examining them as souvenir objects and vehicles for political and social messages *Accessories to Modernity* Susan Hiner, 2011-06-06 *Accessories to Modernity* explores the ways in which feminine fashion accessories such as cashmere shawls parasols fans and handbags became essential instruments in the bourgeois idealization of womanhood in nineteenth century France Considering how these fashionable objects were portrayed in fashion journals and illustrations as well as fiction the book explores the histories and cultural weight of the objects themselves and offers fresh readings of works by Balzac Flaubert and Zola some of the most widely read novels of the period As social boundaries were becoming more and more fluid in the nineteenth century one effort to impose order over the looming confusion came in the case of women through fashion and the fashion accessory thus became an ever more crucial tool through which social distinction could be created projected and maintained Looking through the lens of fashion Susan Hiner explores the interplay of imperialist expansion and domestic rituals the assertion of privilege in the face of increasing social mobility gendering practices and their relation to social hierarchies and the rise of commodity culture and woman s paradoxical status as both consumer and object within it Through her close focus on these luxury objects Hiner reframes the feminine fashion accessory as a key symbol of modernity that bridges the erotic and proper the domestic and exotic and mass production and the work of art while making a larger claim about the accessory status in terms of both complicity and subordination of bourgeois women in nineteenth century France Women were not simply passive bystanders but rather were themselves accessories to the work of modernity from which they were ostensibly excluded *Miniature and the English Imagination* Melinda Alliker Rabb, 2019-02-14 Examines the practice and purposes of presenting the small scale in literature material culture and theories of cognition *Necessaries: Two Hundred Years of Fashion Accessories* Daniel Delis Hill, 2014-12-31 In this comprehensive study fashion historian Daniel Delis Hill chronicles women s and men s fashion accessories from 1800 to the new millennium Each chapter includes a historical overview of the era and an introduction to the principal fashions worn by women and men Accessories are arranged by category and include hats shoes handbags jewelry gloves parasols and umbrellas fans neckwear belts and suspenders handkerchiefs hosiery walking sticks and eyewear With more than 800 illustrations many never before seen in book form this well researched study is a valuable resource for the fields of fashion history fashion design and merchandising theatre costuming and American popular culture **A Revolution for the Screen** Paul Cuff, 2025-10-01 Abel Gance s silent masterpiece *Napoleon* was given a limited run on its debut in 1927 but soon afterwards distributors in France and America unwilling to deal with its nine hour running time subjected it to savage cuts with devastating results for the movie and for film history The struggle across ensuing decades to restore and reintegrate Gance s film has formed a backdrop to an array of formal contextual and ideological battles In this book Paul Cuff takes account of those battles and challenges received opinion on Gance s view of both his film and its subject Paul Cuff takes account of the struggle across decades to restore and reintegrate Gance s film *Napoleon* and challenges received opinion on this work *Editing Lives*

Jesse G. Swan, 2013-12-12 Central to all post Renaissance scholarship textual studies continues to evolve both in its techniques and methods as well as in the illumination it affords all other areas of modern knowledge The life of our fellow human beings and how we know and tell lives is one such area of modern knowledge that is foundationally affected by theories and practices of textual creation transmission and apprehension This collection of new essays and studies by internationally acclaimed scholars along with a select few who are less acclaimed but of distinct promise provides a view into the contemporary state of scholarship in textual and biographical studies The collection also means to be of especial interest to scholars of the British eighteenth century by concentrating its evidence and argument on topics and subjects important to contemporary eighteenth century studies The volume is inspired by the extensive contributions to the fields by the late O M Brack Jr

Intimations of Modernity Louis A. Pérez Jr., 2017-01-11 Louis A P rez Jr s new history of nineteenth century Cuba chronicles in fascinating detail the emergence of an urban middle class that was imbued with new knowledge and moral systems Fostering innovative skills and technologies these Cubans became deeply implicated in an expanding market culture during the boom in sugar production and prior to independence Contributing to the cultural history of capitalism in Latin America P rez argues that such creoles were cosmopolitans with powerful transnational affinities and an abiding identification with modernity This period of Cuban history is usually viewed through a political lens but P rez here emphasizing the character of everyday life within the increasingly fraught colonial system shows how moral social and cultural change that resulted from market forces also contributed to conditions leading to the collapse of the Spanish colonial administration P rez highlights women s centrality in this process showing how criollas adapted to new modes of self representation as a means of self fulfillment Increasing opportunities for middle class women s public presence and social participation was both cause and consequence of expanding consumerism and of women s challenges to prevailing gender hierarchies Seemingly simple actions riding a bicycle for example or deploying the abanico the fan in different ways exposed how traditional systems of power and privilege clashed with norms of modernity and progress

in neglected areas such as military uniform school uniform women s accessories hairstyles and textile trade **The Grace of Four Moons** Pravina Shukla,2015-10-16 Because clothing food and shelter are basic human needs they provide excellent entries to cultural values and individual aesthetics Everyone gets dressed every day but body art has not received the attention it deserves as the most common and universal of material expressions of culture The Grace of Four Moons aims to document the clothing decisions made by ordinary people in their everyday lives Based on fieldwork conducted primarily in the city of Banaras India Pravina Shukla conceptualizes and realizes a total model for the study of body art understood as all aesthetic modifications and supplementations to the body Shukla urges the study of the entire process of body art from the assembly of raw materials and the manufacture of objects through their sale and the interactions between merchants and consumers to the consumer s use of objects in creating personal decoration **The Publishers Weekly** ,2002
