary genre which developed distinctive markers and was used for instance to give political advice to convey philosophical ideas or to establish and foster ties with peers. A particular type of this genre is the letter cast in verse or epistolary poem which merges the form and function of the letter with stylistic elements of poetry. In Greek literature epistolary poetry is first safely attested in the fourth century AD and would enjoy a lasting presence throughout the Byzantine and early modern periods. The present volume introduces the reader to this hitherto unexplored chapter of post classical Greek literature through an anthology of exemplary epistolary poems in the original Greek with facing English translation. This collection which covers a broad chronological range from late antique epigrams of the Greek Anthology to the poetry of western humanists is accompanied by exegetical commentaries on the anthologized texts and by critical essays discussing questions of genre, literary composition and historical and social contexts of selected epistolary poems. Chapters 3 and 4 of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution CC BY 4.0 license available at <https://www.taylorfrancis.com/books/10.4324/9780429288296>. British Women Poets of the Long Eighteenth Century Paula R. Backscheider, Catherine E. Ingrassia, 2009-10-30 This anthology gathers 368 poems by 80 British women poets of the long eighteenth century. Few of these poems have been reprinted since originally published and all are crucial to understanding fully the literary history of women writers. Paula R. Backscheider and Catherine E. Ingrassia demonstrate the enormous diversity of poetry produced during this time by organizing the poems in three broad and deliberately overlapping categories by genre, establishing that women wrote in all of the forms that men did with equal mastery and creativity by theme, offering a revisionary look at the range of topics these writers addressed including war, ecology, friendship, religion, and the stages of life, and by the poems' more specific focus on the women's experiences as writers. Backscheider and Ingrassia have selected poems that represent the best work of skilled poets, creating a wonderful mix of canonical and little known pieces. They include the complete texts of longer poems that are abridged or omitted in other collections. Their substantial part introductions, textual notes, bibliographical information, and biographical sketches situate the poets and their writings within the cultural and political milieu in which they appeared. To generate further scholarship on this subject, this essential anthology puts primary texts in front of students, scholars, and general readers. It fills the persistent need to document women's poetic expression during the long eighteenth century and to rewrite the literary history of the period, a history from which women have largely been excluded. Imaginative Teaching through Creative Writing Amy Ash, Michael Dean Clark, Chris Drew, 2021-03-25 Growing out of recent pedagogical developments in creative writing studies and perceived barriers to teaching the subject in secondary education schools, this book creates conversations between secondary and post secondary teachers aimed at introducing and improving creative writing instruction in teaching curricula for young people. Challenging

assumptions and lore regarding the teaching of creative writing this book examines new and engaging techniques for infusing creative writing into all types of language arts instruction offering inclusive and pedagogically sound alternatives that consider the needs of a diverse range of students With careful attention given to creative writing within current standards based educational systems Imaginative Teaching through Creative Writing confronts and offers solutions to the perceived difficulty of teaching the subject in such environments Divided into two sections section one sees post secondary instructors address pedagogical techniques and concerns such as workshop revision and assessment before section two explores hands on activities and practical approaches to instruction Focusing on an invaluable and underrepresented area of creative writing studies this book begins a much needed conversation about the future of creative writing instruction at all levels and the benefits of collaboration across the secondary post secondary divide
