Thomas Rimer, 2007-04-24 In Volume 2 of Columbia's comprehensive anthology of modern Japanese literature thoughtfully selected and carefully translated readings portray the vast changes that have transformed Japanese culture since the end of the Pacific War Beginning with the Allied Occupation in 1945 and concluding with the early twenty first century these stories poems plays and essays reflect Japan's heady transition from poverty to prosperity its struggle with conflicting ideologies and political beliefs and the growing influence of popular culture on the country's artistic and intellectual traditions Organized chronologically and by genre within each period readings include fiction by Hayashi Fumiko and Oe Kenzaburo poems by Ayukawa Nobuo Katsura Nobuko and Saito Fumi plays by Mishima Yukio and Shimizu Kunio and a number of essays among them Eto Jun on Natsume Soseki and his brilliant novel Kokoro The Heart of Things and Kawabata Yasunari on the shape of his literary career and the enduring influence of classical Japanese literature Some authors train a keen eye on the contemporary world while others address the historical past and its relationship to modern culture Some adopt an even broader scope and turn to European models for inspiration while others look inward exploring psychological and sexual terrain in new often daring ways Spanning almost six decades this anthology provides a thorough introduction to a profound period of creative activity

*Satō Haruo and Modern Japanese Literature* Charles Exley, 2016-01-19 In Sat Haruo and Modern Japanese Literature Charles Exley offers the first comprehensive examination of Sat's literary oeuvre from the 1910s through the 1930s The study examines the ways in which selected novels and short stories interact with cultural discourses of the time including the fantastic the discourse on melancholy and mental illness detective fiction and early film colonial encounter and critique of civilization and hysteria and psychoanalysis Exley's alignment of Sat's fictional work with its cultural and historical context illustrates the complex ways in which Sat's aesthetic projections derived from and comment on Japan's experience with modernization during the twentieth century

**The Establishment of the Japanese Constitutional System** Junji Banno, 2003-09-02 The 1889 Meiji

constitution how it actually worked the establishment of the Diet and the shifting roles and interests of the parties A Japanese classic translated by one of our leading authorities *The Dynamics of Japan's Relations with Africa* Kweku

Ampiah,2013-01-11 This is the first book to examine in depth Japan's relations with Africa Japan's dependence on raw materials from South Africa made it impossible for Tokyo in the 1970s and 1980s to support other African states in their fight against the minority government and its policy of apartheid Kweku Ampiah's detailed analysis of Japan's political economic and diplomatic relations with sub-Saharan Africa from 1974 to the early 1990s makes it clear that Japan was lukewarm in the struggle against apartheid Case studies of Tanzania and Nigeria dissect Japan's trade aid and investment policies in sub-Saharan Africa more widely **Japan, Internationalism and the UN** R. P. Dore,2002-11 Japan Internationalism and the

UN provides a unique insight into Japan's foreign policy and its related domestic politics It is the product of a wealth of study and discussion with the Japanese themselves about their place in the world **The Making of Urban Japan** André

Sorensen,2005-08-19 During the twentieth century Japan was transformed from a poor primarily rural country into one of the world's largest industrial powers and most highly urbanised countries Interestingly while Japanese governments and planners borrowed carefully from the planning ideas and methods of many other countries Japanese urban planning urban governance and cities developed very differently from those of other developed countries Japan's distinctive patterns of urbanisation are partly a product of the highly developed urban system urban traditions and material culture of the pre-modern period which remained influential until well after the Pacific War A second key influence has been the dominance of central government in urban affairs and its consistent prioritisation of economic growth over the public welfare or urban quality of life Andr Sorensen examines Japan's urban trajectory from the mid nineteenth century to the present paying particular attention to the weak development of Japanese civil society local governments and land development and planning regulations **Democracy in Post-War Japan** Rikki Kersten,2013-06-17 Democracy in Post War Japan assesses the

development of democracy through the writings of the brilliant political thinker Maruyama Masao The author explores the significance of Maruyama's notion of personal and social autonomy and its impact on the development of a distinctively Japanese democratic ideal This book based on contemporary documents and on interviews with Maruyama is the only full scale analysis of his work and thought to be published in English Literary Representations of Japan: At the Intersection of

David Mitchell and Haruki Murakami's Worlds Eugenia Prasol,2023-09-12 This book will focus on analyzing the different aspects of Japan's representation in the novels of Haruki Murakami and David Mitchell It is proven that Murakami creates and recreates Japan without implementing any orientalist features or exotic imagery In the works of both authors the intent to depict a new world of Japan stripped of traditional stereotypical traits becomes clear The difference between Murakami and Mitchell's representation of Japan lies in the difference between Japan as seen by the Japanese and Japan as seen by modern Westerners but both are correct images of Japan It is a recreation of the global image of Japan In that sense the texts

of Murakami and Mitchell are complementary representations of Japan through East West cultural dialogue Studying the representations of Japan and Japanese national character helps to understand the role of Murakami and Mitchell in the formation of a new image of Japan the de stereotyping of anachronistic ideas about Japanese national exclusivity enriching by doing so the world literature with new visions of the country and its culture The purpose of the comparative analysis of English and Japanese literary works performed in this work is to reveal both deep analogies and differences in the representation of the image of Japan actualizing the national specificity of the texts This research advances the understanding of how both general and specific components of literary representations of Japan and Japaneseness are manifested in the East West cultural dialogue

*Studio Ghibli Animation as Adaptations* Dominic J. Nardi, Keli Fancher, 2025-05-15 This collection investigates how Hayao Miyazaki Isao Takahata and other Studio Ghibli storytellers have approached the process of reimagining literary sources for animation Studio Ghibli is renowned for its original storytelling in films like *My Neighbor Totoro* but many of its most famous films including *Howl's Moving Castle* and *Ponyo* have their origins in pre existing novels manga or fairy tales Studio Ghibli's adaptations seldom directly translate source material to animation but instead transform the works to incorporate themes or imagery central to the studio's sensibilities *Studio Ghibli Animation as Adaptations* explores how these adaptations often blur genre boundaries and raise questions about what constitutes fidelity to source material The collection also shows how the studio reinterprets and recontextualizes stories across cultures for Japanese audiences and across mediums like manga

**The Nature of the Japanese State** Brian J. McVeigh, 2013-09-13 Brian J McVeigh uses a unique anthropological approach to step outside flawed stereotypes of Japanese society and really engage in the current debate over the role of bureaucracy in Japanese politics To many in the West Japan appears as a paradox a rational high tech economic superpower and yet at the same time a deeply ritualistic and ceremonial society This adventurous new study demonstrates how these nominally conflicting impressions of Japan can be reconciled and a greater understanding of the state achieved

*The Japanese High School* Shoko Yoneyama, 2012-10-02 For large numbers of school students in Japan school has become a battle field Recent violent events in schools together with increasing drop out rates and bullying are undermining stereotypes about the effectiveness of the Japanese education system This incisive and original book looks at Japanese high school from a student perspective and contextualises this educational turmoil within the broader picture of Japan's troubled economic and political life

**Japan's Sea Lane Security** Euan Graham, 2005-11-16 This is the first major English language study to explore the broad and longstanding connections between Japan's national security and the safety of its sea lanes Tracing issues from pre and post 1945 eras the book explores how Japan's concerns with sea lane protection have developed across such diverse fields as military strategy diplomacy trade policy energy security and law enforcement Drawing upon case study material and primary research including interviews with officials and security analysts the book presents a chronological analysis of Japan's sea lane

security While Japan's security policies have recently undergone relatively rapid change a historical treatment of sea lane security issues reveals long term continuity in security policymakers perceptions and responses regarding Japan's defence and foreign policy Revealing a neglected but important aspect of Japan's military and economic security the book investigates why officials and analysts continue to portray the defence of Japan's sea lanes as a matter of life and death *Japan's Interventionist State* Aurelia George-Mulgan,2004-08-02 Japan's Interventionist State gives a detailed examination of Japan's Ministry of Agriculture Forestry and Fisheries and its role in promoting protecting and preserving the regime of agricultural support and protection This account is integral to the author's extended and multidimensional explanation for why Japan continues to provide high levels of assistance to its farmers and why it continues to block market access concessions in the WTO and other agricultural trade talks *The Changing Face of Japanese Retail* Louella Matsunaga,2012-09-10 This book examines employment structure working practice and recruitment strategies in Japanese retail in the 1990s through a case study of one large chain store Issues focused on include gender in the workplace changing notions of corporate community and the impact of Japan's recent recession In particular the research presented here challenges the view of part time female staff as peripheral to the workforce and asks whether a rethink of the Japanese employment system is now overdue

Japanese-Soviet/Russian Relations since 1945 Kimie Hara, 2003-09-02. An original book that reviews the problems of political rapprochement in terms of foreign policy decision making between Japan and Russia since 1945, including the infamous Northern Territories dispute. Uses four bilateral summits as case studies to explore patterns, changes and tendencies in the decision making process. Concludes that much of the Cold War system of relations between the two states still remains in place at the end of the twentieth century.

**Labor Migration from China to Japan** Gracia Liu-Farrer, 2011-05-24. Chinese students are the largest international student population in the world and Japan attracts more of them than any other country. Since the mid 1980s, when China opened the door to let private citizens out and Japan began to let more foreigners in, over 300 thousand Chinese have arrived in Japan as students. The majority of them enter Japan's labor market and many have stayed on indefinitely. This book investigates this educationally channeled labor migration from China to Japan, giving a comprehensive portrayal of an often neglected group of international migrants in a society that for decades has been considered a non-immigrant country. It examines the labor market outcomes of international student migration and explores how these outcomes contribute to our understanding of international migration and international education in an age of globalization.
