Bokemeier,Barbara Foote,2014-10-17 The image of the family farm as storehouse of the traditional values that built this nation self reliance resourcefulness civic pride family strength concern for neighbors and community honesty and friendliness persists as many recent surveys show But the reality of this rich tradition is rapidly changing eroding the security once represented by these nostalgic images of rural America Although the United States is still by far the world s leading overall producer of agricultural products the number of American families making their livelihood through farming is much diminished and if our demographers are correct the number of family operated farms is destined to fall still further in the coming decades as consolidation cycles of boom and bust and corporate invasions redefine who will farm the land Harvest of Hope is a story of farm family life through the words of those who live it The saga of the generations who have lived and worked on Basin Spring farm in western Kentucky is the thread that binds together the stories of eighty other farm families They talk about their family businesses their way of life and the forces reshaping their lives The challenges of making a living in farming either strengthen families or break them Technology government programs and community changes that are supposed to be the hope for their future often come with unexpected drawbacks The stories in this book tales of growing up in farming working in a multifamily business juggling jobs on and off the farm and struggling to maintain financial security and comfortable working relationships reveal what American farming families know about hope and survival in a changing world The authors offer a multifaceted view of the present situation as well as suggestions for ways of enhancing the positive elements that have enriched and inspired Americans in the past It is an analysis that highlights the myths and realities of a business and way of life that has a powerful hold on the American imagination The reader comes away from this work with a clear idea of the tribulations farming families endure and the delicate balance between the spiritual and other rewards of farm life **South Africa** South African Native Affairs Commission,1904
