Far Side Of Evil:

The Far Side of Evil Sylvia Engdahl, 2003-03-01 On completion of her training as an agent of the interstellar federation's Anthropological Service Elana is sent to a world whose people may soon destroy their civilization Since not enough is understood about the situation to justify any interference with their evolution the Service has no power to act its agents must go as helpless observers posing as natives in the hope of gaining knowledge that may help to save other worlds This passive role proves intolerable to the young inexperienced agent assigned to the same city as Elana a city under totalitarian rule After falling in love with a local girl who has become Elana's closest friend he identifies too completely with the natives and unwittingly endangers the entire world by a well meant but ill advised attempt to intervene Forced to assume responsibility for undoing the damage Elana finds that only she at great cost can prevent an immediate war of annihilation Although this novel has the same heroine as the author's Newbery Honor book Enchantress from the Stars it is not a sequel but a completely separate and very different story not intended for readers below high school age which is also enjoyed by adults The two books are in no way dependent on each other and can be read in either order

The Tragedy of Almighty Sybe Schaap, 2016-01-06 The Tragedy of Almighty encircles the theme of human yearning for omnipotence as expressed in religion and various ideologies The central question revolves around the matter of what in pursuing such an extreme power of the will man seeks to achieve While exploring the question a thought provoking link is made between religion and atheism between the Biblical longing for God's promise and the Marxist appeal for man to realize that same promise Omnipotence must vouch for the fulfilling of the promise for justice and for man's dream of redemption However that is not where it ends The longing for salvation turns out to have a dangerous reverse side to it because it encourages a turning away from the actual world and the all pervading evil Omnipotence also facilitates the avenging of such evil History has shown what this kind of yearning can lead to The book demonstrates how modernity translates Biblical longings into ideologically justified revengefulness The description of this process leads to a plea for renewed ethical purpose in life It is a challenge that also extends to religion Hence the reason that it is necessary to depart from the idea of omnipotence

The Menace from Farside Ian McDonald, 2025-08-22 In The Menace from Farside Ian McDonald returns to his elegantly wound solar system of the twenty second century full of political intrigue and complicated families Remember Lady Luna knows a thousand ways to kill you but family is what you know Family is what works Cariad Corcoran has a new sister who is everything she is not tall beautiful confident They're unlikely allies and even unlikelier sisters but they're determined to find the moon's first footprint even if the lunar frontier is doing its best to kill them before they get there Praise for Ian McDonald's Luna series McDonald's never written a bad novel but Luna New Moon is a great one Cory Doctorow With an action narrative driving this political commentary Luna is actually a fantastically fun read as well as an important one Los Angeles Review of Books At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

The Lion of Farside John Dalmás, 1995 Curtis Macurdy would have been content to spend his life with his wife Varia earning a living by tilling his land in the American Midwest But Varia is from Yuulith and when the Sisterhood called her home she refused to go Their big mistake was kidnapping her For Curtis may seem like an ordinary farmer but underneath lurks a strategic genius of the highest order

Selected Essays on Enchantress from the Stars and More Sylvia Engdahl, 2024-05-22 The lead essay in this collection by the author of Newbery honor book *Enchantress from the Stars* deals with issues that she wants readers of the novel to be aware of Too often misinterpretations arise when the story is thought to be an allegory about relations between different cultures of our own world when it is literally about possible relations between different human species of other worlds that have evolved for vastly different lengths of time The two situations are not comparable and assuming that they are leads some readers to think the book endorses a view of cultural relations that was rejected by anthropologists long ago Though much in the story does apply to relationships between individual people of our world as far as culture is concerned its aim is to counter the all too common science fiction view of extraterrestrial aliens either as hostile or as benevolent beings who will step in to solve Earth's problems Whether or not there really are any aliens how young people think of them affects how they feel about the future of humankind The rest of the essays in this book are about the author's other Young Adult novels and about subjects relevant to them such as the importance of space exploration and the reality of psi powers They have been selected from her collections *Reflections on Enchantress from the Stars* and *Other Essays the Future of Being Human and Other Essays* and *From This Green Earth* Essays on Looking Outward two of which are available only as ebooks Because of their length these collections cannot be issued as paperbacks at reasonable prices so this short sampler has been produced for the benefit of readers who have a strong preference for print books and or audiobook The following essays are included *Reflections on Enchantress from the Stars* *Perspective on the Future* *The Quest of Space Age Young People* *Faith as the Focus of Children of the Star* *Update on the Critical Stage* *The Far Side of Evil's Relevance Today* *A Response to Some Reactions to Journey Between Worlds* *Breaking Out from Earth's Shell* *The Role of Psi in Human Affairs* *The Roots of Disbelief in Human Mind* *Powers* *Transhumanism Is a Dead End* *The Worship of Medical Authority* *Why I Don't Read Much Science Fiction*

From This Green Earth: Essays on Looking Outward Sylvia Engdahl, 2024-05-03 Sylvia Engdahl became fascinated by the idea of space travel in 1946 and has believed since the early 1950s that expansion of our species to other worlds is vital to the preservation of Earth and the future survival of humankind Many of the essays in this book express her conviction that we should not be discouraged by the public's reluctance to support space activity since all past human progress has been brought about by visionaries who did not have the backing of their contemporaries The shock of realizing during the moon landings that contact with the vast and perhaps peril fraught universe is no longer mere fiction dampened the enthusiasm of the majority but this was a natural reaction comparable seventeenth century people's resistance to the idea that Earth is not as formerly thought safely enclosed within crystal

spheres that hold up the celestial bodies It will pass and we need have no doubt that generations who come after us will venture forth from this green Earth and find their way to the stars The following essays are included The Once and Future Dream new Thoughts on the 50th Anniversary of the First Moon Landing Breaking Out from Earth's Shell Why Does the History of Outlook Toward Space Matter Confronting the Universe in the Twenty First Century Space and Human Survival The Only Sensible Way to Deal with Climate Change Update on the Critical Stage The Far Side of Evil's Relevance Today Space Colonization Faith and Pascal's Wager Why There Will Never Be an Interplanetary War Humankind's Future in the Cosmos

The Far Side of Evil, *Farside* Ben Bova, 2013-02-12 Six time Hugo Award winner Ben Bova presents *Farside* *Farside* the side of the Moon that never faces Earth is the ideal location for an astronomical observatory It is also the setting for a tangled web of politics personal ambition love jealousy and murder Telescopes on Earth have detected an Earth sized planet circling a star some thirty light years away Now the race is on to get pictures of that distant world photographs and spectra that will show whether or not the planet is truly like Earth and if it bears life *Farside* will include the largest optical telescope in the solar system as well as a vast array of radio antennas the most sensitive radio telescope possible insulated from the interference of Earth's radio chatter by a thousand kilometers of the Moon's solid body Building the *Farside* observatory is a complex often dangerous task On the airless surface of the Moon under constant bombardment of hard radiation and infalling micrometeoroids builders must work in cumbersome spacesuits and use robotic machines as much as possible Breakdowns mechanical and emotional are commonplace Accidents happen some of them fatal What they find stuns everyone and the human race will never be the same Bova's latest novel is one of his best and a classic use of the old sf theme of humanity reaching out for immortality among the stars Booklist starred review on *Farside* At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

When she receives a spaceliner ticket as a high school graduation gift from her dad, she is dismayed but reluctantly agrees to go with him in part because she is infuriated by her fiancé's high-handed declaration that she can't. Her outlook begins to change when she meets Alex Preston, a second-generation Martian colonist who is going home after college on Earth. Alex believes settling Mars is important. He is looking forward to the role he expects to play in the colony's future. Melinda finds this hard to understand yet she is more and more drawn to him and while on Mars to his family. Torn between what she has always wanted and upsetting new feelings, she wonders if she can ever again be content. It takes tragedy and a terrifying experience on the Martian moon Phobos to make her aware of what really matters to her. **The Far Side of Evil** Sylvia L. Engdahl, 1973 **Evil's Edge** Tim LaHaye, Jerry B. Jenkins, 2010 A compilation of books 7-9 in the Left Behind series. The Indwelling. It's the midpoint of the seven-year Tribulation. The Mark Nicolae Carpathia is back, resurrected and indwelt by the devil himself. Terror comes to the believers in Greece as they are among the first to face a GC loyalty mark application site and its hideous death contraption. Desecration. They're everywhere gracing movie screens, Coke ads, and merchandise. But don't let those happy feet fool you. When they're not surfing or marching bravely across the Antarctic, penguins have a whole other agenda going on. And it isn't pretty. In *Evil Penguins*, Elia Anie captures the antics of cute little birds who have gone over to the dark side. If you thought the worst a penguin could do is make you feel guilty about global warming, think again. Here are cartoons of penguins leading revolts, giving SpongeBob a swirly, causing plagues, clubbing baby seals, killing Inuits while dressed as ninjas, and wreaking havoc in dozens of other hysterically appalling ways. Both penguin lovers and those who know that evil can come in even the cuddliest packages will appreciate these bad birds. *SunWise*, 2008 1 CD ROM in English, 1 CD ROM in Spanish containing over 50 standards-based cross-curricular activities, posters, videos, policy guidelines, fact sheets, brochures, story and activity books, and more. **Ecology and Existence** Matthew C. Ally, 2017-07-20 This study explores the increasingly troubled relationship between humankind and the Earth with the help of a simple example and a complicated interlocutor. The example is a pond which it turns out is not so simple as it seems. The interlocutor is Jean-Paul Sartre, novelist, playwright, biographer, philosopher, and despite his several disavowals, doyen of twentieth-century existentialism. Standing with the great humanist at the edge of the pond, the author examines contemporary experience in the light of several familiar conceptual pairs: nature and culture, fact and value, reality and imagination, human and nonhuman, society and ecology, Earth and world. The theoretical challenge is to reveal the critical complementarity and experiential unity of this family of ideas. The

practical task is to discern the heuristic implications of this lived unity in diversity in these times of social and ecological crisis Interdisciplinary in its aspirations the study draws upon recent developments in biology and ecology complexity science and systems theory ecological and Marxist economics and environmental history Comprehensive in its engagement of Sartre s oeuvre the study builds upon his best known existentialist writings and also his critique of colonialism voluminous ethical writings early studies of the imaginary and mature dialectical philosophy In addition to overviews of Sartre s distinctive inflections of phenomenology and dialectics and his unique theories of praxis and imagination the study also articulates for the first time Sartre s incipient philosophical ecology In keeping with Sartre s lifelong commitment to freedom and liberation the study concludes with a programmatic look at the relative merits of pragmatist prefigurative and revolutionary activism within the burgeoning global struggle for social and ecological justice We learn much by thinking with Sartre at the water s edge surprising lessons about our changing humanity and how we have come to where we are timely lessons about the shifting relation between us and the broader community of life to which we belong difficult lessons about our brutal degradation of the planetary system upon which life depends and auspicious lessons too about a participatory path forward as we work to preserve a habitable planet and build a livable world for all earthlings **Faith and Fragmentation** J. Philip Wogaman,2004-01-01

In this classic reissue scholar pastor and author J Philip Wogaman addresses people who wonder whether Christian Faith makes sense in light of the sweeping changes of our age changes that have created at the same time a pluralistic world a technologically sophisticated world a dangerous world a world of great prosperity and yet great suffering What are we to make of this time we live in Can the Christian faith really provide a stable foundation Wogaman wrestles with these and other questions as he investigates the true meaning of a Christian faith with a positive understanding of religious pluralism and a rejection of fanaticism He concludes that this faith is a hopeful love that proclaims the centrality of love against selfishness and the power of hope against despair **The Wauchula Woods Accord** Charles

Siebert,2009-06-09 WHILE TRAVELING AROUND THE COUNTRY to report on the conditions in which captive chimpanzees in America live Charles Siebert visited a retirement home for former ape movie stars and circus entertainers in Wauchula Florida known as the Center for Great Apes There Siebert encountered Roger a twenty eight year old former Ringling Bros star who not only preferred the company of people to that of his fellow chimps but seemed utterly convinced that he knew the author from some other time and place Mostly I was struck by Roger s stare writes Siebert his deep set hazel eyes peering out at me with what to my deep discomfort I d soon realize is their unchanging expression It is a beguiling mix of amazement and apprehension the look as I ve often thought of it since of a being stranded between his former self and the one we humans have long been suggesting to him A sort of hybrid of a chimp and a person A veritable humanzee Haunted by Roger s demeanor Siebert promptly moved into a cottage on the grounds of the Center for Great Apes spending day after day with Roger trying to get to the bottom of the mysterious connection between them And then late one night awakened by the

cries of chimpanzees a sleepless and troubled Siebert suddenly began to conjure a secret predawn encounter with his new cross species confidant an apparently one sided conversation that in fact takes us to the very heart of the author s relationship with Roger and of our relationship with our own captive primal selves The result is The Wauchula Woods Accord a strikingly written wide ranging physical and metaphysical foray out along the increasingly fraught frontier between humans and animals a journey that encompasses many of the author s encounters with chimpanzees and other animals as well as the latest scientific discoveries that underscore our intimate biological bonds not only with our nearest kin but with far more remoteseeming life forms By journey s end the reader arrives at a deeper understanding both of Roger and of our numerous other animal selves a recognition an accord that carries a new sense of responsibility for how we view and treat all animals including ourselves
