Grandma s **Rogue River Journal** John Daniel,2005-04-14 In November of 2000 after the presidential election but before the final results had been handed down by the Supreme Court John Daniel climbed into his pickup drove to a remote location in Oregon s Rogue River Canyon and quit civilization The strictures were severe with no two way human communication not even with his wife and no radio no music not even his cat He would isolate himself in a cabin sure to be snowed in soon after his arrival intent on hearing no human voice but his own until spring thawed the road This experiment in solitude was an attempt to clarify his identity while pursuing daily life without the distractions of the world at large Daniel had spent a week or two alone before but this would be an entirely new challenge and as he drove off into the mountains he felt a fear tinged freedom Rogue River Journal chronicles his journey in solitude a season of memory and his search for a coherent place to stand on the earth **List of Available Publications of the United States Department of Agriculture** United States. Department of Agriculture,1941 **Miscellaneous Publication** ,1945 Ladies' Home Journal Edward William Bok,1913 **The Depression Dilemmas of Rural Iowa, 1929-1933** Lisa L. Ossian,2012-01-01 To many rural Iowans the stock market crash on New York s Wall Street in October 1929 seemed an event far removed from their lives even though the effects of the crash became all too real throughout the state From 1929 to 1933 the enthusiastic faith that most Iowans had in Iowan President Herbert Hoover was transformed into bitter disappointment with the federal government As a result Iowans directly questioned their leadership at the state county and community levels with a renewed spirit to salvage family farms demonstrating the uniqueness of Iowa s rural life Beginning with an overview of the state during 1929 Lisa L Ossian describes Iowa s particular rural dilemmas evoking through anecdotes and examples the economic nutritional familial cultural industrial criminal legal and political challenges that engaged the people of the state The following chapters analyze life during the early Depression new prescriptions for children s health creative housekeeping to stretch resources the use of farm playlets to communicate new information creatively and memorably the demise of the soft coal mining industry increased violence within the landscape and the movement to end Prohibition The challenges faced in the early Great Depression years between 1929 and 1933 encouraged resourcefulness rather than passivity creativity rather than resignation and community rather than hopelessness Of particular interest is the role of women within the rural landscape as much of the increased daily work fell to farm women during this time While the women addressed this work simply as making do Ossian shows that their resourcefulness entailed complex planning essential for families emotional and physical health Ossian s epilogue takes readers into the Iowa of today dominated by industrial agriculture and asks the reader to consider if this model that stemmed from Depression era innovation is sustainable Her rich rural history not only helps readers understand the particular forces at work that shaped the social and physical landscape of the past but also traces how these

landscapes have continued in various forms for almost eighty years into this century
