## Ecuaciones De Los Contratos Publicos:

**Ecuaciones de los contratos públicos** José Roberto Dromi, 2008 Reedición de esta innovadora obra del derecho administrativo que analiza la teoría de los contratos administrativos a partir del análisis de las diferentes ecuaciones que integran a su vez la ecuación contractual global. La obra analiza las ecuaciones social, política, administrativa, tecnológica, ambiental, económica, financiera, tributaria y de mercado e incluye al igual que en su primera edición un anexo con las formulaciones gráficas que plasman ese modelo ecuacional. Se trata pues de una obra de especial significación en momentos en que esta oscilación entre el Derecho Administrativo y el Derecho Privado ha obligado a reconstruir el tejido del contrato público como instrumento negocial de la justicia distributiva en el marco de la vuelta al Derecho administrativo luego del cambio que representó el tránsito de la economía pública de Estado a la economía social de mercado.

*Aspectos jurídicos de la contratación estatal* Juan Carlos Morón, Zita Aguilera, 2017-06-05 Este libro realizado por Juan Carlos Morón y Zita Aguilera contiene una explicación concisa pero rigurosa de los principales temas de la contratación pública. Analiza las características del contrato administrativo y el universo de fórmulas que puede emplear la administración en un contrato así como sus múltiples clasificaciones y los principios que inspiran y controlan la contratación administrativa. La obra describe las distintas etapas de la contratación, los posibles vicios de la solución de controversias y los mecanismos de protección de los contratistas.

**Tratado de Derecho administrativo y Derecho público general. Tomo XIII** Santiago Muñoz Machado, 2018-08-01 Santiago Muñoz Machado, uno de los más reputados juristas españoles lleva a cabo una nueva presentación de la obra que constituye todo un clásico en la bibliografía de nuestro Derecho administrativo y constitucional desde hace quince años. En los nuevos tomos que integran la obra el autor además de algunos cambios en la disposición de los materiales ha llevado a cabo una corrección minuciosa de los textos y ha tenido en consideración en la versión final todas las aportaciones doctrinales y jurisprudenciales relevantes sobre los asuntos objeto de estudio que se han manifestado en el último lustro. El autor ha acometido esta gran labor desde la perspectiva de que en nuestro país los principios tradicionales que han marcado el derecho público han sido progresivamente desplazados por otros principios: reglas de comportamiento e instrumentos descentralizadores fragmentación de la ley y del ordenamiento jurídico europeizado y globalización del mercado libre junto con regulación económica, aparición de una nueva gama de derechos de los ciudadanos y consolidación de un cambio radical en las relaciones entre el Estado y las sociedades.

ISBN: 978-84-340-2215-7 *La potestad reglamentaria de las comisiones de regulación como autoridades administrativas independientes* Édgar González López, 2018-05-07 La investigación indaga sobre el eventual reconocimiento de la potestad reglamentaria a las comisiones de regulación en los servicios públicos domiciliarios y de telecomunicaciones y sobre el esclarecimiento de cuál es su alcance y contenido. Para ello hay que partir del análisis de las controversias surgidas en la doctrina y en la jurisprudencia.

Las controversias debidas en buena parte a la

ambigüedad del concepto y naturaleza de las comisiones de regulación como del contenido y naturaleza de sus funciones. Como se verá al final la respuesta es positiva bajo la premisa de que es posible y necesario apoderar a estas entidades de una potestad especial en su función de regulación y de intervención específica en actividades económicas de interés general vista además su necesaria ubicación como Autoridades Administrativas Independientes como hipótesis planteada en el estudio. Como presupuestos necesarios para el reconocimiento de la potestad reglamentaria a estas autoridades se analizan las problemáticas jurídicas derivadas de sus rasgos de independencia y neutralidad política de su anclaje constitucional en los servicios públicos de sus relaciones con la estructura funcional del legislador y del Presidente de la República en especial con su potestad reglamentaria general. Así mismo la delimitación del alcance de los ámbitos de competencia habilitados por ley al regulador en el marco de una administración clásica edificada sobre un dogma de subordinación.

Mas basta uma vez considerar o para confirmarmos a importância da leitura desta obra se antes vislumbravamos a ideia de descentralização administrativa como o modo pela qual a Administração Pública criava novas pessoas jurídicas e lhes atribuía específicas funções públicas por meio deste livro podemos constatar que ao redor de não existe o governo por contratos uma verdadeira Administração Pública contratual. Essa Administração Pública não tem fonte imediatamente legislativa nenhuma, a lei que cria a entidade mas sim o contrato que transfere o exercício de funções administrativas a uma pessoa de direito privado. Mais em determinados casos essa fonte de direitos e obrigações é imputada a pessoa privada ou concessionária ou permissionária autorizado ou parceiro uma gama de definida de deveres públicos privados a ser executados sob o regime de direito público ou de direito privado. **La Contratación Pública en América Latina** Varios Autores,2016-08-01 La contratación pública en América Latina no obstante su indiscutible relevancia ha escapado como objeto de análisis a la creciente producción de investigaciones que buscan identificar con una perspectiva comparada las distinciones y las similitudes de cada ordenamiento jurídico de la región. Con el apoyo de la Universidad Externado de Colombia y de la Fondation pour le Droit Continental La contratación pública en América Latina entra a colmar este vacío mediante la compilación de trece informes nacionales que contienen la respuesta a un cuestionario común por parte de estudiosos de Argentina Bolivia Brasil Chile Colombia Costa Rica El Salvador Nicaragua Panamá Perú República Dominicana Uruguay y Venezuela A estos informes nacionales se suma un capítulo con perspectiva técnica comparada que aborda algunos aspectos metodológicos de la investigación 1º un capítulo que captura varias de las tendencias generales de la contratación pública en América Latina II y un Apéndice relativo a la actualidad europea en materia de contratación pública

**Derecho de los consumidores y usuarios** Raúl Canosa Usera,Jaime Rodríguez-Arana Muñoz,2008 El contenido de esta obra colectiva es el resultado de un estudio multidisciplinar sobre los derechos de los consumidores y usuarios en el ámbito español e iberoamericano sin olvidar la influencia que ejerce en la materia la normativa europea a través de la legislación de nuestro país En esta investigación han participado profesores de Derecho público y privado de diez universidades y siete países intentando ofrecer una perspectiva integral en una materia que afecta a millones de ciudadanos que se encuentran inmersos en el tráfico jurídico ordinario bien como usuarios bien como consumidores de toda clase de servicios y bienes en unos casos públicos en otros privados En efecto no se puede olvidar que el consumo es el gran motor de la economía y que para conseguir un adecuado desarrollo social también hay que asegurar una cierta capacidad económica La seguridad en las relaciones entre usuarios y prestadores de servicios o entre comerciantes y consumidores la eliminación de situaciones de abuso y de cláusulas desproporcionadas o

injustas o la defensa de la libre competencia son elementos imprescindibles del normal tráfico comercial De esta manera protegiendo relaciones ordinarias se coloca a la persona en el centro del ordenamiento jurídico relativo a los usuarios y consumidores de bienes y servicios Como se pone de manifiesto en este trabajo las constituciones de los diferentes países imponen a sus gobiernos la obligación de proteger a la parte más débil de este tipo de relaciones Junto con las omnipresentes directivas europeas la protección constitucional se articula fundamentalmente mediante disposiciones mercantiles civiles y administrativas lo que justifica la perspectiva integradora adoptada en esta obra
