## Far Fetched Facts:

**Far-Fetched Facts** Richard Rottenburg, 2009-04-17 A fictionalized ethnographic study of development aid in sub Saharan Africa that focuses on technologies of inscription in the interactions of development banks international experts and local managers In 1996 the sub Saharan African country of Ruritania launched a massive waterworks improvement project funded by the Normesian Development Bank headquartered in Urbania Normland and with the guidance of Shilling Partner a consulting firm in Mercatoria Normland Far Fetched Facts tells the story of this project as narrated by anthropologists Edward B Drotlevski and Samuel A Martonosi Their account of the Ruritanian waterworks project views the problems of development from a new perspective focusing on technologies of inscription in the interactions of development bank international experts and local managers This development project is fictionalized of course although based closely on author Richard Rottenburg s experiences working on and observing different development projects in the 1990s Rottenburg uses the case of the Ruritanian waterworks project to examine issues of standardization database building documentation calculation and territory mapping The techniques and technologies of the representational practices of documentation are crucial Rottenburg argues both to day to day management of the project and to the demonstration of the project s legitimacy Five decades of development aid or development cooperation as it is now sometimes known have yielded disappointing results Rottenburg looks in particular at the role of the development consultant often called upon to act as mediator between the other actors and at the interstitial spaces where developmental cooperation actually occurs He argues that both critics and practitioners of development often misconstrue the grounds of cooperation which he claims are moral legal and political rather than techno scientific or epistemological

*Christianity V. Ecclesiasticism* J. H., 1887 *Facts and Fallacies about the Bombay Land Revenue System* Francis Geoffrey Hartnell Anderson, 1929 [Numbers from Nowhere](#)

David P. Henige, 1998 In the past forty years an entirely new paradigm has developed regarding the contact population of the New World Proponents of this new theory argue that the American Indian population in 1492 was ten even twenty times greater than previous estimates In *Numbers From Nowhere* David Henige argues that the data on which these high counts are based are meager and often demonstrably wrong Drawing on a wide variety of primary and secondary sources Henige illustrates the use and abuse of numerical data throughout history He shows that extrapolation of numbers is entirely subjective however masked it may be by arithmetic and he questions what constitutes valid evidence in historical and scientific scholarship

**Cannibal Talk** Gananath Obeyesekere, 2005-06-06 In this radical reexamination of the notion of cannibalism Gananath Obeyesekere offers a fascinating and convincing argument that cannibalism is mostly cannibal talk a

discourse on the Other engaged in by both indigenous peoples and colonial intruders that results in sometimes funny and sometimes deadly cultural misunderstandings Turning his keen intelligence to Polynesian societies in the early periods of European contact and colonization Obeyesekere deconstructs Western eyewitness accounts carefully examining their origins and treating them as a species of fiction writing and seamen s yarns Cannibalism is less a social or cultural fact than a mythic representation of European writing that reflects much more the realities of European societies and their fascination with the practice of cannibalism he argues And while very limited forms of cannibalism might have occurred in Polynesian societies they were largely in connection with human sacrifice and carried out by a select community in well defined sacramental rituals Cannibal Talk considers how the colonial intrusion produced a complex self fulfilling prophecy whereby the fantasy of cannibalism became a reality as natives on occasion began to eat both Europeans and their own enemies in acts of conspicuous anthropophagy
