

Far Right And Racism

Suraj Lakhani, Amarnath Amarasingam

Far Right And Racism:

The Far Right and Racism Adam Hibbert, 2003 Brings together the facts behind the headlines of today Explore the latest issues background and historical details up to date facts and figures and current opinions Ages 9 *The ethics of researching the far right* Antonia Vaughan, Joan Braune, Meghan Tinsley, Aurelien Mondon, 2024-05-07 At a time when far radical and extreme right politics are becoming increasingly mainstream globally sometimes with deadly consequences research in these fields is essential to understand the most effective ways to combat these dangerous ideologies Yet engaging with texts and movements that do physical and verbal violence raises a number of urgent ethical issues Until recently this has remained understudied as scholarship on the far right rarely delves explicitly and critically into the ethics of research This book seeks to remedy this significant gap in an otherwise extensive and growing literature Originating from a workshop series in 2020 in which an international group of academics at various career stages shared the ethical challenges and best practices they had developed in their research this edited collection draws together insights from these ongoing conversations offering urgent critical reflections on key ethical issues **Race, Popular Culture, and Far-right**

Extremism in the United States Priya Dixit, 2022-10-25 This book analyzes key popular culture artifacts linked with United States far right extremism to illustrate how extremists use various narrative strategies to legitimate their interests and goals and to justify violent actions Recognizing these narrative strategies and how they are used partly explains the back and forth moves between mainstream politics and the far right of ideas and issues that used to remain within far right circles The main objective of this book is to utilize theoretical approaches that centralize processes of racialization to analyze and explain how far right extremists utilize recognizable narratives to mainstream and communicate their ideas The book will illustrate processes by which racialized subjects are produced and violence justified In order to do so the book concentrates on popular culture as sources of how the far right constitutes their identities and goals It first develops a methodological plan to study popular culture artifacts that is drawn from scholarship on race and discourse analysis in International Relations IR It then analyzes far right use of key popular culture artifacts such as magazines memes and manifestos to note how extremist identities and interests are produced publicly communicated and mainstreamed This will contribute to Security Studies and IR s understanding of far right extremism especially how they utilize similar narrative strategies as used in mainstream contexts to justify their calls for violence The Rise of the Far Right in Europe Gabriella Lazaridis, Giovanna

Campani, Annie Benveniste, 2016-07-04 The results of the last European Elections of 2014 confirmed the rise of right and far right populist parties across the EU The success of a range of parties such as Denmark s Dansk Folkeparti Slovenia s Slovenska demokratska stranka France s Front National Greece s Golden Dawn the United Kingdom Independence Party Beppe Grillo s Five Star Movement in Italy and the Austrian FP has been perceived as a political wave which is transforming the face of the European Parliament and challenging at some level the hegemony of the big four well established European

political forces that lead the Strasbourg s assembly the ALDE EPP S D and Greens ALE As populism has become a major issue in many EU countries this collection aims to provide a critical understanding of related trends and recommend ways in which they can be challenged both in policy and praxis by using the gender race ethnicity sexual orientation intersectionality approach This international volume combines extensive transnational comparative data analysis as well as research at discursive attitudinal and behavioural levels Faith, folk and the far right Dominic Alessio,Robert J. Wallis,2025-06-24 This book offers the first examination of extremist Heathenry and occultism in the UK and how anti racist Heathens act to counter this discourse It explores the spectrum of Heathen practice today and the historical origins of racist Heathenry in nineteenth century Germanic romanticism and twentieth century folkish nationalism Treating each of the three main extremist Heathen organisations the book extends the analysis to the neo Nazi occult organization the Order of the Nine Angles O9A and the wider racist Heathen cultural scene in Black Metal and Dark Folk music The authors balance this with discussion of how inclusivist Heathens are countering this discourse from visible protests at far right rallies to inter faith forums and an active presence on social media platforms The book makes an important contribution to the intersecting fields of new religious movements nationalist history and racist politics **Researching the Far Right** Stephen D. Ashe,Joel Busher,Graham Macklin,Aaron Winter,2020-11-09 Researching the Far Right brings together researchers from across the humanities and social sciences to provide much needed discussion about the methodological ethical political personal practical and professional issues and challenges that arise when researching far right parties their electoral support and far right protest movements Drawing on original research focussing mainly on Europe and North America over the last 30 years this volume explores in detail the opportunities and challenges associated with using ethnographic interview based quantitative and online research methods to study the far right These reflections are set within a wider discussion of the evolution of far right studies from a variety of disciplinary viewpoints within the humanities or the social sciences tracing the key developments and debates that shape the field today This volume will be essential reading for students and scholars with an interest in understanding the many manifestations of the far right and cognate movements today It also offers insight and reflection that is likely to be valuable for a wider range of students and scholars across the humanities and social sciences who are carrying out work of an ethically politically personally practically and professionally challenging nature *The Far-Right in World Politics* Alexander Anievas,Richard Saull,2024-11-01 This book addresses the reasons why the contemporary far right has gained political resonance in a variety of states across both the Global North and South The rise of far right forms of politics in recent years throughout a range of geopolitical locales suggests the emergence of a distinct conjuncture in world politics indicating a common set of enabling conditions and characteristics It is this unprecedented context in the history of the post war liberal international order that this edited volume aims to address In doing so it brings together a diverse range of scholars many of whom have developed an internationally recognized expertise in the study of the far right and International

Relations IR Reflecting a plurality of methodological and theoretical perspectives the chapters cover a variety of theoretical and conceptual issues including analyses of different geopolitical and national expressions of the contemporary far right. Notwithstanding such diversity the primary analytical focus of the book is to situate and explain the far right as a distinct part of the history of modern international relations especially with respect to the development of and crises within the contemporary international order. From this perspective the contributions combine to demonstrate the deeply embedded symptoms of far right politics centred on racialized imaginaries across the globe and re-produced within the sinews of an evolving liberal international order even as the far right also represents an antagonism to some elements of said order. Providing a much needed global perspective this book will be of great interest to students and scholars of populism far right politics conservatism and international relations. The chapters in this book were originally published as a special issue of *Globalizations* and are accompanied by a new epilogue.

The Sociology of Violent Extremism Suraj Lakhani, Amarnath Amarasingam, 2025. The Sociology of Violent Extremism is an essential collection addressing key challenges in studying violent extremism. Since 9/11 terrorism literature has expanded aiming to understand prevent and predict evolving threats. However early research often lacked academic rigor and empirical depth. As the field has developed more thorough studies have appeared but the focus is often reactive centred on recent attacks and ideological waves and tends to remain isolated from other disciplines. The urgent need for policy relevance has limited deep theoretical exploration. Despite these challenges valuable contributions have come from criminology psychology sociology social psychology and communications theory. Yet sociological theory is still underused in terrorism studies. The Sociology of Violent Extremism highlights the importance of a sociological approach to understanding violent extremism. It promotes using established theoretical frameworks to gain deeper insights into the social dynamics of these phenomena. This book features interdisciplinary case studies and theoretical developments showing the value of sociological perspectives in addressing current issues in violent extremism. The book aims to provide researchers with a theoretical toolbox that can be deployed in their own work encouraging the use of sociological theories to improve the understanding of violent extremism and develop effective countermeasures. It emphasizes viewing violent extremism as a result of complex social processes embedded in societal structures. Provided by publisher.

Legal Challenges to the Far-Right Natalie Alkiviadou, 2019-11-22. The work considers the international and European obligations of the UK in the realm of challenging the far right and assesses the extent to which it adheres to them. It looks at the role of criminal law in tackling hate speech and hate crime and assesses how English law deals with political parties which may deviate from agreed norms and principles such as non discrimination. The legal analysis is placed within a contextual framework of far right parties in the United Kingdom and also incorporates a definitional framework in terms of how the law defines themes relevant to challenging the far right such as racial discrimination terrorism and extremism. The book presents a valuable guide for students academics and policy makers in the areas of International Human Rights Law Criminal Law

Comparative Constitutional Law National Security Law Comparative Politics and Terrorism Studies Normalization of the Global Far Right Ulrike M. Vieten, Scott Poynting, 2022-09-26 Exploring how the boundary between the extremist far right and centre right parties and politics became blurred Normalization of the Global Far Right deconstructs one of the most pressing issues of today the rise of the far right *The Church, The Far Right, and The Claim to Christianity* Helen Paynter, Maria Power , 2024-08-30 In recent years far right organisations have invaded mosques across the UK with army issued Bibles declaring their actions a Christian crusade Others have paraded large crosses through Muslim majority areas and invaded migrant hotels harassing residents in their so called crusade Far right appeals to clean up society and restore Christian Britain can be quite attractive to some Christians However what they may fail to appreciate is that this rhetoric may be cynically employed by those whose allegiance and values are quite contrary to Christian ones Despite all this the response from official church sources in the UK has been notably subdued and resources to help churches address hate crimes or racial tensions are scarce This book aims to fill that void Bringing together insights from theologians church practitioners and leading experts this volume examines the church s response to the rise of far right thinking in UK society and explores how it can respond more effectively With a foreword by David Gushee this book offers critical and constructive perspectives for the church to confront these challenges *The Far-Right Discourse of Multiculturalism in Intergroup Interactions* Katarina Pettersson, Emma Nortio, 2022-03-02 This book employs discursive psychology to examine how far right discourse on issues related to multiculturalism is received interpreted adapted and contested in political rhetoric and informal talk It brings together the latest research from sociology and media studies concerning the circulation of far right messages in the era of digitalization and the hybrid media system and critical discursive psychology research into political and lay discourse pertaining to multiculturalism Drawing on empirical material from the Nordic context allows for an analysis of political discourse within societies in which a strong tradition of social democratic welfare states now exists alongside the rise of populist and far right parties Operating in countries with comparatively high national internet and social media penetration this book explores the extent to which the success of these parties is linked to their skilful use of social media in order to mobilise popular support for their political agendas The collection s multilevel perspective aims to further the understanding of how the anti immigration and anti multiculturalist ideologies propagated by these parties contributes to the mainstreaming of their rhetoric among the political elite as well as to the societal normalization of nationalist and xenophobic discourse In doing so it will provide fresh insights for students and scholars of sociology social psychology discourse analysis media and communication and political science The Far-Right in Contemporary Australia Mario Peucker, Debra Smith, 2019-07-15 This book is the first to elaborate on radical and extreme right movements in contemporary Australia It brings together leading scholars to present cutting edge research on various facets and manifestations of Australia s diverse far right which has gained unprecedented public presence and visibility since the mid 2010s The thematic breadth of the

chapters in this volume reflects the complexity of the far right in Australia ranging from the attitudes of far right populist party voters and the role of far right groups in anti mosque protests to online messaging and rhetoric of radical and extreme right wing movements The contributions are theoretically grounded and come from a range of disciplines including media and cultural studies sociology politics and urban studies exploring issue of far right activism on the micro and macro level with both qualitative and quantitative research methods A Fortified Far Right? Katalin Petho-Kiss,Rohan Gunaratna,2024-04-30 Petho Kiss and Gunaratna understand the nature of the threat posed by the far right because of their findings and they propose effective provisions and mechanisms for detecting and countering it The book undertakes a consistent procession and empirical examination of available information to arrive at the recognition that in order to dissolve the complexity of the associated threat we need to scrutinize the functioning of far right threat groups In depth and consistent analysis on their mode of operation and mindset enables us to identify ways to detect and counter their malicious efforts and activities The theoretical framework for the analysis lies upon the concept of wave theory The main question that this book examines is whether far right terrorism constitutes a new wave of global terrorism One question emerges from this statement that requires further elaboration Is far right terrorism a novel wave of terrorism If yes how is it novel and what are the novelties or developments in it This book is for scholars as well as practitioners in the counter terrorism CT and the prevention countering violent extremism PCVE field Through specific case studies students studying CT and or PCVE could gain insight into the operational functionalities of far right threat groups This may help them to get a more accurate understanding of the threat posed by these entities Examining the recruitment funding communication practices and modus operandi of worrisome threat actors equips us to design the most effective countermeasures and identify the hiatuses in applicable legislative regimes **Racism and Media** Gavan Titley,2019-05-27 Digital media have radically altered understandings of racism so that an issue that has too often been assumed to belong to the past has been thrust into contemporary mainstream debates news and popular culture In light of the importance of traditional communications and social media to such events as Brexit in the UK and the Trump Presidency in the US it is imperative for students of media and public discourse to examine the role played by the media in the generation circulation and contestation of racist ideas In **Racism and Media** Gavan Titley Explains why racism is such a complex and contested concept Provides a set of theoretical and analytical tools with which to interrogate how media dynamics and processes impact on racism and anti racism Demonstrates methods application through a wide range of case studies taking in examples from the UK US and several European countries Examines the rise and impact of online and social media racism Analyses questions of freedom of speech and hate speech in relation to racism and media This book is an essential companion for students of media communications sociology and cultural studies Extreme Right Wing Political Violence and Terrorism Max Taylor,Donald Holbrook,P.M. Currie,2013-02-14 In this collection senior experts explore all aspects of extreme right wing political violence from the nature

of the threat processes of engagement and ideology to the lessons that can be drawn from exiting such engagement Further right wing activism and political violence are compared with Jihadi violence and engagement Also the European experience is placed within a greater framework including that of the United States and the Arab Spring The book opens with an essay on U S far right groups investigating their origins and processes of recruitment It then delves into violence against UK Mosques and Islamic centers the relationship between Ulster loyalism and far right extremism the Dutch extremist landscape and the July 2011 Norway attacks Also discussed are how narratives of violence are built and justified at what point do individuals join into violence and how differently states respond to left wing vs right wing extremism This comparative work offers a unique look into the very nature of right wing extremism and will be a must read for anyone studying political violence and terrorism

Gender and Far Right Politics in Europe Michaela Köttig, Renate Bitzan, Andrea Petö, 2016-12-20 This book is a systematic consideration of the link between the extreme right and the discourse about developments in regard to gender issues within different national states The contributors analyze right wing extremist tendencies in Europe under the specific perspective on gender The volume brings together the few existing findings concerning the quantitative dimension of activities carried out by men and women in different countries and illuminates and juxtaposes gender ratios along with the role of women in right wing extremism Along with the gender specific access to right wing groups the chapters look at networks organizational forms specific strategies of female right wing extremists their ideologies especially regarding femininity and masculinity hetero normativity discourses on sexuality and preventive and counter strategies The book will be of use to students and scholars interested in gender and politics European politics and political extremism

Everyday Islamophobia Peter Hopkins, 2025-09-17 Available open access digitally under CC BY NC ND licence Everyday experiences of anti Muslim racism include accounts of Islamophobia in public spaces in the school playground on social media and on public transport This book explores how Islamophobia pervades the daily lives of Muslims and those perceived to be Muslim drawing upon work by the author and leading researchers Everyday Islamophobia tends to be regarded as low level or trivial This book considers the influence of organisations agencies and individuals on those who find themselves negotiating its significant harms in education the community and online It concludes by exploring strategies to challenge and resist Islamophobia

Violent Racism Benjamin Bowling, 1999 This fascinating book documents the everyday abuse assault and intimidation that is suffered by black and Asian people in Great Britain every day using information gathered in an East London London case study The author explains and analyses the process through which violence is targeted at these minorities and the role that the ideas and language of racial exclusion take in this process The failure of the police to respond to this problem is then looked at in depth This book is based on detailed analysis of official documents a victimization survey interviews and direct observation seen in the overall context of the history of race relations in Britain The author describes many of the thousands of racist attacks that have occurred in recent years and the events in the last two decades that have

shaped English racism and the political response to it In this paperback edition Ben Bowling s Preface examines the racist murder of the black teenager Stephen Lawrence whose killing in cold blood on an ordinary English street in April 1993 did not hit the headlines until February 1999 causing reverberations across the whole body of British politics and beyond

The Far-Right in International and European Law Natalie Alkiviadou, 2019-04-18 Since the Second World War the international community has sought to prevent the repetition of destructive far right forces by establishing institutions such as the United Nations and by adopting documents such as the Universal Declaration of Human Rights Jurisprudence and conventions directly prohibit far right speech and expression Nevertheless recently violent far right entities such as Golden Dawn of Greece have received unprecedented electoral support xenophobic parties have done spectacularly well in elections and countries such as Hungary and Poland are being led by right wing populists who are bringing constitutional upheaval and violating basic elements of doctrines such as the rule of law In light of this current reality this book critically assesses the international and European tools available for States to regulate the far right It conducts the analysis through a militant democracy lens This doctrine has been considered in several arenas as a concept more generally in the sphere of the European Convention on Human Rights in relation to particular freedoms such as that of association and as a tool for challenging the far right movement through the spectrum of political science However this doctrine has not yet been applied within a legal assessment of challenging the far right as a single entity After analysing the aims objectives scope and possibility of shortcomings in international and European law the book looks at what state obligations arise from these laws It then assesses how freedom of opinion and expression freedom of association and freedom of assembly are provided for in international and European law and explores what limitation grounds exist which are directly relevant to the regulation of the far right The issue of the far right is a pressing one on the agenda of politicians academics civil society and other groups in Europe and beyond As such this book will appeal to those with an interest in International European or Human rights Law and political science

Far Right And Racism Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the power of words has become more evident than ever. They have the capacity to inspire, provoke, and ignite change. Such could be the essence of the book **Far Right And Racism**, a literary masterpiece that delves deep into the significance of words and their effect on our lives. Written by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book's key themes, examine its writing style, and analyze its overall effect on readers.
