

The background of the book cover is a watercolor illustration. At the top, there are green, leafy trees. Below them, a person with dark hair, wearing a red long-sleeved shirt and dark pants, is sitting in a small, narrow boat. The person is leaning forward, holding a long, thin object (possibly a paddle or a stick) in their mouth. The boat is on a body of water, which is depicted with light blue and white washes. The overall style is soft and painterly.

Faraway Rivers:

The Faraway Mountains Radu Guiasu, 2023-11-07 A dark chapter in recent human history The first part of this novel follows the adventures of three young friends during a memorable last mountain climbing trip to a remote area of a country under the control of a ruthless authoritarian regime During their journey the young men have to cope with bear encounters venomous adders colorful locals storms dangerous climbs flooded caves and other challenges as the main purpose of their trip is gradually revealed A second story intertwined with the first one focuses on a brilliant young pianist and his ill fated quest for freedom Urban life in the dreary capital where the young men regularly reside is the focus of the second part of the novel when the friends begin to go their own separate ways and come to terms with their very different future prospects The challenges of life in the capital which include run ins with feral dog packs and the secret police are very different than those faced in the mountains but not less dangerous Ultimately this is a book about friendship the noble irreverent and indomitable aspects of the human condition as well as a dark chapter in recent human history and the various ways in which different people cope with difficult and unfair conditions It is an often hilarious and sometimes heartbreaking exploration of the absurdities of life under an increasingly erratic dictatorship which is gradually losing its grip on the people it could never fully control

Rivers of Power Laurence C. Smith, 2020-04-21 An eye opening sometimes alarming and ultimately inspiring natural history of rivers and their complex and ancient relationship with human civilization Elizabeth Kolbert Pulitzer Prize winning author of *The Sixth Extinction* Rivers more than any road technology or political leader have shaped the course of human civilization They have opened frontiers founded cities settled borders and fed billions They promote life forge peace grant power and can capriciously destroy everything in their path Even today rivers remain a powerful global force one that is more critical than ever to our future In *Rivers of Power* geographer Laurence C Smith explores the timeless yet underappreciated relationship between rivers and civilization as we know it Rivers are of course important in many practical ways water supply transportation sanitation etc But the full breadth of their influence on the way we live is less obvious Rivers define and transcend international borders forcing cooperation between nations Huge volumes of river water are used to produce energy raw commodities and food Wars politics and demography are transformed by their devastating floods The territorial claims of nations their cultural and economic ties to each other and the migrations and histories of their peoples trace back to rivers river valleys and the topographic divides they carve upon the world And as climate change technology and cities transform our relationship with nature new opportunities are arising to protect the waters that sustain us Beautifully told and expansive in scope *Rivers of Power* reveals how and why rivers have so profoundly influenced our civilization and examines the importance this vast arterial power holds for the future of humanity As fascinating as it is beautifully written Jared Diamond Pulitzer Prize winning author of *Guns Germs and Steel* *Collapse* and *Upheaval*

A Sangoma's Story - The Calling of Elliot Ndlovu Melanie Reeder, 2012-09-27 My body has two lives the spiritual as well as the physical These are the words of Elliot Ndlovu a traditional healer sangoma who lives deep in the Drakensberg Mountains of KwaZulu Natal He lives two lives dividing time between his rural homestead and a world class hotel and spa constantly bridging the differences between these opposing worlds As a young man he was awoken in the dead of night by an apparition sent by his ancestors In terror he fled to a river where he was submerged until sunrise On the bottom of a riverbed he claimed to acquire all the knowledge of his cultural heritage to heal bodies and minds Ndlovu is a natural conservationist and leader who believes in the preservation of indigenous flora in the strength of community and in ubuntu the philosophy that the universal bonds of humanity are what bind us KwaZulu Natal's violent path to democracy mirrored his own turbulent journey through mental illness his *uthwasa* the necessary process of suffering to become a traditional healer But torment and tragedy led to consultations with Oscar nominees in Hollywood a meeting with the British Queen and a Christmas visit from a former state president Ndlovu's tales of storm chasing and magical serpents may be challenging for some but the poignancy of his story and unwavering belief in African traditional healing are what endear him to the most hardened cynic Melanie Reeder has captured the essence of this modern sangoma She sheds light on the beauty of Zulu culture and clarifies misconceptions about traditional healing

Laying Down Arms to Heal the Creation-Evolution Divide Gary N. Fugle, 2015-01-01 Battles over creation or evolution have been perpetuated for years by vocal Christians and scientists alike But conflict has never been the only choice Laying Down Arms to Heal the Creation Evolution Divide presents a comprehensive uplifting alternative that brings together an orthodox biblical view of a sovereign Creator God and the meaningful discoveries of modern evolutionary biology Gary Fugle offers unique insights into this debate from his dual perspective as both an award winning biology professor and a committed leader in conservative evangelical churches In focusing on the stumbling blocks that surround creation and evolution debates Fugle sensitively addresses the concerns of skeptical Christians and demonstrates how believers may celebrate evolution as a remarkable aspect of God's glory He describes how the mainstream scientific community as well as numerous Christians may alter current approaches to eliminate conflicts He explains conservative readings of early Genesis that respect both the inerrant words of Scripture and the evolutionary revelations in God's natural creation This book is for individuals who sense that biblical Christian faith and evolution are compatible without compromising core convictions If given good reasons to do so are we willing to lay down our arms to affirm an encompassing vision for the future
