Farewell To The Peasantry:

Farewell To The Peasantry? Gerardo Otero, 2019-03-06 Farewell to the Peasantry questions class reductionist assumptions in certain Marxist and populist approaches to political movements in twentieth century rural Mexico highlighting the interpretation of the process of political class formation Peasants and Globalization A. Haroon Akram-Lodhi, Cristóbal Kay, 2012-08-21 In 2007 for the first time in human history a majority of the world's population lived in cities However on a global scale poverty overwhelmingly retains a rural face This book assembles an unparalleled group of internationally eminent scholars in the field of rural development and social change in order to explore historical and contemporary processes of agrarian change and transformation and their consequent impact upon the livelihoods poverty and well being of those who live in the countryside The book provides a critical analysis of the extent to which rural development trajectories have in the past and are now promoting a change in rural production processes the accumulation of rural resources and shifts in rural politics and the implications of such trajectories for peasant livelihoods and rural workers in an era of globalization *Peasants and Globalization* thus explores continuity and change in the debate on the agrarian question from its early formulation in the late 19th century to the continuing relevance it has in our times including chapters from Terence Byres Amiya Bagchi Ellen Wood Farshad Araghi Henry Bernstein Saturnino M Borras Ray Kiely Michael Watts and Philip McMichael Collectively the contributors argue that neoliberal social and economic policies have in deepening the market imperative governing the contemporary world food system not only failed to tackle to underlying causes of rural poverty but have indeed deepened the agrarian crisis currently confronting the livelihoods of peasant farmers and rural workers This crisis does not go unchallenged as rural social movements have emerged for the first time on a transnational scale Confronting development policies that are unable to reduce let alone eliminate rural poverty transnational rural social movements are attempting to construct a more just future for the world's farmers and rural workers **Poems of purpose, and sketches in prose of Scottish peasant life and character [&c.].** Janet Hamilton, 1865 **Frantz Fanon and Emancipatory Social Theory**, 2019-10-01 In *Frantz Fanon and Emancipatory Social Theory* A View from the Wretched Dustin J Byrd and Seyed Javad Miri bring together a collection of essays by a variety of scholars who explore the lasting influence of Frantz Fanon psychiatrist revolutionary and social theorist Fanon's work not only gave voice to the wretched in the Algerian War of Independence 1954-1962 but also shaped the radical resistance to colonialism empire and racism throughout much of the world His seminal works such as *Black Skin White Masks* and *The Wretched of the Earth* were read by The Black Panther Party in the United States anti imperialists in Africa and Asia and anti monarchist revolutionaries in the Middle East Today many revolutionaries and scholars have returned to Fanon's work as it continues to shed light on the nature of colonial domination racism and class oppression Contributors include Syed Farid Alatas Rose Brewer Dustin J Byrd Sean Chabot Richard Curtis Nigel C Gibson Ali Harfouch Timothy Kerswell Seyed Javad Miri Mumia Abu Jamal Pramod K

Collective Empowerment in Latin America Gerardo Otero, Efe Can Gürcan, 2024-06-20 This book develops a theory of collective empowerment that looks for change both from the bottom up in civil society and from the top down from state interventions responding to such pressure Reflecting on the advancement of Indigenous and peasant movements in Latin America since the neoliberal reformation of capitalism in the 1980s the book outlines a path for progressive social action in which bottom up pressure by social movements can help progressive parties to gain state power The book considers how Indigenous and peasant movements in Argentina Bolivia Brazil Ecuador and Mexico have tried to reshape crucial structures of society from the bottom up While this mobilization from below is critical and necessary the book argues that these movements must be supplemented by top down change from progressive state interventions as happened mostly in Bolivia and Brazil The authors conclude that progressive societal action can have massive impact in transforming some of the main socioeconomic structures that determine humans' relation to the extraction of natural resources income and wealth inequality
